Sensenbrenner Wins Endorsement Of The 9th Ward Democrats

At one of the Ninth Ward Democratic précinct meetings held last week at the home of Mr. and Mrs. Frank Schneider, 212 Avondale-av, ward committeeman, Maynard E. "Jack" Sensenbrenner, candidate for mayor at the Nov. 3 election, was given the endorsement of that group. Sensenbrenner is pictured at the right above as he receives the well wishes of Ward Committeeman Schneider and the well wishes of the more than 35 guests who were assembled at the meeting.

M. E. "Jack" Sensenbrenner today renewed his challenge for a debate with the present mayor of Columbus.

The Democratic Party's candidate for mayor declared in a round of speeches that the incumbent administration was afraid to tell the people the real facts about the scandal in the division of electricity, the failure to start numerous projects voted by the taxpayers, the collapse in garbage collection and many other failures.

"Morale in the police and fire departments is the worst it has been for years," Sensenbrenner declared.

"The present do-nothing administration has been telling the people for 10 years what it will do, but nothing has happened," the Hilltop business man told his audiences on the East, North and South Sides. "What has happened to the promises for more water, more recreational facilities, off-street parking, a settlement of the bus issues and all the others?" Sensenbrenner asked. "Maybe the mayor would like to join me on Town Meeting of the Air to explain the 10-year-old promises that have not been kept. Like the one-party press in other sections of the United States the newspapers are covering up for the present administration, shielding the mistakes, broken promises and political payoffs in city hall.

"Now we read the city is going to pay another $16,000 for some experts to tell us about planning. What has the planning commission been doing these past years?

"What about the municipal golf course for which the taxpayers are paying but have never been able to use?"

Sensenbrenner challenged the present mayor to debate these issues and explain to the people why his administration has broken its word. He also defied the mayor to promise that there would be no increase in the city income tax.

"It's time for a change in Columbus from inertia and dry rot to progress and action," the [illegible] cratic candidate added.

Local Pastor Pleas For More Temperance

"Americans are spending three times as much for intoxicating beverages as for all the religious life of the nation and twice as much as for gasoline and oil for automobiles, Pastor Richard T. Minesinger told his congregation Saturday in announcing a special temperance offering to be received in the Eastwood Seventh-day Adventist Church Oct. 31 during a Temperance Day program.

"These statistics are appalling," he declared. "We had better wake up and curb this menace which threatens to destroy all that is fine and good in America."

Pastor Minesinger said part of Saturday's offering will be used to help finance sociological and scientific research in problems of alcoholism. Another part of the offering will go toward educating youth on the dangers of alcohol.

Seventh-day Adventists are total abstainers from all alcoholic beverages.

LITERARY CLUB TO MEET

The Sunset Literary Club will meet Wednesday, Oct. 28, at 1:30 p. m. at the home of Mrs. E. H. Cothran, 196 Binns-blvd. Mrs. F. E. Swain will act as co-hostess and the program, patterned after "It's News To Me" will be under the direction of Mrs. Mary Fletcher. Garments will be received for the Needlework Guild.

Careless Magician

"I hear Jim's studying to be a magician."

"Yeah, he was doing pretty well until he went to the hospital."

"What's he doing in the hospital?"

"He lost control of his car and it turned into a tree."

Church Holds Layman's Day

Cleazo Bell Fox, lay leader of the Wheatland Methodist Church, was the speaker for the 11 o'clock services last Sunday when Laymen's Day was observed. His topic was "Christ Calls Men." Fox was presented a brief case for his services rendered to the church school as youth superintendent during the past year. Porter Cook, superintendent of the adult department, spoke at the evening services. Music was rendered by the Gospel Choir and Men's Chorus of the Centenary Methodist Church.

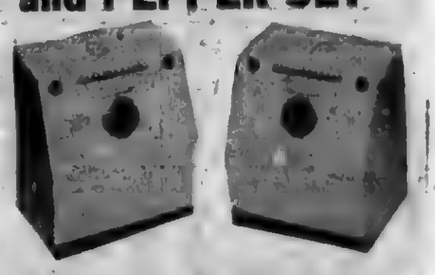
The Church School and commission on education conducted the promotion exercises during the Sunday School hour. Clarence Wiggs is chairman of the commission and Clarence Frbe is superintendent of the church school.

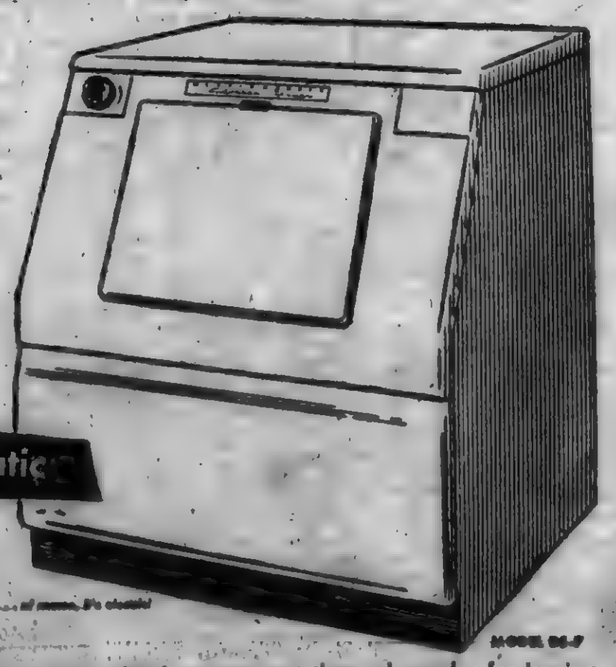
LETTERS TO THE EDITOR

Dear Editor:

I would like to call to your attention an error made in last week's Armed Service section.

S/N Nayna P. Binkley, Pfc. Walter Harvey Binkley and Mrs. Carl Work are the children of Mrs. Madge Z. Weimer and Walter F. Binkley.





Mrs. Weimer is past president of Veterans of Foreign Wars, Post 3441; past president of Franklin County Council VFW and now holds an office in District 11, VFW. She has been very active in Blue Star Mothers and in veterans' organizations for the past 12 years.

I would like to have this error corrected for her protection in this veterans' work.

Sincerely
Mrs. Clifford Thompson,
34 N. Warren-av,
President of Veterans of Foreign Wars,
Westway Auxiliary, 3441.

It's Your Duty As A Citizen

Next Tuesday, Nov. 3, is election day, a day of importance to every American citizen, a day of duty wherein the ballot box speaks the will of the people, to select governmental leaders. Go to the polls and cast your vote.

Your Schools Need Support

The school bond levy which will be placed before voters on Tuesday is a vital issue which affects most every home in this community. If we are to provide educational facilities for tomorrow's citizens the levy must pass.

Time For a Change In City Hall Again

Important decisions are ahead of citizens of Columbus and to be decided by them next Tuesday . . . election day 1953.

At that time eligible voters will be asked to elect a head of the city government and three members of the city council or board of directors.

This multi-million dollar corporation operates under a none too business-like plan in the first place and it therefore behooves the stockholders to use special care in selection of those who are to operate it.

For the post of mayor we urgently suggest that consideration be given to the candidacy of Jack Sensenbrenner. As stated last week, we believe Jack would make a good mayor because of his "get it done" attitude" and his sincerity and honesty. We believe Columbus needs some of this spirit. We believe all will agree that Columbus will never have a mayor who will work harder at the job.

Then too, we feel a change in city government officials is good, just as it is good on a national scale. Good democracy is maintained when the pendulum can be kept swinging. It tends to bog down and become stagnant when one group perpetuates itself in office. Columbus will do well to have a change.

The Hilltop has two candidates for city council and while we believe Jerry Spears will be elected without too much trouble, we likewise would recommend the candidacy of Edward Walker. Eddie, too, has time to devote to city council and will not be a "yes" man in the job.

Columbus is experiencing rapid growth. If the youngsters of Columbus are to experience a growth in wisdom they need your support with a vote for the school levy and bond issue next Tuesday. Residents of the townships too must look to the future of their families by supporting their school issue.

The Hilltoppers counted 31 points to 55 for East, 69 for South and 94 for Central. Linden McKinley had only four men competing so it had no team score.

Rev. Dunn replaces Rev. Carl Smith who resigned due to additional responsibilities. Rev. Dunn formerly served as a part time staff member of the Findlay YMCA working as a Hi-Y advisor and class instructor.

Brookshire Annexation Is Approved

County Commissioners Tuesday approved an annexation petition for the 60-acre Brookshire area on the Hilltop to join Columbus.

The area, between Richardson and Harris-av and south of Eakin-rd, has been the scene of a $6 million housing development by the Brookshire Park Corp., headed by Al and Ray Tonti.

Over 100 families have moved into the area within the past year, while 400 more homes are under construction. Five streets have been paved by the builders, and four more will be paved next spring.

The area has been a part of Franklin Township.

Survey Reveals Need For Expanded Schools

Pictured here at the new Westgate Elementary School is a scene that is typical all over the City of Columbus today. Crowded classrooms already in a new school where the child population in areas has increased far beyond expectations. This is one of the reasons the new school levy which appears on the November ballot is of such vital importance.

Columbus must begin to expand its junior high school capacity by 43 percent immediately, if it hopes to cope with the expected upsurge in enrollment in grades 7-9 beginning two years from now.

It doesn't seem possible, but the bumper crop of war babies now jamming elementary schools will begin to enroll in junior highs in September, 1956, school officials say.

That may seem like a long time yet, but educators warn that it will take the better part of the intervening two years to sketch plans, award contracts and construct sufficient facilities to handle the tide of youngsters.

In fact, there's some doubt that all of the details involved in erecting a major building — such as a junior high — could be completed in time to secure its opening by September of 1955.

This is why great importance is being attached to recommendations concerning secondary schools (junior and senior highs) in the study of school-housing needs completed last spring.

As a result of this survey, a $14,000,000 bond issue is being submitted to voters at the Nov. 3 general election. Over one-third of the amount is earmarked for the construction of four new junior high schools.

In another proposal, voters will be asked to renew a 7-mill operating levy for the schools.

At the present time, Columbus has room for 11,210 junior high students. But nearly 11,500 seventh, eighth and ninth graders had enrolled by the end of the first week of school this fall, overtaxing existing facilities.

The future presents an alarming picture. Junior high enrollments are expected to spurt at least 1,000 in the next two years, then climb steadily to a peak of 18,940 by 1965-66.

Officials caution that these estimates are conservative and actual enrollments conceivably could run much higher.

The proposed new local junior high would have a capacity ranging from 800 to 1,000 at first and would be built on a tract west of Karmelcrest-av and south of Sullivant-av.

It would be built in such a way as to permit easy expansion.

Commenting on the new junior high, Superintendent N. G. Fawcett said: "Although the building is scheduled to be built on the outskirts of Columbus, it would have a marked effect on junior highs in the city. It would relieve overcrowded conditions at West junior-senior high quickly.

"Starling also would be relieved of overcrowding at an early date, and all of the other junior highs would benefit indirectly by not having pupils from other areas crowded into them."

Junior high capacity would be increased if the new buildings are built and other less urgent recommendations are carried out, Fawcett said. It may be necessary to house some junior-high students in senior-high buildings during the years of peak junior-high enrollment, he added.

Senior high school facilities — capable of handling 9,050 students — are believed to be adequate for at least the next five years, according to the school-housing-needs survey. However, steps should be taken to expand high-school capacities later, survey officials warn.

Minor additions are recommended for West, Linden-McKinley and South High Schools, and it is proposed that the Boys' Trade School be moved to Central High School. This also would necessitate a small addition. Major remodeling projects would be carried out at Crestview, Champion and Everett Junior Highs. Minor remodeling is slated for Central, East and North High Schools and Roosevelt Junior High.

Camp Chase Legion Post Opens Annual Poster, Essay Contests

Third Vice-Commander Richard Martin of Camp Chase Post 96 displays here one of the posters entered in last year's school competition. A new contest is currently under way.

Camp Chase Post 96 of the American Legion this week formally launched its annual poster contest in the art departments of both West and Holy Family High Schools, according to Third Vice-Commander Richard Martin.

Subject of the posters will be "The Legion in Youth Activities" with prizes of $10 for first; $5 for second and $3 for third. The contest started as of Oct. 22 and will close on Friday, Nov. 27, at which time judging will be made by the fine arts department of Ohio State.

Martin also announced that the annual American Legion Essay Contest for students in the ninth, tenth, eleventh and twelfth grades of both West and Holy Family High Schools is also underway as of this date. The essays are to be of not less than 400 nor more than 600 words on the subject of "My Duty to Home and Country."

In the essay contest eight awards will be made in each school by Camp Chase Post to the winners. The contest closes on midnight Jan. 15, 1954. Local winners' entries will be eligible for district and state competitions, too. The winners of the latter receive an all-expense paid trip to Washington, D.C.

In the field of Americanism, Camp Chase Post was also recently spotlighted when they presented an American flag to the City of Columbus for the new Health center on W. Town-st. Martin and Commander Levisay with other members of the post made the presentations at the dedication ceremonis.

Two Critically Hurt Tuesday In Collision

In an accident caused by slippery streets, a West Side woman and a South Side man were critically hurt in a two car collision at the 1600 block of W. Broad-st early Tuesday evening. Both are reported in critical condition in Mt. Carmel Hospital.

Injured were Mrs. Margaret New, 21, 78 S. Starling-st, and Sam Newpoff, 50, 1468 E. Whittier-st.

Hospital attendants said Mrs. New suffered head injuries, while Newpoff had head and chest injuries.

In fair condition was Phillip Mandler, 56, also of the Whittier-st address, who suffered a fractured right knee and possible chest injuries, police said.

Treated at St. Francis Hospital for cuts about the face and hands was Howard New, 25, of the Starling-st address, husband of the injured woman. He was released.

Cruisserman James A. Hanawalt said the accident occurred at 7:20 p. m. as New was driving west in Broad-st, attempting to pass another west-bound auto driven by Dr. George T. Drake, 498 E. North Broadway.

Officers quoted the doctor as saying he felt the New car "nick" his auto, then saw it skid on the rain-slickened street directly into the path of an east-bound car driven by Mandler. Mandler's auto struck the New car "broadside," Hanawalt said.

Both Mr. and Mrs. New apparently were thrown from their car. She was found lying in the street and her husband along the sidewalk.

Fir. Department emergency squadmen and police ambulance cruisermen took the injured to the hospitals.

Sneak Thief Rifles Purses During Church

A total of $42 was stolen from four women's purses during services Sunday morning at Highland Avenue Friends Church, Highland and Floral-ave, it was reported to police.

The purses were all in a rear room at the church. Victimized by the sneak thief were Mrs. Clairebelle Bond of 830 Nashoba-av, who lost $31; Mrs. Lloyd Clark of 294 S. Richardson-av, $6; Mrs. Gladys Barnett of 2756 Steele-av, $5, and Mrs. Chester Stanley of 106 Elden-av, a billfold but no money was stolen.

Twp. Volunteer Firemen Intensify Efforts Toward Fire Levy Passage

Members of three volunteer fire companies comprising the Franklin Township Fire Department were intensifying their efforts to contact every home before Nov. 3. The objective—to call attention to every registered voter to the need for passage of a three-mill fire levy and a one mill road maintenance levy.

By last week-end a large portion of the township had already been contacted and it was expected that by Sunday every home will have been visited. Descriptive folders defining the need for each levy were being left with each householder.

Upon passage of the fire levy hinges the erection of a new central fire station on Sullivant-av, a permanent house in the north section of the township, an emergency squad service and the continued operation of an organized fire protection program after Jan. 1 when the present levy runs out. Passage of the road levy will make possible a planned road improvement program for the next five years.

The fire levy is a renewal of the present 1.6 mill levy passed three years ago plus an increase of 1.4 mills. Due to increased tax valuations, the original fire levy of two mills (passed in 1950) has been reduced to the present 1.6 mills. Township officials point out that future additions to the tax duplicate should reduce the proposed three mill levy to at least half that amount before the expiration of the five year period.

The one mill road maintenance levy is a new tax. It was put on the ballot when hundreds of residents living on township roads expressed a desire for a better job of road maintenance in the future. Road monies available in the past have been totally inadequate, the trustees pointed out, and only a levy voted outside the ten-mill limitation will provide any substantial relief for the road situation.

Township officials have appeared before numerous groups through out the township to explain the need for both levies.

NEW APPOINTEE

Announcement was made this week of the appointment of Joe Coakley, 674 S. Burgess-av, as outside representative for the Buckeye Finance Co., 1299 W. Broad-st. Coakley began his duties with the firm last Friday.

Fire Damages Stored Corn At Hilliards

Approximately four to five thousand bushels of corn were lost in a fire last week at the Farm Bureau elevator in Hilliards. The blaze according to Lawrence Graham, manager of the elevator, started when a top dryer in the huge silo became clogged.

Efforts were made to smother the fire with more corn, according to the report, but the fire continued to smolder, necessitating a call to the Hilliards Fire Department.

Firemen said that four tankers of water were necessary to halt the flames.

Manly Manners

An office boy dashed into his employer's office and asked loudly if he might go to the match. Startled, the employer looked up.

"That is no way to ask permission," he said. "Let me give you a lesson in etiquette. I will go out and act your part. You sit at my desk and make believe you are the boss."

The youngster sat down and the man left the office. Presently he knocked at the door. The employer entered, noiselessly.

"I wonder, sir," he asked meekly, "if you would be so kind as to let me have the afternoon off? I want very much to see a cricket match."

The youngster looked up, grinning broadly, "And here's a half-crown to have some fun with!"

Pirates Spoil West Homecoming Contest, 14-0

Dave Parks' Pirates unhorsed the West High Cowboys last Friday 14 to 0 in a rough and tumble battle at Magly Field. The victory put the Bucs in first place and gave them a reputation for spoiling homecoming tilts.

Edington's opening kickoff was fumbled by the Cowboys' Tom Ongaro and recovered by the Pirates deep in West territory. Joe Morlan picked up five through the line and on the next play ripped through left tackle for the tally. Edington's kick was good and the Parksmen led 7 to 0 after only 35 seconds of the first quarter.

The Cowboys marched the kick-off to their own 44 where Ongaro kicked out on the Central 20. A Bennett to Ankrum pass brought the ball to the 46. Harris on an end around carried to the mid-field stripe. Edington quick kicked to the West 18 at the quarter.

Early in the second quarter the Pirates brought the ball to the West 16 on a Bennett to McCampbell pass. A series of penalties caused the drive to stall and the Cowboys took over. Deshler gambled on fourth down with a pass that failed to connect. With less than a minute Brooks carried to the Cowboys 29. Gene Bennett threw to Morlan on the 10 and to McCampbell for the score which was nullified for backfield in motion as the half ended.

Central returned the ball to the Cowboys' 35 in the third stanza. McCampbell's pass reception and Morlan's line bucks put the ball on the 20. Bennett carried to the 18. Morlan drove like an express train over the goal spreading would-be West tacklers all over the field but this score was also called back for holding. Gene Bennett on the next play chucked a pass to Don Harris and this time it was good. So was Edington's kick. Central led 14 to 0.

The Cowboys almost scored late in the third quarter but Morlan came through with an interception and the Bucs marched to the West 28 where they lost the ball on downs.

A second West drive was cut short as Don Harris intercepted Nafzger's pass and returned it to the Cowboys' 35. Three penalties, all against the Bucs, set them back on the 43, and Edington kicked the Pirates out of trouble. With time running out the Bucs marched to the West 30 yard line where Bennett fumbled and the Cowboys recovered. The gun sounded before either team could accomplish any appreciable gain.

Ohio State Given Edge Over Wildcats By 1 Point

By Dick Dunkel

Having ditched some of their toughest competition, Notre Dame and Maryland took a firmer hold on the top two positions in the college football Power Index after last Saturday's games.

Michigan State and Georgia Tech, formerly their closest pursuers, went down in a crash of the nations two longest unbeaten streaks.

Tech, 27-14 loser to Notre Dame, retained fourth position, but dropped in rating from 105.7 to 104.4.

Michigan State skidded all the way from second to eighth, with 101.7, after being upended, 6-0, by Purdue.

The Irish held the No. 1 spot for the fifth straight week, with 112.3, and Maryland moved into second with 108.2.

Notre Dame has won its four games to date by an average margin of 14.7 points. This was accomplished against opponents with composite rating of 97.6. Adding 14.7 to 97.6 yields the Irish Power Index of 112.3.

Maryland's history is interestingly different. The Terps have walloped six straight opponents by the larger average of 28.2 points. But their opposition has rated only 80.0, for a total rating of 108.2.

Other members of the Top Ten, their records, and latest results, are:

No. 3 Mississippi, 5-1, beat Arkansas, 28-0.

No. 5 UCLA, 5-1, expunged Washington State, 44-7.

No. 6 Baylor, 5-0, edged Texas A&M, 14-13.

No. 7 Oklahoma, 3-1-1, conked Colorado, 27-20.

No. 9 Illinois, 4-0-1, sank Syracuse, 20-13.

Kentucky, tied with Minnesota for 10th position, is 3-2-1 and overcame Villanova, 19-0, while the Gophers, 2-3, were giving Michigan the business, 22-0.

What a difference a week makes in the college football picture.

Seven days ago you could have said that next Saturday's Notre Dame-Navy game loomed as a savage conflict between undefeated forces.

Sure, and now, it has to be billed as an Irish picnic with no shillelaghs allowed.

All because Navy's grid reputation sank without a trace during a 9-6 dunking by Penn last Saturday.

Meanwhile, by whipping Georgia Tech, 27-14, Notre Dame upped its No. 1 Power Index to 112.3—about 17 points higher than Navy's 95.6. And 17 points is the amount the Leahymen should win by, if the proprieties of past performance are to be observed.

Maryland, the nation's second ranking team, should have even less trouble. On Saturday, the Terps, at home in College Park, will stack their 108.2 rating against South Carolina's 81.5—a difference of about 27 points.

Thus, the Power Index shows how all teams have compared up to date—not necessarily how they will do in the future. On that basis, here's how other Top Ten members have rated themselves over opponents of the coming week-end:

No. 3 Mississippi, 8 over LSU.

No. 4 Georgia Tech, 24 over Vanderbilt.

No. 5 UCLA, 9 over California.

No. 6 Baylor, 18 over TCU.

No. 7 Oklahoma, 12 over Kansas State.

No. 8 Michigan State, 30 over Oregon State.

No. 9 Illinois, 6 over Purdue.

No. 10 Kentucky, 2 over Rice.

In the week-end's other outstanding games, the differences are:

Eastern: Marquette 7 over Boston U., Boston College 10 over Richmond, Brown 5 over Princeton, Colgate 12 over Rutgers, Cornell 9 over Columbia, Fordham and Miami, Fla., even, Harvard 25 over Davidson, Syracuse 9 over Holy Cross, Villanova 1 over Xavier, Yale 18 over Dartmouth, and West Virginia 4 over Penn State.

Midwestern: Cincinnati 27 over Dayton, Indiana 1 over Missouri, Iowa 3 over Wisconsin, Kansas 8 over Nebraska, Michigan 10 over Penn, Minnesota 11 over Pitt, Ohio State 1 over Northwestern.

Southern: Alabama 3 over Georgia, Army 8 over Tulane, Duke 27 over Virginia, Mississippi State 4 over Texas Tech, SMU 3 over Texas, Tennessee 12 over North Carolina, Texas A&M 11 over Arkansas.

Far Western: Southern California 15 over Oregon, Stanford 10 over Washington State, Washington 2 over Utah, and Wyoming 21 over Brigham Young.

The Power Index is based on a combination of two factors—average scoring margin and average opposition rating. Originally, all teams started with identical median ratings, thus eliminating guesswork.

Westgate And John Burroughs Win Gra-Y Football Thrillers

By Dick Wilson

Close shaves and hard fought victories were the order of the day last Saturday morning at West High field as the Hilltop YMCA Gra-Y Football League played its weekly games.

Highland Gra-Y, who has not as yet won a game, surprised everyone by nearly upsetting a highly favored John Burroughs eleven. The J.B. team jumped into the scoring column first with a safety when Jimmy Walker caught Floyd Chappelear behind his own goal line early in the second period. Chappelear redeemed himself late in the same quarter when he returned Mike Canthen's punt for 30 yards to scoot across the goal line. Edmond tried a pass to Steve Galentine for the extra point, but it was knocked down by an alert J.B. defense.

John Burroughs recovered its championship form in the third period when Bob Timmons passed to Mike Cantlon for a TD. The play was called back because of an offside penalty. Timmons ran the ball around end on the next play to scoot 35 yards into pay dirt territory. This play was the straw that broke the camel's back and there was no more scoring in the game for either team.

Score by quarters:

The Westgate, West Mound game held the order of the day as they clashed to give the spectators another thriller. The two teams played to a standstill for three quarters.

The only score of the game came in the middle of the second quarter when Westgate's star quarterback "Flash" Wesley made a beautiful 20 yard run around end to score the lone tally of the game. Wesley tried to crash through tackle for the extra point, but his try was not good. "Little Mac" Pemberton of Westgate and Mike May of West Mound were the defensive standouts of the contest.

The greatest comfort idea since automatic heating

Here's a revolutionary new concept in home heating! The A. O. Smith gas-fired Winter Air Conditioner actually replaces heat losses—as they occur! Ordinary thermostat-controlled furnaces can't compensate for heat losses until after the heat is gone and the room is too cold for comfort.

A.O.Smith
WINTER AIR CONDITIONER
the furnace that thinks for your thermostat!
The A. O. SMITH gas-fired furnace ends hot-blast heating because it continuously times the heat to match the need! There's never an excess of heat—always mild, even warmth.
The A. O. SMITH gas-fired furnace eliminates layer cake heating because mild, filtered warmth is constantly, gently in motion from floor to ceiling in every room of your home.
The A. O. SMITH gas-fired furnace ends see-saw temperatures. It replaces heat losses continuously and automatically . . . provides true Living Level Comfort all during the heating season!

Dick Dunkel's COLLEGE FOOTBALL POWER INDEX

EXPLANATION — The Power Index provides a direct comparison of the relative strength of any two teams for this season to date. Thus, a 50.0 team has been 10 scoring points stronger than a 40.0 team on their comparative records, in which average scoring margin has been weighed against average rating of opposition. However, this does not mean that a 50.0 team should defeat a 40.0 team by 10 points in the future, because the ratings have not been adjusted for such important forecasting factors as home team advantage, injuries, lineup changes, etc. Therefore, they are not to be construed in any way as gambling information. The Dunkel system correlates records of all college teams and was started in 1929.

Former Rome Resident Dies In Naval Air Disaster At Sea

By Mrs. James W. Whalen

ROME—Sympathy of this community was extended this week to Mr. and Mrs. Pielgord Hansen of Berlin Twp., Delaware, O., formerly of this community over the recent loss of their son, Petty Officer Gerald L. Hansen. Hansen was among the nine navy men who lost their lives Sunday morning when the Navy Neptune Patrol bomber crashed at sea enroute to home base at Jacksonville, Fla. The bomber developed engine trouble off the coast of Iceland where the men had been on a routine patrol flight mission. They were ten minutes from the air base in Iceland and 50 miles out at sea when it was necessary to abandon ship. Four men were able to get aboard life boats, but before rescue was accomplished, a large wave enveloped the four that were sighted by the searching air patrol, and they, too, were lost.

At this date the bodies of the nine airmen have not been recovered.

Hansen was a graduate of Brown Twp. High School and an honor student. He spent Labor Day weekend with his family. His father is a teacher at the Radnor High School and formerly taught the eighth grade at the Rome Elementary School. His mother is the former Clara Karnes, sister of Lawrence Karnes and Mrs. D. J. Woerhle, Sr., of Rome; Mrs. Ed Noble of Grove City; Mrs. Marion Raub of London, and Eldon Karnes of Linden, and Norman Karnes of Hilliards. O. Grandparents were Mr. and Mrs. William Karnes, formerly of 5289 W. Broad-st, Rome.

A special memorial service was held for Petty Officer Hansen and the other eight members of the crew on Tuesday, Oct. 27, at 10 a. m. in the Naval Air Station Chapel at Jacksonville, Fla. Mr. and Mrs. Pielgord Hansen were the only ones able to be present at the memorial service. Members of their family called and extended their sympathy earlier in the week.

Louis Durban, 23 Buena Vista-av, was a Sunday dinner guest of Mr. and Mrs. Warren Hilbert and children, Jean and Jackie, of 162 Southampton-av., Westgate. Mrs. Hilbert is the granddaughter of Mr. Durban.

Mr. and Mrs. Fay Mosier and daughter, Doris, of Plain City, and Mr. and Mrs. Carey Crego, 62 Maple-dr, attended the Holiday on Ice show on Friday evening at the fairgrounds.

Mr. and Mrs Lawrence Judson and daughter, Marilyn Sue of 1155 N. Hague-av, and Mr. and Mrs. Warren Hilbert and children, Jean and Jackie, of Westgate, attended the annual Pumpkin Show in Circleville on Friday evening.

Don't forget that the Rome Blue Star Mothers, Unit No. 11, have scheduled a round and square dance for Saturday, Oct. 31, to be held at the Prairie Twp. School auditorium, from 8:30 p. m. until midnight. Playing for this dance will be the "Melody Rangers," and the public is invited to attend. Free coffee will be served by the ways and means committee, and also there will be home-made pies for other refreshment.

On the Sally Flowers WLW-TV television show, Channel 4, on Thursday, Oct. 29, at 6:30 p. m. will be four members of this Blue Star Unit, who will be Mrs. D. J. Woehrlee, Sr., chairman; Mrs. Melvin Dutton, Mrs. Sam Heinzman and Mrs. Joe Lamb.

The Ruth Class of the Columbia Heights Methodist Church will hold its Halloween party in the Ison barn on Thursday, Oct. 29, the regular meeting night. Hostesses will be Mrs. John Giehl of 42 Greer-rd. and Mrs. Waldo Ison of 5272 Gregg-av.

On Wednesday, Mrs. Elton Kaderly, Mrs. William G. Lamb and Mr. and Mrs. E. C. Sheets, Sr., left for Detroit, Mich., where they were guests of Mr. and Mrs. A. K. Sheets after which they returned home on Friday evening.

The Prairie Dogs held their annual wiener roast for their families at the home of Mr. and Mrs. Forrest H. Dougherty, 614 Rome-Hilliards-rd, this past Saturday evening. Approximately 40 were present.

The euchre parties sponsored by the Prairie Dogs Ass'n, will start for the fall and winter season on Saturday, Nov. 7, and will be held in the Prairie Twp. School auditorium, 127 Norton-rd. Prizes will be awarded and refreshments will be served. The public is invited.

Your Justice Of The Peace In Franklin Twp.

William S. Brown

Just a reminder to the citizens of Franklin Township, that my name will appear on the ballot for "Justice of The Peace" on November 3, for re-election. I have tried to be fair and courteous in the running of my office and always tried to lend a helping hand whenever possible. I have always believed in clean and fair government, and have tried to show no favoritism in the process of my office.

I understand there is another candidate on the ballot, by the name of Brown. But I just wanted to let the people of Franklin Township who supported me four years ago, which I appreciated very much, know that my name is William S. Brown, who is seeking re-election. I have lived in the township for 13 years, have been a staunch promotor for any project of any kind that would help the township in any way. Your votes for me for re-election in the November 3 election will be highly appreciated. Yours for service for the next four [illegible]

YOUR YOUTH

By Bob Schmidt Dick Wilson

The "Y" movies still are a very popular event with the boys and girls of the Hilltop. The "Y" office has only 35 folding chairs but this last Tuesday we had 85 youths enjoying the movie. The floor was rather uncomfortable but these "Y" members never complain as long as they can enjoy the movies.

The "Y" board of management received a very pleasant surprise at the monthly meeting when the five Gra-Y Clubs presented them with a slide projector. These Gra-Y members sold candy mints last fall and part of their profit was used to purchase this projector. Joe Mann, Bill Hart, Ron Saint and Dick Wilson made the presentation. Thanks a million to all of you Gra-Y members and this projector will be used many times by the "Y".

If you Hilltoppers want to see some good football come on out to West High Field Saturday morning. The Gra-Y Clubs of the Hilltop "Y" are conducting a Saturday morning football league and you should see those kids play football. Maybe the West High coaching staff should scout these games for future players.

The new girls' craft class, recently organized, still has several openings. If any girls in the Highland and St. Aloysius school district are interested, please [illegible] or call the "Y", JO. 4641.

Your Hilltop "Y" has plans for an adult volleyball league for men 30 years and over. Play will start the middle of November. If any church or organization is interested in entering the league, call the "Y" office for additional information.

As a closing reminder, don't miss the big Hilltop Community Council Halloween party. This party starts at 7 o'clock and there will be lots of fun for all. The "Y" will sponsor the free movies again this year so we'll see all of you Saturday at the big Halloween party.

Evangelist To Hold Revival At Local Church

Dr. Nettie A. Miller

The mid-fall revival meeting will open Wednesday, Nov. 4, at the Warren Avenue Church of the Nazarene, 850 S. Warren-av, with Dr. Nettie A. Miller of Columbus, Ga., as the evangelist. This revival will continue through Nov. 15, with services each evening at 7:30 and Sunday services at 10:45 a. m. and 7:30 p. m.

She has travelled etxensievly throughout the United States, Canada, British Isles, France and the Hawaiian Islands, filling evaneglistic engagements and speaking to youth groups.

In addition to her preaching ministry, Miss Miller has written a book of sermons entitled, "Trumpets in the Camp," a booklet, "My Satisfied Quest" (life story), and "Still On the Throne," a compilation of incidents that have happened in her revival meetings.

Girl Scout Troop Aids Halloween Party

By Pat Martindale

Senior Service Girl Scouts from Troop 146 are being briefed on their duties at the eighth annual Community Halloween Party which is to be held on Saturday, Oct. 31, in the West High School building from 7 to 11 p. m.

Troop 146 has given 30 hours to community service to various Hilltop organizations in the past year. This will mark the fifth year for these girls to donate their services to the annual Halloween party. This year, this nine-year-old Scout Troop, which is the oldest Girl Scout troop on the Hilltop, will watch over the smaller youngsters as a security to their safety.

Plans for the Community Halloween Party are near completion with fun, frolic and plenty of refreshments in store for everyone, young and old alike.

All Hilltoppers are invited to attend the masquerade which is planned to insure "Lots of Fun with no property damage done" in the community.

Because of the decrease in Halloween damage as a result of the community parties, nearly all areas in and around Columbus are following the Hilltop's example of making Halloween so pleasant that children have no desire to commit damage or pranks in the neighborhoods.

Chairmen of this year's party are Mrs. Harold Short and Mrs. Cecil Radcliff.

Debate Tourney

"No," was the reply, "but he thinks he has. He's always talking about what a fool he used to be."

Polling Places Relocated In Franklin-twp.

Franklin Township voters were this week reminded of two changes in location of polling places since the last general election.

Voters in Precinct J will vote in a store room at 3616 W. Broad-st, just two doors east of the Old Trail Bowling Alleys. Previously a voting house was used at the corner of Grace and Wilson-rd. An earlier announcement had listed the new voting place as 3610 W. Broad-st, but this was found to have been in error.

Voters in Precinct I will vote in a residence at 1695 Ransburg-av, just a few doors west of Wilson School where voting was previously conducted. The crowded condition of the school building made the change imperative this year.

Precinct J includes all voters residing in the area bounded by the Pennsylvania Railroad tracks on the north, Valley View and Columbus corporation lines on the east, the New York Central Railroad tracks on the south and the township line on the west.

Precinct I is bounded by Brown-rd on the east, an imaginary line running just north of Hopkins-av on the south and the B.&O. Railroad tracks forming the north and west limits.

Mrs. Dailey Shares Favorite Recipe With Readers This Week

Mrs. Vivian Dailey

An original recipe for "Baked Beef Rounds," another variation of economical and popular ground beef, is this week's recipe contribution, submitted by Mrs. Vivian Dailey. The donor, a member of the Hilltop Lion's Auxiliary, is well-known to many in this community.

Teen-age and adult victims of cerebral palsy have benefited from the interest and support of Mrs. Dailey, for she is president of Branch 2, United Cerebral Palsy. The group is the only service organization concerned with aiding cerebral palsy victims of that age group. Anyone interested in organizing such a group may contact Mrs. Dailey at DO. 8032.

Her husband, Alan, prominent in community affairs, is the current president of the Hilltop Lions Club and real estate and mortgage loan appraiser for Prudential Life Insurance Co. The couple has two sons and resides at 2686 Dover-rd.

Mrs. Dailey's recipe offers a main-course dish that is economical to prepare and so delicious it is sure to become a family favorite. She suggests that this dish is especially good combined with escalloped potatoes and a salad.

Baked Beef Rounds

1 pound ground beef
1 onion chopped
¼ cup catsup
½ green pepper chopped
1 egg
1 tsp. salt
⅛ tsp. pepper
⅛ tsp. garlic salt
Dash Worcestershire sauce
2 slices bread, cubed
¼ cup milk.

Combine all ingredients and toss lightly. Shape into patties and cover with one can (8 oz.) tomato sauce. Top with onion slices and green pepper rings and bake one hour at 350 degrees.

Hilltop Women Will Get Lowdown On How To Wash Miracle Fabrics

If Hilltop women don't rate tops in the city insofar as their knowledge of washday methods and procedure are concerned, it won't be the fault of two appliance dealers in the area—the Westgate Electric Shop, 2655 W. Broad-st., and the Wolfe Electric Store, 2427 W. Broad-st.

Without any knowledge of each other's plans, the two concerns scheduled laundry demonstrations for Hilltop women—at almost identical times.

Westgate Electric will jump the gun slightly when the first session of their Westinghouse "College of Laundry Knowledge" gets underway this evening (Thursday) at 7:30 o'clock. Other classes will be held tomorrow (Friday), October 30 at 2 p.m. and 7:30 p.m. and the following day (Saturday) at 2 p.m.

The Wolfe Electric Store demonstrations will be held any time during the day tomorrow (Friday) and again on Monday of next week.

Both concerns are featuring a host of "give-aways," although Don Rice and Gene Wolfe, owners of the appliance stores, both assert that the information which will be available to Hilltop women as to how the new miracle fabrics should be washed will more than compensate for any effort expended to attend.

Mrs. Geneva McGreevy, home economist for the Crosley company, will be in charge of the demonstrations at the Wolfe Electric Store and Mrs. Kay Harper, home counselor for the Westinghouse Electric Supply company, will outline the washday topics at the Westgate Electric Shop.

Ideals are like stars—we never reach them, but like the mariners on the sea, we chart our course by them.—Carl Schurz.

There by the gray stone wall the live oak thrusts
Its moss-hung majesty into the night;
The trailing strands, wafted by little gusts
Of river breeze, are patterned by the light
Of four tall windows, arched and golden, set
Precisely in the church beyond
To ask men in to think and to forget
The daily frenzy and the thwarted dreams.

And one may enter here and find his peace
Upon his knees before the altar rail;
And one may stand without, smoothing the crease
That marks his brow, and pondering how frail
A thing he is, not knowing what he seeks
Is the bright living word Christ only speaks.

Kathleen Sutton, in The Lyric

My private Waterloo—Telephone advertising yet. How my number is "drawn" so often as the lucky (?) number in the $64 question. They should get a new approach . . . Some TV commercials, particularly the one used over and over (once is too much!) on the Leave It To the Girls show. It's about the most nauseous, to date . . . Insurance-due notices . . . Colds . . . Telling a certain five-year-old she can't have candy and cookies (but [redacted] doctor's orders) . . . Telling that five-year-old she can't have anything she wants . . . Tears.

A little of everything from everywhere: Indigestion is the inability of a person to adjust a round stomach to a square meal . . . If men were mice they would get more attention at home . . . With all the cigarette companies making their products less irritating, it's a wonder they don't find a way to make their tv and radio commercials the same . . . History repeats itself. An archeologist reports that Europe touched America millions of years ago . . Pray to God for a good harvest but continue to hoe . . . Life itself can't give me a joy unless I really will it; life just gives me time and space; it's up to me to fill it.

Word comes from Mrs. Tessa Sweazy Webb that the winners of Ohio Poetry Day poetry contest were James Clayton of Cleveland, first prize; Joy Taylor, also of Cleveland, second prize; Louis J. Sanker, Cincinnati, third prize, and Arthur Thomas, Cleveland, fourth prize. Winning poems were read at the annual Ohio Poetry Day dinner held at the Southern Hotel, October 17.

Mail—From a friend: "I like John Daly's sign-off: 'Good night and a good tomorrow,' but then I like anything he says. He is my idea of the perfect tv personality" . . . From another friend: "Now is the time for me to stop smoking. I have a cold and cigarettes taste like burnt rubber but I keep on smoking anyway. Now who's a moron?" . . . From a third, who is a columnist on a back-home daily: "Lately they have done fairly well by little Nell. My fingers are crossed though, for they'll probably come up with a boney of a boner the next time. I'll never forgive them for the last one—I had written it 'night grown' and it came out 'night gown!' Do you suppose the Fourth Estate is what the meek are to inherit? Yeah, I know I can do better than that."

Found in an old scrapbook:
BAGDAD CARPETS

Elm tree, with a garment spun
From the substance of the sun,
Yesterday you were a tree;
Now you are a symphony.

Every leaf is edged with flame
Since your autumn glory came;
Every leaf is bronzed and mellow,
Dusky tan or burning yellow—
Bright with rays of russet gold,
Very lovely to behold.

Elm tree with a garment spun
From the substance of the sun,
Spreading proudly, all around,
Bagdad carpets on the ground.

This poem came from Mrs. Blanche Boyd, of Crestline:
BABY-SITTER SAYS:

When first I saw his cherub face
As his Mommy tucked him into bed,
I felt the scene would be complete
With wings, and a halo around his head.

Then I sat with him that night
While his Mommy and Dad were out;
Since that night I've wondered when
His forked tail and horns will sprout.

LETTERS TO THE EDITOR

Oct. 23, 1953

Dear Editor:

As a citizen of the city of Columbus, I am intensely interested in the qualifications of the man who will be our city attorney. To me, the importance of this office far exceeds that of the office of mayor, since on all legal matters, all city departments must be guided by the studied opinions of the city's legal adviser, the city attorney.

It is imperative, then, that the office of city attorney be filled by one learned in the law, seasoned by experience, and who will sacredly preserve, by requiring strict compliance with the law, the honor and integrity of the city of Columbus.

The present city attorney, Richard W. Gordon, meets all these tests. He received his legal education at Ohio State University, which has one of the finest law schools in the United States. He has had experience—much experience, both as assistant city attorney and also as city attorney. His devotion to duty, and the rendering of honest, sound, legal opinions, in the face of political pressure, his conception of his responsibility to the people of Columbus first, and his party second, has earned for him the antagonism of the "wire" pulling, pressure exerting, subservience demanding, power greedy clique at present in control of his party.

I believe sincerely that the re-election of Richard W. Gordon to the office of city attorney will assure Columbus of four more years of honest, capable, professional legal representation.

I urge all those who encouraged me by their support during the early months of this year, when I was a candidate, to vote for Richard W. Gordon, to solicit their friends and neighbors to vote for Richard W. Gordon, and to re-elect Richard W. Gordon as their city attorney.

Sincerely, G. Arlowe Bryant

'TEEN-AGE SHOES

The other afternoon we had a shoe prescription from one of our Hilltop foot doctors. In this case the doctor was prescribing Girl Scout oxfords for a young lady who was probably all of seventeen. As we fitted the appliances the doctor made or had made, in the shoes, the girl's mother said, "I am just sick about my daughter's feet. All of her life we have sacrificed to buy her the very best shoes, we have gone out of our way to take her where they would give special attention to fitting her and now look at her feet.

In the past two years she has selected her own shoes and has torn down all we built up in fifteen years." I know just what that mother has been up against. 'Teen age girls have to follow all the fads, pointed toed saddles, ballerinas that look and fit like house slippers . . . all to the detriment of their feet. If we could just influence them to wear sensible styles for school and work, keep the fads for dress wear, maybe we could protect their feet through the dangerous 'teen years.

Seen at Seiller's

Days are getting shorter, "lamps are lit" earlier these days. Don't you love the warm, rosy glow that comes from a lighted lamp at twilight?

Bring a bit of the beauty of the outdoors in, by getting a lamp with a bright colorful shade. Living rooms are so drab and dull without pretty lamps. Seiller's have a great variety of styles, wrought iron, gleaming polished brass, modern ceramics, lovely planter lamps, TV lamps, double modern goose neck lamps for reading or sewing. Many sizes, many prices. Transform an ugly dark corner into a spot of beauty for as little as $3.99, on up. For the planter lamps, if you don't have a green thumb, or the time to take care of plants, Seiller's have artificial ivy to use. You could never tell the difference from the real thing. That's for me.

To see Seiller's smartest fall and winter fashions don't forget the style show and card party, tonight Oct. 29 at Schmelzer's at 8 o'clock. Adv.

Harold Burt, Jeanne Radow Seek Seats In City Council

Mrs. Jeanne M. Radow is only the second woman to run for city council in the history of Columbus. A graduate of Bennington College in Vermont and the Yale University School of Nursing, she has done school nursing, public health nursing and served in the army nursing corps in the South Pacific. At present she is on the board of the Nurses Association and is active in the NAACP. Mrs. Radow and her husband, a merchandise manager at Morehouse-Fashion, reside at 1747 Bryden-rd with their 17-month-old daughter.

Harold Burt resides at 1432 Manchester-av with his wife and five children, age two to 14 years. Burt is 39 years old and is a general home maintenance contractor. He served two years in scouting as chairman of Troop 80 committee and is still a member of the committee. He is a member of Fraternal Order of Eagles and was elected 17th Ward Democrat committeeman in May, 1952. He is chairman of the Linden Democratic Club.

Both are seeking a seat in city council because they believe in the two party system. Both candidates said this week, "We will work to get a better recreation program for the city instead of spending money on rose gardens. We have been plagued with a water shortage, poor garbage and refuse collection, grade crossings, sewage disposal, parking problems and poor street lights in some sections of the city. All of these problems could have been solved by a long range planning program. The one party system has not done a good job for the city of Columbus."

Holden Wins Bar Group Endorsement

Judge Henry L. Holden, sole Democrat on the municipal court ticket, has been endorsed by the Columbus Bar Association.

Judge Holden, who is 59, has been a life-long resident of Franklin County. He was graduated from the Ohio State University law school in 1924 and admitted to the bar in that year.

Father of four children, Judge Holden also has seven grandchildren. His wife is the former Margaret Wheat.

Judge Holden was appointed Municipal Judge Jan. 1 by Gov. Frank J. Lausche to fill a vacancy. His name will appear on the non-partisan judicial ballot at Tuesday's election.

John R. Schickler Endorses Candidacy Of R. W. Gordon

John R. Schickler, former candidate for the office of city attorney of Columbus, this week went on record in a prepared statement openly endorsing the candidacy of Richard W. Gordon, current holder of the office. Schickler's statement follows:

As a former candidate for city attorney at the August primary, I wish to thank all who voted for me, and in the interest of good government, I feel it my duty to make known my views on the candidates for this office at the Nov. 3 election.

City Attorney Richard W. Gordon is a long time resident of this city and was graduated from the Columbus public schools, where he now has three children enrolled. He is a graduate of Ohio State University where he received the Phi Beta Kappa award as well as being elected to the Order of Coif, the highest honorary society for law school graduates.

During his 15 years experience in the city attorney's office, he has tried and successfully concluded many legally complicated cases which called for the utmost experience and training. The forces which now seek to prevent the re-election of Dick Gordon have always been my primary target and these pressure groups are intently seeking the election of Mr. Gordon's opponent.

The city attorney's opponent is a young man who can not fully appreciate the problems of the city from the standpoint of a long time citizen and taxpayer and parent. His experience has been of short duration and has been confined to political jobs as an appointed assistant and, therefore, he has not gained the necessary seasoning to render mature legal decisions. Such seasoning comes only from holding elective office where the responsibility is the elected official's alone.

His main claim of qualification is that he is endorsed by the county's dominant political organization. This organization seeks to take credit for great progress in the city without giving any credit to the incumbent city attorney, who, in my opinion, contributed much to this progress. In the spring of this year (1953) William Schneider, the chairman of this organization, said in the Columbus Dispatch, "We have nothing against Dick; he has always cooperated."

This organization refused to endorse its incumbent city attorney merely because the city attorney stood by his legal convictions for the benefit of the citizens and taxpayers, rather than for the benefit of the political boss and politicians.

When a political organization refused to support an incumbent merely because he is not a smooth politician but is, instead, a conscientious lawyer, that organization deserves to lose the support of the voters. There is a vast difference between cooperation and submission. The legal officer of a city must refuse to submit to political control when it seeks to accomplish selfish and illegal acts not for the benefit of the people.

Organizations can be a powerful force for good government, but when they seek to destroy a member of their party merely because he refused to play politics, this good ceases. City Attorney Gordon believes the law is applicable to all citizens regardless of position or economic standing in the community and that it should not be twisted or distorted for the benefit of the few.

As I said in a radio speech before the primary election, "the tactics which were used by the political bosses in an attempt to prevent the nomination of Richard W. Gordon caused me grave concern and they should cause the people of Columbus even greater concern." If Mr. Gordon's opponent was eminently qualified and clearly the "best man for the office" certainly there would be no need to resort to such tactics as have been used in his behalf.

Richard W. Gordon has been nominated by the voters of Columbus in spite of all tactics used against him and he is a candidate in his own right and was nominated without the help of a political machine. I feel that he will continue to be a conscientious and capable city attorney if re-elected.

The citizens of Columbus have taken a step toward freeing him from the shackles of the political boss; I hope they will finish the job and re-elect him city attorney.

The re-election of Richard W. Gordon will enable the [illegible] Columbus to have an experienced fearless lawyer to [illegible] sens from the dominating and exuberant spending of the machine politicians.

Sincerely,
John R. Schickler,
Attorney at Law

WINDOW BOXES

Window boxes are ever old and yet ever new. In the city back yards we find them under the small windows of a white garage. When I open my front door, in the early morning, I can look across the street into my neighbor's back yard and see a window box under his garage window, overflowing with beautiful pink petunias.

Window boxes also grace the front of houses. They appear under the windows of a third floor apartment. Public buildings and restaurants also show a colorful display beneath their windows.

Window boxes may be filled anytime. This depends on the type of flower interest wanted. They need shade part of the day. No plant in a window box is at its best when baked in the sun all day.

Mrs. H. R. Gibson

The boxes may be of wood, metal or cement. There should be holes in the bottom or a good inch of sizable pebbles. These are essential for good drainage. Any good soil with which some compost is mixed is satisfactory.

The next step is to crowd the box as full of plants as possible. The fuller the box is of roots, the better the plants will flower. Once planted and established, the two chores are picking off faded blooms as fast as they wither and watering every day if necessary.

Plants recommeded for window boxes are tough and thrive on exposure. Among the more common are geraniums, ageratums, begonias, fuchsias, lantana, and the lovely, ever blooming petunia. For a trailing display, use vines in front.

After the cold weather has set in, before Thanksgiving, stick branches of evergreen and bright winter berries in your box.

No one, to date, has been able to improve on the old fashioned window box.

Sure Is

Timely Books On Shelves At Local Library

The suspenseful television program "I Led Three Lives", viewed on Tuesday evening, is taken from the book by the same title, "I Led Three Lives: Citizen, Communist, Counterspy", by Herbert Philbrick, which is found on the shelves of your local library. Published by McGraw-Hill, a most reputable publisher, there is little doubt in the reader's mind as to the authenticity of the story. He experiences continuous amazement that human nerves could withstand such terrific pressure for nine long years. Whether or not you have viewed the TV version of the book, you will find the book intensely interesting reading.

Similar books available at the Hilltop Branch Library, 2955 W. Broad-st. are: "Witness" by Whittaker Chambers. "The ordeal of the human soul caught in the twentieth century's conflict of faiths—religion against materialism, freedom against communism.

"The Whole of Their Lives" by Benjamin Gitleow. "Communism in America—a personal history and intimate portrayal of its leaders."

"Spy—Catcher" by Oreste Pinto, written by Dutch officer with the British counter espionage authorities during World War II.

Official Requests No Burning Of Trash In Disposal Barrels

Burly Dunn, foreman of garbage, rubbish and street cleaning units on the Hilltop asked today that residents stop burning trash and leaves in barrles generally used for pickup by city disposal trucks.

A recent blaze that could have destroyed one of these trucks was pointed out as a glaring example of what can happen when smoldering rubbish is put in the rubbish trucks by the unknowing crews.

Dunn commented that the city provides facilities for disposing of trash and laid down a few simple instructions for its pickup. Wrap garbage heavily in several sheets of paper. Put surplus paper in a sack or box beside the garbage can. Don't worry about leaves either. Put them in a box and the crews will be more than glad to pick them up with other burnables.

Non-burnables such as cans and bottles should be put in a separate container. These are collected once a month.

DON'T ROB THE PIGGY BANK

Good old Piggy Bank! How many times has he been robbed just to provide a few extra pennies needed to space out your family financial program? Perhaps it was the paper boy on Friday evening and you needed just a few cents more to pay him. Or the milk man, or some little extra you hadn't counted on . . . the net result was that the Piggy Bank was tapped and he never grew up to the proportions you had planned to do that extra something special that Piggy Banks are usually maintained for.

A lot of times the poor old boy received such treatment just because you spent extra car fare, or extra parking fees, or for extra gasoline or an extra ticket for overtime parking . . . just because you took a lot of your time and a lot of your good nature on a shopping tour for bargains that in the end didn't turn out to be bargains at all . . . just the same merchandise and just the same price . . . the only difference was that trek of several miles, the task of finding a parking spot and then the attending headaches of a rush.

Take care of that old Piggy Bank . . . keep him closed and keep adding to his weight by doing as thousands of wise residents of the Hilltop are doing every day . . . TRY FIRST TO BUY IT ON THE HILLTOP.

Vital School Issues Faces Prairie Voters

Voters of Prairie Township School District will be presented with a very important issue at the Nov. 3 election. Renewal of an existing two-mill (2) tax levy is necessary at this time. The school is also asking approval for an additional one mill (1) levy. The combined issue totals three mills.

Prairie Township School is faced with a continually increasing school enrollment and additional equipment is badly needed if Prairie children are to continue to receive a good education.

Like every other business, Prairie School is faced with rising costs for everything it must buy. The Board of Education asks the voters to come to the aid of the school as they have done so well in the past. It is pointed out that approval of this issue will amount to about one dollar additional per thousand dollars of tax valuation.

Voters should not be confused by the ballot which shows a renewal of one and two-tenths mills and an additional one and eight-tenths mills. The issue is worded this way because of legal requirements. Actually the voter is voting on renewal of the two (2) mill levy and approval of one (1) mill additional.

All residents of the School District are urged to support the School levy.

No Candidates On Rome Ballot

There's a wide open chance at New Rome for anyone who wishes to crash into politics come this next Tuesday, Nov. 3. All that will be necessary is to get your name written in on the ballot.

The ballot as a matter of fact will be blank, listing only the offices which are open, followed by a space for a write-in.

Nobody it seems was interested enough to file for the offices of mayor, clerk, treasurer, council or board of public affairs, consequently there will be no candidates on the ticket.

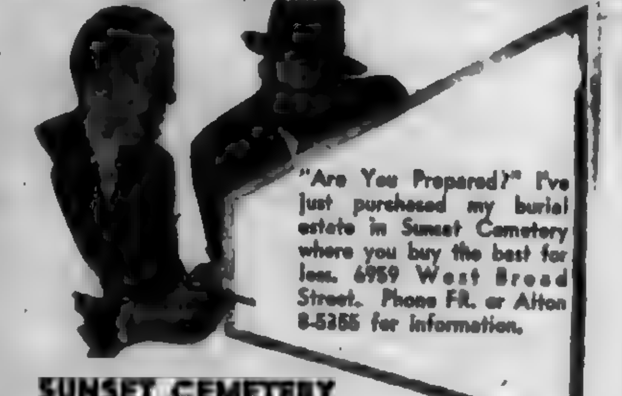
O blest retirement! friend to life's decline.
Retreat from care, that never must be mine.
How blest is she who crowns in shades like these.
A youth of labor with an age of ease;
Who quits a world where strong temptations try.

And since 'tis hard to combat, learns to fly.—Goldsmith.



Man originates in muck, wades a while in muck, makes muck, and in the end returns to muck.

Enduring . . .
Through the ages there has stood in the desert this Sphinx. Empire after empire has flooded around it, only to be gone again. And yet, this too, because it is man-made, will ebb with the tide of history. When a beloved of yours has departed, preserve an enduring memory in your heart with a dignified service.

DON'T GET YOUR *Signals* MIXED !

Remember the first stop lights? Sure you do! Remember how everyone wondered how those three little lights on an iron pole would be able to control the great, noisy surges of traffic that rolled by busy city corners and quiet country crossroads.

But they did. Red, yellow, green. One, two, three . . .

All that you had to remember was this:—"Don't get your signals mixed!"

Very few of us get our signals mixed on stop lights these days. They are too much a part of our daily life. Yet our lives are mixed up over so many other important things—things a stop light can't solve.

But your church can—if you give it a chance. For thousands of years there have been churches to help people keep their minds clear, their faith strong, their signals straight.

You *know* what to do at a crossroad. The traffic signal helps you.

But do you know what to do at some of the other crossroads—the crossroads of your life?

Your church will help you there, if you will give it the chance and attend its services that are held for you.

Don't get your signals mixed. Let the church help you keep them straight.

Thy word is a lamp unto my feet, and a light unto my path.

Congratulations, Mayor Jack

Greetings, Mayor Jack Sensenbrenner!

A Columbus that believed it was time for a change turned out to give him enough of a majority to make him next mayor of Columbus.

We believe it is a fact that Columbus in general was quite surprised to wake up Wednesday morning to learn that Jack had won the election. Certainly no one was more surprised than the Republican party leaders, who felt they had the election in the bag by some 20,000 votes.

We extend our congratulations to Mayor Jack and wish him well in his new endeavor. We expressed our backing of his candidacy before the election and will stand behind him now. We have faith that he is honest and sincere and certainly a hard worker. We may not always agree with him and in public life it is to be expected that he will make some mistakes. A few such mistakes will never be from the heart.

He deserves the support of the entire city and should be given every opportunity to make good on his campaign program. We wish him well.

Schoolboy Dies Under Truck Wheels; Aged Man Steps Into Path Of Train

Carl Joseph Wolfe, 10, of 350 Wrexham-av kneels beside the wrecked bike of his buddy, Donald Crider, also 10, of 313 Belvidere-av, who but a few moments before died under the wheels of a truck at W. Mound-st and Ryan-av, last Friday afternoon. "I swerved around back of the truck, but then couldn't stop and went right on under the truck after he hit," related the sorrowful lad to investigators.

Death rode the highway last Friday afternoon and within a space of 13 minutes time claimed two lives in separate accidents on W. Mound-st each occuring within 100 yards of one another. The Hilltop tragedies claimed the lives of Donald Crider, age 10 of 313 Belvidere-av and Thomas Edward Davies, 62, of 2185 W. Mound-st.

The Hilltop schoolboy met death at 4:17 p. m. when he and a companion, Carl Joseph Wolfe, aged 10, 350 Wrexham-av were enroute to the Central Point Shopping Center, on their bikes to purchase Halloween material.

According to reports, the boys were approaching from the west and had reached the intersection of Ryan-av and W. Mound-st when a truck driven by Glenn W. Finley, 34, of 3149 El Paso-dr first halted at a stop sign on Ryan-av and then proceeded to cross W. Mound-st into the driveway of Columbus Plastics Products Inc. at 1625 W. Mound-st. While entering the driveway, the right rear of the truck was struck by the Crider boy who then fell between the right rear wheels of the truck. The Wolfe boy swerved and missed the rear end of the truck and avoided injury.

The youth was pronounced dead on arrival at Mt. Carmel Hospital where Coroner Robert Evans said death was due to a skull fracture and internal injuries.

Funeral services for the Crider boy, the son of Mr. and Mrs. Elmer Crider, 333 Belvidere-av were held Monday at 2 p. m. in the Highland-av Church under direction of the Wylie S. Shroyer Funeral Home. Burial was made in Sunset Cemetery.

A fifth grade pupil at Highland-av School, he is survived also by five sisters, Mary, 28, Susie, 25, Wilma, 20, Kathleen, 14, and Rose Ann, 6, and five brothers, Gene, 21, is the Army in the Philippines, Jack, in the Army in Korea, Bill, 20, (a twin of Wilma), Joseph, 12, and Dick, 8.

Minutes before the death of the Crider youth, Thomas Edward Davies, 62, of 2185 W. Mound-st met instantaneous death after he stepped into the path of a Baltimore and Ohio passenger train less than 100 yards east of the scene where the Crider boy met his fatal mishap.

According to witnesses, Davies was walking west on the sidewalk along the south side of W. Mound-st and had made one attempt to step into the path of an auto. It was said that he disregarded the flashing signal lights and the train whistle and stepped into the path of the Columbus bound train and turned his back on the train.

His body was hurled across Mound-st by the impact into a metal blinker light and crossing sign.

Police said that Davies had just come from a nearby service station where he had lingered for about 30 minutes. The attendants there told police that the man appeared to have been "like he was ill."

Coroner Robert Evans ruled the death a suicide and said that Davies died of multiple body fractures and a massive hemorrhage. The man remained unidentified for about two hours and then identification was made by Adolph Trappe with whom he resided.

Alert Officer Nabs Escaped Convict Duo

The alertness of a Hilltop police officer was responsible for the apprehension of two escaped convicts, Tuesday afternoon.

The men who escaped from Louisiana State Prison last Friday, are Joseph Kuhlman, 37, Cincinnati, confined on burglary charges, and Vance Morgan Atkins, 27, Waco, Tex., sentenced for forgery.

They were reported heading for Columbus where one of them has a brother living on Derrer-rd. Police went to the brother's home and surrounded it, but in vain.

About 5 p. m., Detective Larry Sears, 381 S. Warren-av, of the auto theft squad, spotted the car which they were driving, at Broadst and Richardson-av. Sears was on his way home, as were Capt. Howard Hinton and two other patrolmen he picked up during the pursuit.

"We followed them to Grace and Powell, where we pulled up beside them and the captain stuck a gun in their faces. They tried to pull ahead, but I blocked them with the car," said Sears.

"They didn't try to resist."

Colorful Ceremonies To Mark West-Aquinas Half-time Show

It will be Dad's Night at Magly Field this Friday when the Cowboys of West High meet the Terriers of Aquinas High School and in addition to the ceremonies honoring the fathers of West football players a colorful half-time show has been arranged.

Following an annual custom established several years ago school officials and members of Camp Chase Post 98 of the American Legion are cooperating to present an impressive and colorful Armistice Day program honoring veterans of all wars and the West graduates who have participated in them.

The West Junior Band will be on the field at the time of the start of the Armistice Day ceremony in a formation of a Sergeant's Stripes and playing "In The Army Now." From that formation they will merge into a Garrison Cap formation and play "The Marine Hymn." It will be during this period that a color guard unit of Camp Chase Post and firing squad will appear on the field.

Then a combined formation of both the West Senior and Junior Bands will take to the field and form a huge formation of the American Flag meanwhile playing "God Bless America." At the same time the color guards and firing squad will assume positions at the north end of the field near the flagpole.

At the end of a moment of silence throughout the entire stadium a three volley salute will be fired followed by "Taps" to end the half time show.

In order that every Legionaire be able to attend the game and witness the Armistice Day ceremony Camp Chase Post changed the date

Jerry Spears Jr. Wins Easily In Council Race

Jerry Spears, Jr.

Another of the Hilltoppers in the municipal campaign on Tuesday although a neophyte in the game of politics showed strong vote getting power by garnering the next highest vote total cast. Jerry Spears, Jr., running as a Republican for Columbus city council, polled 86,184 votes in the 577 precincts reported. Highest count was 63,064 for E. P. Barthalow who was unopposed for city auditor.

Spears was appointed to Columbus city council earlier this year to fill a vacancy created when Henry Koontz resigned the post to take over duties as Franklin County Commissioner.

Franklin-twp. Voters Okay New Fire Levy

Voters of Franklin-twp at the polls Tuesday gave the stamp of approval to the fire levy issue by an unofficial vote count of 66 percent of the votes cast. The vote was 975 for the levy and 483 against. The road levy lost by not receiving the needed 60 percent by a vote of 879 for and 729 against.

Others in the race and their vote were Lawrence Seipel, 423; Harry Shenting, 494, and Marion Trabue, 517. M. E. 'Jack' Sensenbrenner To Become Mayor On Jan. 1

Mayor-elect M. E. "Jack" Sensenbrenner is pictured above at his Hilltop home, 335 Guernsey-av, with his wife, Mildred, and son, Dick, as he received the congratulations of his many friends and supporters on his upset victory at the polls on Tuesday.

Hilltopper M. E. "Jack" Sensenbrenner, 335 Guernsey-av Tuesday scored one of the major political upsets of Columbus in the past 40 years when with a surprising show of strength he unseated incumbent Robert T. Oestreicher from the Mayor's office.

By virtue of his Tuesday victory at the polls Sensenbrenner becomes the second Hilltop resident to ever hold the chief executive post of the City of Columbus. The only other Hilltop man to ever have held the position was the late Floyd F. Green.

Early Wednesday morning as the final precincts reported in Sensenbrenner forged ahead in the neck and neck race by a margin of 284 votes to grab the closest mayor race in the political annals of the city. As a result the indications are that a recount might be asked although it seems improbable since past instances of recounts have shown in the majority of cases that such recounts show the winner in a stronger light.

Wednesday morning at his home, Sensenbrenner in a statement to The Hilltop Record, said, "I want the people of this community to know how deeply I appreciate their support and their confidence in my ability to discharge the duties of office of mayor of Columbus. I pledge to them that I will do everything in my power to uphold the confidence that they have placed in me and will at all times be mindful of my promises in the campaign."

As a result of his victory Sensenbrenner will take over his duties as mayor of Columbus on Jan. 1, 1954, to complete the unexpired term of James Rhodes, who resigned the post of mayor when elected as auditor of the state of Ohio. The incumbent, Robert T. Oestreicher, as president of the city council, became mayor by charter provision to succeed Rhodes last Jan. 12.

Of the other issues on the ballot Tuesday the school bond issue and the seven-mill levy issue both received overwhelming majorities to definitely give the stamp of approval of the electorate to both.

The Utility amendment also received a favorable vote of more than two to one as did the Residence Ordinance which will permit those employed by the City of Columbus to live outside the city limits.

The unofficial vote of the 577 precincts is as follows:

	Oestreicher	Sensenbrenner
Ward 1	1334	1980
Ward 2	1246	1981
Ward 3	2141	2228
Ward 4	1403	1267
Ward 5	3063	2711
Ward 6	2522	2096
Ward 7	1551	832
Ward 8	1226	1009
Ward 9	1152	1770
Ward 10	1779	2709
Ward 11	2667	4681
Ward 12	1225	1394
Ward 13	1387	1012
Ward 14	1866	1683
Ward 15	1761	1306
Ward 16	1809	1466
Ward 17	4269	4979
Ward 18	[illegible]	2356
Ward 19	4729	3064

(Complete unofficial returns from the 577 precincts in the city.)

In Passing

By ESTHER WEAKLEY

A haze on the far horizon, the infinite, tender sky,
The rich, ripe tint of cornfields and wild geese sailing high,
And all over upland and lowland the charm of the golden-haired,
Some of us call it autumn, others call it God.

W. H. Carruth.

Drear November, stop complaining!
Stop your ceaseless wind and raining!
You are grim and gray and old
And your numbered days are cold.

You have sent the wild geese flying!
Left your leafy playmates dying;
Now the white-veiled December
Shrives you, and you must surrender.

Florence Stone.

It is good to know that this department has six readers. Anyway, that is the number of readers who called and wrote telling about the poem "Bill's In Trouble." Two of the six kind people sent copies of the poem. However, nobody knew the author's name. Thank you.

Mail—From my favorite shutin: "Greatest discovery of 1953 — a public idol's feet of clay. How have the mighty fallen. Or something. Anyway, it took war and strikes off the front pages for a few days—is that bad?" . . . From Portland, Ore.: "We hear that Murray Lockhart, a tv announcer from Columbus, is to come to our town. Anyone from our rival 'Rose City' is welcome to Portland; especially if he is a good announcer" . . . (He is that. Portland's gain is Columbus' loss.) From a clerk in a Cleveland department store: "Christmas toys are already picked over. Seems that this year people are not going to wait till December 24 to do their shopping, for which sore feet are grateful" . . . From a farmer's wife up Kenton way: "No, I am not doing much resting these days, as you say—after the canning season. There is mincemeat to make, and apple butter; pears to wrap; plants to dig up and store for the winter, and the house to clean—all before Thanksgiving."

WRITTEN OCTOBER 27

He should have done it sooner—
It really is a shame—
Pop washed the car yesterday;
Today, the rains came.

• • •

For Mrs. M. Williams who said she'd like a copy of the poem, here is "Bill's In Trouble":

I've got a letter, Paason, from my son away out West
And my ol' heart is heavy as an anvil in my breast,
To think the boy whose future I had once so proudly planned
Should wander from the path of right and come to such an end!

I told him when he left us only three short years ago,
He'd find himself a-plowin' in a mighty crooked row;
He'd miss his father's counsel and his mother's prayers, too,
But he said the farm was hateful, and he guessed he'd have to go.

I know there's a big temptation for a youngster in the West,
But I believed our Billy had the courage to resist,
And when he left, I warned him of the ever-waitin' snares
That lie like hidden serpents in life's pathway everywheres,

But Bill, he promised faithful to be careful, and allowed
He'd build a reputation that'd make us mighty proud.
But it seems as how my counsel sort of faded from his mind,
And now the boy's in trouble of the very worstest kind.

His letters came so seldom that I somehow sorta knowed
That Billy was a-trampin' on a mighty rocky road,
But never once imagined he would bow my head in shame
And in the dust would waller his old daddy's honored name.

He writes from out in Denver, and the story's mighty short;
I just can't tell his mother—it'd crush her poor old heart!
And so I reckoned, Parson, I'm might brisk the news to her—
Bill's in the Legislature, but he doesn't say what for.

MSU Rated 7 Points Better Than Ohio State

By Dick Dunkel

Like McNamara's band, the Notre Dame football team continues to be a credit to ould Ireland. Or is it ould Poland?

When last seen, the Irish Power Index was headed into the wild blue yonder. It had reached a new season's high of 114.7, after Leahy's stomach-startlers had pounded Navy, 38-7, for their fifth straight win last Saturday.

Far below, at 107.5, comes this week's No. 2 team, Georgia Tech, which lost to the aforementioned Celts of South Bend. Tech walloped Vanderbilt, 43-0, Saturday.

The Power Index is, of course, only one way to rate the teams. It's our attempt to show the average number of scoring points that they have put between each other, regardless of number of wins and losses. In so doing, we try to answer the question, "How well has the team done against what kind of opposition?"

Some fans prefer to rate them on percentage of wins and losses. That's alright, too, but doesn't yield the same answers.

For example, here's how the Power Index is figured for five of the major undefeated teams of the moment. The column of figures called "Margin" is the average number of points by which the teams have won their games this year. "Opp." is the average adjustment rating of their opponents to date. Adding Margin to Opp. gives the Power Index in the right hand column.

	Margin	Opp.	P. I.
Notre Dame	18.0	96.7	104.7
Maryland	26.7	80.2	106.9
Baylor	16.7	87.0	103.7
Illinois	13.5	90.1	103.6
W. Virginia	16.3	79.2	95.5

All of the above teams, being undefeated, would rate equally on the won-and-lost basis, except Illinois, which has one tie.

But according to our table, Notre Dame's opposition has been much the strongest, although the Irish are second to Maryland in the scoring margin department. Illinois has played the second strongest schedule, but has put the least distance between itself and the enemy. And so forth.

Ratings of all of the nation's 600-odd teams are figured weekly in the manner illustrated above. Here's how national and sectional leaders stood after games of Oct. 31:

According to the college football Power Index, Notre Dame, the nations No. 1 team, ought to have more easy going next Saturday when the Irish meet Pennsylvania at Franklin field, Philadelphia.

But Penn, the unpredictable, seems to be aroused by the sight of green. Last year, the Mungermen rose high above their statistical station and battled the invaders from South Bend to a 7-7 tie.

Nevertheless, Notre Dame's rating of 114.7 says that this season the Irish have been about 26 points stronger per game than Penn (89.1), against the same kind of opposition. And 26 points will be ND's margin of victory if both teams should perform in strict accordance with the record.

Here, on the same basis, is how other members of the current Top Ten have rated themselves over next Saturday's opponents:

No. 2 Ga. Tech, 27 over Clemson.
No. 3 Mississippi, 31 over North Texas State.
No. 4 Maryland, 34 over George Washington.
No. 5 Oklahoma, 20 over Missouri.
No. 7 Baylor, 4 over Texas.
No. 8 Illinois, 5 over Michigan.
No. 9 Kentucky, 24 over Vanderbilt.
No. 10 Mich. State, 7 over Ohio State.
No. 6 U. C. L. A. has an open date.

In some of the weekend's other big games, the differences are:

Eastern: Army 34 over N. C. State, Duke 3 over Navy. Penn State 7 over Fordham, Syracuse 6 over Cornell, and Boston U. 2 over Holy Cross.

Midwestern: Minnesota 19 over Indiana, Wisconsin 9 over Northwestern, Iowa 4 over Purdue, and Kansas State 7 over Kansas.

Southern: Auburn 23 over Miami, Fla., Rice 4 over Arkansas, LSU 3 over Tennessee, Duke 3 over Navy. Florida 5 over Georgia, Miss. State 8 over Tulane, So. Carolina 1 over No. Carolina, SMU 3 over Texas A & M, and West Virginia 21 over Va. Tech.

Far Western: Stanford 4 over So. California, California 4 over Washington, Cath 1 over Colorado, and TCU 9 over Wash. State.

Power Index pairings for next weekend's games follow:

West Cowboys Are Edged Out By Rough Canton Lincoln High School

By Woody Owen

West High schools Cowboys traveled to Canton last Friday night and nearly knocked the state football ratings into a cocked hat before going down to defeat at the hands of highly over-rated Lincoln of that city by a score of 20-19.

The contest was marred by numerous penalties, 30 in all, eight against the locals and 12 against the upstaters. That many more could have been called against Lincoln as shown by the movies of the game.

Several Cowboys came out of the contest with severely bruised hands while Dan Greer, brilliant guard, had nine stitches taken in his upper lip.

Lincoln scored on the first play from scrimmage as Theissen broke loose outside his own right tackle and raced 52 yards into the end zone, Ujich converted.

West roared back and marched for a TD, the score coming on a 12 yard aerial from Nafzger to Deshler, but the conversion was no good. Lincoln led 7-6 as the quarter ended.

Lincoln added two more scores and a conversion in the second period to lead at halftime 20-6.

The third period was scoreless, but in the final period the Cowboys scored twice on a four-yard dash by Cole and a 33-yard pass play from Nafzger to Vincent but could add but one extra point.

This Friday night the Aquinas Terriers will invade Magly field to lock horns with the Cowboys. It will be "Dad's Night" with the fathers of the Cowboy players being honored.

West Broad Takes Hilltop Gra-Y Football Loop Lead

By Dick Wilson

West Broad Gra-Y took over undisputed first place in the Hilltop YMCA Gra-Y Touch Football League last Friday morning at West High School when they beat a scrappy West Mound eleven 12-0.

The first quarter was slow with both teams stressing defense, but the first play in the second quarter was the turning point for the Furry coached West Broaders. Tom Hartranft took a pitchout from Bill Kern on this play and scooted around his left end for 18 yards to cross the goal line untouched. Bill Kern tried an end run for the extra point, but he was stopped at the line of scrimmage.

Kern put on an amazing exhibition of broken field running in the third quarter and set up his team to score its second touchdown. Kern ran the ball to the West Mound five-yard line and then passed to Hartranft in the end zone to tally the second score. Kern was once again stopped when he tried an end run for the extra point.

The last quarter was a carbon copy of the first as both teams played good defensive ball but were unable to score. Ronnie Harper of West Mound and Dick Williamson of West Broad were the defensive stars of the game.

Score by quarters:

West Mound	0	0	0	0
West Broad	0	6	6	0

West Mound—R.E., Beasler; R.T., L. Alwood; R.G., Rudolph; C., Morrow; L.G., May; L.T., Buckley; L.E., White; Q.B., McGuire; F.B., Montgomery; R.H., B. Alwood; L.H., Harper.

West Broad—R.E., L. Saint, Smiley; R.T., James, Darling, Butch; R.G., L. Snyder, Donaldson, Lawrence; C., Williamson; L.G., Davis, L. Graham, Wallace, Hinton; L.T., Kagay, B. Graham, Sines; L.E., Levering, Ricketts; Q.B., Kern; F.B., Hartranft; R.H., B. Saint, Kelly; L.H., Peterson, Vance.

Officials — Pemberton and Reeves.

John Burroughs Gra-Y was knocked out of its first place tie by a strong Westgate team as the two teams battled to a scoreless tie. Westgate was in scoring position three different times during the game, but the J.B. defense made three magnificent goal line stands to beat off the attack.

The highlights of the game were the punting by J.B.'s Mike Cantion, the running of Westgate's Bob Ross and the "never-say-die" defensive play of Westgate's right end Pohle.

By virtue of this tie, the Ingle coached J.B. eleven still has a chance to keep its football crown as it is scheduled to face the league leading West Broad team in the final league game of the season this Saturday at West High School.

Score by quarters:

John Burroughs	0	0	0	0

Gets 'Em Wholesale

The guest watched with amusement as the young son of the house amused himself by driving nails into the furniture. Recovering a bit from the shock, he turned to his host and asked: "Joe, isn't that an expensive pastime your son has? How can you afford it?"

"Oh, it's not bad," answered the father. "We get the nails wholesale."

Underdog Hilliards Ties Worthington

Barry Myers sparked the underdog Hilliards eleven to a moral victory over Worthington with a scoreless tie Thursday night before the traditional Dad's Night crowd at Hilliards.

Worthington's Bill Schumacher ran wild but the team drew five tripping penalties that nullified the Cardinals' long gains.

Very few passes were attempted in a smashing ground game that kept both teams from getting any closer to the goal than the seven-yard mark.

Hilliards' brother act, Wib and Bill Walker, backed up the long runs of Myers with a short driving attack on Worthington's forward wall. In spite of this one-two punch, Hilliards fumbled disasterously at the crucial moments and lost its chances to score.

Worthington's Mid-Six League record stands at a win, two losses, and two ties. Hilliards has lost four and tied one for the season in the league.

Dick Dunkel's COLLEGE FOOTBALL POWER INDEX

EXPLANATION — The Power Index provides a direct comparison of the relative strength of any two teams for this season to date. Thus, a 50.0 team has been 10 scoring points stronger than a 40.0 team on their comparative records, in which average scoring margin has been weighed against average rating of opposition. However, this does not mean that a 50.0 team should defeat a 40.0 team by 10 points in the future, because the ratings have not been adjusted for such important forecasting factors as home team advantage, injuries, lineup changes, etc. Therefore, they are not to be construed in any way as gambling information. The Dunkel system correlates records of all college teams and was started in 1929.

YOUR YOUTH

By Bob Schmidt - Dick Wilson

With this abrupt change of weather, a young man's fancy turns to the hardwood and basketball. Your Hilltop YMCA is keeping pace with this fancy by starting organization of the church junior and intermediate basketball leagues.

Survey cards have been sent out to all the teams which were in the leagues last year plus all the Hilltop churches. An organizational meeting will be held as soon as enough cards which state if the church is interested are returned.

All games will be played at John Burroughs gym on Monday and Wednesday nights. Tentative starting time for the league is Nov. 20 for the Intermediates and Dec. 2 for the Juniors.

The grade school youth of the Hilltop will also be offered basketball. The "Y" is at this time making plans for a Class A and Class B Gra-Y League. These games will be played at Glenwood Methodist Church on Monday and Thursday evenings immediately after school.

Speaking of Gra-Y reminds that there is only one more week of play left in the Gra-Y Touch Football League. Saturday, Nov. 7 will be the last week of actual league play, and Saturday, Nov. 14, will be the All Star vs. League Champions game. At this time the John Burroughs Gra-Y and West Broad Gra-Y are tied for the league lead.

It seems as if this week's column has been devoted to sports only; therefore, in closing I want to remind all you Hilltop boys and girls that the "Y" also offers you the four front club program, movies, craft, classes, and special events. You are invited to come on down to the "Y" office at 2502 W. Broad and pick up your November program schedule which is fresh off the press. This schedule tells you what, when and where all these events are.

Parent Study Group Forms To Aid The Blind

At their first party the children of the Parents' Study Group had Mrs. Frank Lousche as the guest of honor. In spite of being blind these children enjoyed every minute. Many special parties and outings are planned for the future for the pre-school age blind children and their parents. There is no membership fee to become an eligible member.

By Pat Martindale

With the purpose of helping the community to better understand and promote the development of sightless children as a member of the community, a Parent's Study Group has been formed. Many of the members are parents of children who are totally blind or have impaired sight or persons who are interested in a program for the pre-school age sightless child.

Statistics show that during the past ten to twelve years there has been a marked increase in the number of young children with seriously impaired sight. A large percentage of these children were born prematurely, and medical science has not so far, been able to establish the cause or the means of prevention.

The parents in Franklin County (as well as parents elsewhere) realize the importance of preparing their children for school enrollment and social contact. They also know that they can learn much more by being among other children than if they were taught alone. Sharing experiences of other children of their age teaches the blind child as well as giving them confidence amoag others.

The parents who have become members of this new study group agree that the greatest benefit they derive from their contact with the group is the support which they receive from one another. As one father said, "when we began to attend these meetings we stopped feeling sorry for ourselves."

Officers of the study group are Dave Springston, president; Charles Conroy, vice-president and Mrs. Evelyn Justus, secretary-treasurer. Braille classes for the parents are taught by Catherine Soliday and any person interested in participating in this class can do so by calling Mrs. Jane Hott at Je. 5319.

There is also an education committee, program committee, membership committee and a librarian. Each month a guest speaker talks to the group on various subjects concerning the parents of blind children, and the various phases of the children's development. Topics included "Medical and Psycological Aspects of Blindness", "Feeding and Dressing and Toilet Training", "Toys and Play Techniques" and many other subjects. Dr. Herschal Nissonger, Chairman of the Department of Special Education has been acting adviser to the group since it's founding. Meetings have been held at the Monett House each month and future meetings will be planned in the various communities.

The Parents Study Group was organized by Mrs. William Waite, who is a graduate from Ohio State University in Special Education. Eleven parents attended the first meeting. Now there are seventy-five members.

The Study Group hopes to reach all parents who have young sightless children. They also hope that it will soon be made possible for blind children to attend public schools, feeling that blind children should be educated in normal surroundings. For parents interested in becoming members in this group further information can be obtained by calling Mrs. Evelyn Justus at Fr. 08045 or by attending the next meeting at Monett House on the first Tuesday of the month.

Blind children are merely handicapped children and like the millions of handicapped in America they too must be helped to live to the best of their advantage with their handicap, for we in America no longer hide handicaps but instead train everyone to have an equal chance.

Recipe For "Cinnamon Squares" Is Submitted By Miss Pedricks

The donor of this week's recipe is familiar to many Hilltoppers, for she is Edith Pedricks, 50 Hawkesav. the well-known organist of Hoge Memorial Church. Many readers will recall enjoying her "Cinnamon Squares", for she has served them regularly to her guests for many years.

A piano instructor for more than 25 years, she has not only made music her profession, but devotes much of her spare time to various organizations which promote the advancement of music in

Miss Edith Pedricks

the city.

She is an active member of the Women's Music Club, which sponsors a series of artists' concerts in addition to presenting concerts which feature local members. Miss Pedrick is also a member of The Organists Guild and the Saturday Music Club which sponsors two music clubs for children. Anyone interested in membership in these organizations may contact Miss Pedricks.

Her recipe, surprisingly simple to prepare, produces a delicious accompaniment to salads and desserts, and may also take the place of sandwiches and be served with coffee. "Cinnamon Squares" provide a truly quick and easy solution to the problem, something different to serve guests.

Cinnamon Squares

Slice one loaf unsliced sandwich bread into 1½ inch slices.

Cut off crusts and cut into four pieces, forming squares.

With pastry brush, brush all sides with melted butter.

Mix one cup sugar and two tablespoons cinnamon.

Roll squares into mixture, coating all sides.

Place on ungrease cookie sheet and bake 10 minutes at 400 degrees or until golden brown. Serve warm.

Tips on Cut Flowers

There is an art, or technique, to the cutting of garden flowers for bouquets, just as there is an art of doing anything else. Sometimes we see a person go into the garden and carelessly—even roughly—break off a pretty flower here and there to put into a bouquet. This will tend to bruise the stem of the flower and perhaps harm the whole plant.

In gathering garden flowers for bouquets one should take a bucket of water to the garden so that each blossom is not subjected to any experience of withering before it reaches its ultimate place in the bouquet. Flowers should be cut from the plant in long, slanting cuts, thus exposing more drinking cells in the stem of the flower when it is placed in water. Of course, to do this, one should use a sharp knife that will make a clean cut, not one as dull as to form jagged tears in either the stem of the flower or on the parent plant.

It may sound strange, but cut flowers are much better when placed in luke-warm water instead of cold water because they drink up the slightly warm water more rapidly than the cold. As a matter of fact, flowers with a woody-type stem, such as the lilac, are better if they are placed in very warm water, almost hot.

The most lovely flower arrangements are those which are original, because bouquets, like clothes, speak the personality of the individual. It is definitely not necessary to always put flowers in "vases." As a matter of fact, many vases are made to be purely ornamental in themselves, and while they may be large in size they may have so narrow a neck as to choke a bouquet. Cut flowers should be placed in wide-mouthed containers for more lasting keeping, because not enough air can get into the narrow-mouthed vase to keep the flowers from wilting.

Teapots, little demi-tasse cups and any unusual type dish may make the basis of a lovely flower arrangement. Miniature bouquets are delightful, and an egg cup or even a thimble will serve effectively. A cut glass celery boat makes a nice table centerpiece for flowers — even candle holders may be used rather than keeping them for their original purpose. Arranging flowers can really be fun, particularly when a person ventures from the beaten path of thinking they must be placed only in vases. Sometimes the article intended for the next "White Elephant Sale" will come into its own when it is discovered to be a priceless container for flowers.

When an extra-wide-mouthed container is used, a piece of crumpled chicken wire cut to fit may be used, and in this way all sorts of artistic arrangements may be worked out.

Naturally water should be changed daily on cut flowers (except when a commercial preservative is used). Leaves should be trimmed below the waterline of the vase in order to slow up the decomposition, and sometimes adding a few drops of vinegar will give flowers a bit longer life.

Some flowers have a tendency to put out a sticky juice from the stem-ends, and if these flowers, such as poppies, heliotrope and some kinds of dahalias, are held with the stem over a candle flame for a few seconds, the juice will congeal and the flowers last longer. The woody-type stem such as is found on lilacs, sweet peas and chrysanthemums will last longer if the stems are crushed with a hammer, to encourage the absorption of more water.

For genuine enjoyment and for a bouquet bespeaking one's own personality, carefully cut the garden flowers, and then delve into the far corners of the cupboard and china cabinet—or get a whatnot from the bookcase — and arrange the flowers to suit your particular mood. You may be surprised yourself at what you achieve. Don't be afraid to tackle anything — even husband's pipe could make an unique arrangement for a miniature bouquet — that is, if you could use it and get by with it!

Basic Training Starts Tonight Scout Leaders

Tonight (Nov. 5) will mark the third in a series of six nights of basic training being held for Scouters and Cubbers of the Southwest District. The sessions are being held at Sullivant Gardens, 990 Van Buren-dr, under the direction of Harry Keller, leadership training [illegible].

The emphasis in tonight's class will be on troop meetings. This will be followed by nights devoted to troop hiking, troop camping and helping the individual boy to grow. Corresponding courses will be held on each of the above nights on various phases of cubbing.

The training course opened two weeks ago with 34 scouters and cubbers present. Any person desiring to get credit for the course can still do so even though he has missed the first two sessions. Make-up classes will be held at scout headquarters during the winter.

My name is Thursday. This morning Chief Merriman called me in his office. "What's up, boss?" says I.

"Thurs", he said, "We've got to crack this case. We've got to clean up the burning question. Why do so many people prefer Seiller's two to one?"

I tailed a suspect down Broad-st, and finally stopped her. "Pardon me, Mam. Why do so many people prefer Seiller's two to one?"

"Are you saying I shouldn't prefer Seiller's two to one? Are you saying I shouldn't love the Kromex pantry partners they have, those wonderful chrome bread boxes, canister sets and waste paper baskets, and all kinds of matched housewave in gleaming chrome? Is there anything wrong in preferring Seiller's two to one?"

"No, mam. I didn't say that. We just want to get the facts, mam. That's all, mam. Just the facts."

"I demand my rights. Here you are asking such a question when you know Seiller's have the best selection of gifts for birthdays, weddings, Christmas, or any other kind of gift you might be looking for. You ask me such a question when you know they're open every Monday and Saturday night 'till nine o'clock."

The case was solved. I booked her on 614 (failure to open a charge account) punishable by not more than being unable to buy some Revere ware, not having the cash on hand, and not less than a reprimand from Mr. Merriman or Mr. Leighninger.

How did I solve the case? I just played a hunch, that's all. Just a hunch. Adv.

THE SCHOOL PROBLEM

The rapid growth in the population of the unincorporated fringe of the Columbus metropolitan area has caused a considerable increase in the school attendance in all of the suburban zone. This increase already has overtaxed the elementary facilities in Franklin Township. The construction of new subdivisions and new dwellings now in progress will add more pupils to schools already full. The time is short indeed in which to provide for them. Clearly, vision and courage not only on the part of the people but also the local school boards, and some financial aid, either from the state or from private developers, may be required if local resources are inadequate.

Franklin Local School District. The present area of the Franklin Local School District is not identical with Franklin Township. Several tracts, some of them occupied by industry with substantial tax valuations, have been set off to other adjacent districts. To the city schools of Grandview Heights is assigned the area in the village of Marble Cliff and all of the township area along Dublin-rd lying north and east of the Scioto River. The area in the village of Valleyview together with adjacent tracts, including the subdivision on Sylvan-av between the Columbus city limits and Valleyview-dr is assigned to the Columbus city school district. A tract of some 200 acres lying along both sides of Wilson-rd from Trabue-rd south is attached to the Brown Township local district. Three tracts, one of approximately 160 acres north of Fisher-rd, 24 acres south of Sullivant-av and some 115 acres east of the Georgesville-rd, all of these along the west line of Franklin Township, are a part of the Prairie Township local school district. Finally, two tracts (1) of about 80 acres along Demorest and Alkire-rds and (2) 30 acres east of Big Run South-rd, lying on the southern boundary of the township, are a part of the Jackson Township Local District. The total valuation of these detached unincorporated areas is $7,533,240, leaving an assessed valuation of $24,646,700 for the Franklin Local School District, as compared with $32,179,940 for the township as a whole, less Marble Cliff and Valleyview corporations.

The Franklin Local District plans to operate four schools during the school year 1953-54, as follows: (In addition there is a two room school in Burnside Heights attended by some 40 to 50 negro children.)

Skidmore, grades 1 to 8 inclusive, approx. 400.
South Franklin, grades 1 to 8 inclusive, approx. 500.
Wilson (Ransburg-av), 1 to 4 inclusive, approx. 250.
Briggsdale, grades 7 and 8, inclusive, approx. 225.
Total 1375.

The total enrollment for grades 1 to 8 inclusive in the 1952-53 school year was 1340. If the space indicated above is insufficient to take care of the increased enrollment for 1953-54, the board will probably reopen one or more of the following 2-room schools, which have been closed:

Sullivant Avenue
Clime Road
Frank Road.

These buildings are obsolete and in great need of repair. They are served by outside toilets and lack running drinking water, except at Sullivant-av. Their heating systems are completely obsolete. They should have been sold or torn down long ago. It would be exceedingly unfortunate if they had to be reopened hurriedly, without remodeling. It would be a waste of money to remodel them.

In May, by a vote of the resident electors of the school district, an issue of $970,000 in bonds was authorized to expand the space at the Skidmore School on Hague-av and to construct a new elementary school in the southern part of the district. However, the work on the Skidmore addition will not begin until September, 1953 and will require about a year for completion. In the meantime, construction noises will make teaching in the existing school extremely difficult. 80 to 85 pupils from the Skidmore district will be sent to Norwich Special District during 1953-54 while construction continues. There may be additional delay if it is necessary to condemn the needed land for the expansion.

The construction of the new school also is delayed by the necessity of securing a suitable site and by the preparation of detailed plans and specifications. It seems doubtful that this school will be available for occupancy before September, 1955. In the meantime the southern zone of Franklin Township must look forward to two more years of over-crowding and use of some obsolete buildings.

If it appears that the elementary school problem has gotten ahead of the planning and provision of facilities, it may be suggested that in the high school area the situation is completely out of hand. There is no junior or senior high school in all of Franklin Township and pupils from grades 9 to 12 inclusive are farmed out on a tuition basis to other districts. In 1952-53, there were some 250 pupils from the Franklin Local District in grades 9 through 12. Of these, 125 were ninth graders. For several years these pupils have attended one or another of the Columbus city schools or the high schools at Hilliards or Grove City. The arrangements for 1953-54 call for those who have already started in one or another of these schools to continue. New ninth graders from the northern zone of the township will go to Starling or West Junior High in Columbus or to Hilliards, as indicated by their residence and transportation facilities. New ninth graders from the southern zone will go to South High in Columbus or to Grove City.

According to the agreement with the Columbus Board of Education, those who begin their work this year will be permitted to continue until they are graduated. However, there is a strong probability that Grove City will be unable to accept any new ninth graders after this year. Hilliards, too, may reach the saturation point soon. There is no assurance that for 1954-55 or subsequent school years, Columbus will be able to accommodate any new tuition pupils. It would manifestly be unjust to ask any district to bond itself to expand its facilities just to take care of tuition pupils. Those who use the schools should bear this capital cost. Tuition charges are not high enough to compensate for all the expense incurred in expanding physical plants. Besides, excessive transportation is involved. Because of inconvenience, many pupils who should finish high school tend to drop out. The percentage of total school population in grades 9 through 12 in Franklin Township is distinctly below the state average.

The Franklin Local School District is under a moral if not a legal obligation to make its own provisions for its high school pupils. It cannot afford to wait until faced with a refusal by other districts to take them on a tuition basis. It will require at least two and probably three years to get a high school ready for operation. Planning for such construction should be undertaken at once. On the basis of the 1953 tax duplicate, the district has unused bonding power of nearly $700,000 within the 8% permitted by law. This should suffice for the first unit of a high school plant. In fact, the new building already planned and voted could serve as a junior high school allowing another year of grace for the completion of the senior high school facilities.

The saving in transportation and tuition charges would go a long way toward meeting the annual operating costs of a high school program. The balance would have to be provided through an operating levy. The tax rate for school purposes in the Franklin Local District is next to the lowest in Franklin County. If the rate were increased to that of Columbus it would produce another $80,772.00 annually on the 1953 valuation for the use of the schools. If it were made equal to that in Marion Township, the additional revenue would be $253,861.00. The youngsters in Franklin Township are entitled to adequate educational facilities and sound instruction, through the high school level, even if the taxpayers of the township have to pay for it.

There are several reasons why now is the time for the district to act on the high school problem. First, the districts which are handling the high school pupils now have not yet said they cannot continue to do so, thus there is a little time for planning and construction before this inevitable blow falls. Second, there is a constant threat that the General Motors and Westinghouse plants will be annexed by the city of Columbus, thereby depriving the school district of a large part of its valuation without simultaneously reducing materially its school population. If the bonds are voted before annexation occurs, the obligation to pay them off will remain on the property annexed even though it is no longer in the school district. Third, as suggested below, prompt action might benefit Prairie Township as well. It, too, farms out its high school pupils, and it is faced with a large increase in population in the new Lincoln village development within the next two years. It has nothing like the valuation of Franklin Township and even with the new housing, it will do well to be able to take care of its elementary school problem.

There is an understandable reluctance among the members of the Franklin Local Board to undertake a high school building project when they already have nearly a million dollar program authorized, but not yet begun. But the size of this program is largely due to past delay in meeting and keeping ahead of the growth of elementary enrollment. Pupil population has run ahead of planning for several years. Now comes a real effort to catch up. But regardless of their preoccupation with the elementary school problem, the board must recognize the necessity of solving the high school problem without delay.

One of the principal difficulties in the way of the adjustment of metropolitan problems in Ohio is the present inflexible rule that all of the territory within the limits of a city must form a part of the city school district. Thus when an annexation is made it is for all purposes; the schools cannot be left as they were. A bill to authorize annexations for municipal purposes only was defeated in the 100th General Assembly. Until some such measure is passed there will continue to be an understandable reluctance on the part of the suburban areas to petition for annexation when they are satisfied with their local schools. But when they are not this dissatisfaction may be the governing factor in joining the city. However the city, too, has a voice in the matter. If the areas which seek admission bring people and problems of serving them, but only a modest addition to the valuation of the city school district, there may be reluctance to accept them. The city wants taxable value equal to or greater than the new costs involved. Small wonder that the city seeks the annexation of factories rather than people, thus leaving those who remain outside even less able financially to solve their own problems. This is particularly true in the case of schools. Thus rural school districts like Franklin need to stand on their own feet and provide satisfactory facilities as rapidly as they can. They need also to protect themselves as far as possible against the loss of the buildings they construct, through annexation, by locating them carefully, away from close proximity to city boundaries.

Prairie Local School District. Until a few years ago, there were three elementary schools in Prairie Township. In 1952 the pupils from grades 1 to 8 inclusive moved into a new 16-room building on a 20 acre tract just south of New Rome. Here 780 pupils come from all parts of the local school district. Over-crowding during the first year led to the construction of 4 additional rooms this summer from a $75,000 bond issue voted last spring. These rooms should be ready for the opening of school in September, 1953.

The Prairie Local School District includes practically all of Prairie Township as well as the four tracts in Franklin Township mentioned above and some in Pleasant Township to the south. Two tracts are detached: one of about 300 acres along Trabue-rd, at the north edge of the township is a part of the Norwich Local District, another of some 500 acres at the northwest corner of the township belongs to the Brown Local District. The valuation of these detached portions is less by about $12,000 than those attached on the east and south. Thus the tax duplicate of the Prairie Local District exceeds that of the township by this amount, for a total of $7,458,590. The Prairie Local District, however, now is bonded for about as much as this valuation will support due to the new school and the recent addition. The school tax rate in the district is $12.20 per $1000 or $2.90 more than in Franklin.

Official records indicate...
1 CAR DRIVER OUT OF 4 CAN EXPECT STARTING TROUBLE THIS WINTER!

Official records show that about 600,000 Ohio cars failed to start last winter. On this basis, one out of four drivers can expect trouble this winter. But the major causes of this trouble—as revealed by the records—can be anticipated and prevented with Sohio Guaranteed Starting Protection, at no extra cost.
Here's how Sohio Guaranteed Starting Protection helps you avoid these four major causes of car-starting failure!
BATTERY: One of the biggest causes of starting failure is the battery! Sohio Guaranteed Starting Protection includes a unique battery-check plan. A Sohio check-up tag attached near your battery assures regular inspection and good condition. There is no charge for this service.
LUBRICANTS: Gear oil that is too heavy or motor oil that doesn't flow drags your battery down. Guaranteed Starting includes the right weight lubricants in transmission and differential, and free-flowing, dodge-resistant winter grade motor oil in the crankcase.
FROZEN FUEL LINES: Water condenses out of the air in the gas tank, freezes in gas lines, stops the engine. Sohio Guaranteed Starting Protection includes one free 6½ bottle of Sohio Super Hi-Cyl, a sound fuel line anti-freeze that gives you positive protection against this major cause of trouble.
GASOLINE: Gasoline with improper starting and warm-up characteristics can cause the engine to fail to start, or start but stop again. Sohio X-cess and Sohio Supreme gasolines have exactly the right starting and warm-up qualities for Ohio driving!
This protection costs no more than you'd spend anyway—and it's so dependable we back it with this guarantee!

With Sohio's winter protection, you get a written guarantee that your car will start all winter long. If it doesn't, you just call any garage for starting service, mail the receipted bill to Sohio, and Sohio reimburses you for the starting service. It's your assurance of the most thoroughgoing winter starting protection on the market.

W. Franklin Club Hears Prairie School Head

Russia is spending six times as much for the educaties of her children as does America, members and guests of the West Franklin County Kiwanis Club were told by Paul Noblitt at a meeting of the group, held on Thursday evening of last week at the Old Hickory Barbecue.

Mr. Noblitt, principal of Prairie Township school and a member of the West Franklin Kiwanis Club, flayed those in this country who believe that the teaching of only the fundamentals—reading, writing and arithmetic—should be sufficient.

"Education should keep pace with the other sciences," he said, "but actually it has fallen far behind as salaries for teachers fell far below the standards in other fields of endeavor."

The return to teaching posts of many women who had left them years before and had reared families has helped tremendously to offset the shortage of educators, Mr. Noblitt said, but many those pressed into service lacked the training now given in normal schools.

James Ryan, vice-president of the West Franklin club, presided in the absence of William Coulthard. Several guests were present from the Hilltop Kiwanis club, sponsoring organization for the new West Franklin organization.

Improper Flag Display

Many reports came into The Hilltop Record office Tuesday from veterans organizations criticizing the improper display of the American flag at a Hilltop voting spot. Pictured here is the flag in question, as it was displayed on S. Terrace-av, near Sullivant av in Precinct H.

Overseas Mailing For Christmas Nearing The Nov. 15 Deadline

"Only seven mailing days remain—if you intend to send a parcel to a member of the Armed Forces overseas. Said Hilltop Post Office superintendent, J. R. Anderson, "The public can be reasonably assured that parcels mailed through the regular surface means prior to Nov. 10 will reach their destination before Christmas. No assurance can be given that surface parcels mailed after Nov. 10, or air parcel post mailed after Nov. 25, will be delivered in time for Christmas."

The regular size and weight limits, said Anderson, for domestic surface parcel post are applicable to Christmas parcels for members of the Armed Forces except certain APO's in care of the Postmaster, New York, N. Y., which are limited to 30 pounds. All air mail to APO's is limited to two pounds and 30 inches in size. Boxes for overseas mailing must be of strong construction and should be tied with strong cord. Parcel Post to most APO's may be insured or registered.

Also parcels intended for civilians in foreign countries should be mailed before the following dates: Africa and the Near East, Nov. 1; Europe, Nov. 15; South and Central America, Nov. 22. Owing to the long sea transit frequently involved, and to customs inspection and other formalities in the countries of destination, mailings should be made as outlined above to assure delivery by Christmas Day.

Anderson also called attention to the change in certain rates at International Mail effective Nov. 1, 1952. The surface letter rate to all countries, except Canada and Mexico, will be eight cents for the first ounce and four cents for each additional ounce. The special book rate of five cents per pound has been discontinued. Also fees for services such as registration, return receipts, and special delivery have been increased.

4 Teen-Agers In Auto Crash

Two Hilltop teenagers were among four injured in an accident, along Cherry Bottom-rd, at route 161, at 2 a. m. Sunday, sheriff's deputies reported.

According to Sheriff's Sgt. Al Huff, the auto was being driven north by John H. Harris, Jr., 19, of 304 S. Westgate-av, at about 45 miles an hour, when it went out of control, ripped out 90 feet of guard rail and crashed into a tree.

He'll tell you it's wise to plan your family burial estate NOW!

Because people turn to him in time of sorrow, he knows so well that is no time for the bereaved to have to hurriedly select a cemetery lot.
He'll tell you, "The selection of a family burial estate is a family matter that should be agreed on by all after due consideration has been given the subject." The time to do it is now, when weather and other conditions are favorable.

Character

The "how to improve yourself" book seems to be here to stay. If you doubt it, check your bookstore.

There, on shelf after shelf, are publications that can help you. Do you want to make friends and influence people? There's a best-seller on that subject. Do you want to improve your vocabulary—your posture—your earning power—your garden—your speech? If so, there are self-improvement books on these and many other topics. . . .

But one book is missing—the most important book of all. That's the book on how to improve your character.

You see, character just can't be built up or improved upon with the help of any book, although there are many good books to tell you what it is. *Characters must grow with the man.*

Churches know this. They know that character isn't a commodity with a price tag on it, even though it's the most valued possession a man may have. Character grows in direct proportion to a man's belief in himself, his fellow-men, and his God.

Go to the bookstore for self-improvement aids in other fields. They can be acquired from the printed page. But go to your church for help in attaining your most important quality—the quality of character.

For good character must grow with God. . . .

The integrity of the upright shall guide them.—Pr. 11:3.

Donald F. Smith Is Named To Welfare Board

Donald F. Smith, a Hilltop attorney at 2977 W. Broad-st, has been named to the child welfare board to fill the unexpired term of Miles V. (Cap) Hoover, it was announced Monday.

The appointment is effective Dec. 1 and will continue to Jan. 1, 1966. Hoover resigned recently because of ill health.

In naming Smith, county commissioners ignored a list of six candidates suggested by the Council of Social Agencies. The commission also must apparently seek a successor to Lee H. Kramer, whose term on the board expires Dec. 31. Kramer has indicated that he does not wish to be reappointed.

Hilliards Future Homemakers

The week of Nov 3 to Nov. 9 has been proclaimed as National Future Homemakers of America Week. Throughout the nation, F. H. A. clubs are celebrating this occasion in various ways. For the Hilliards FHA Chapter this has been a week of activity.

During the entire week, every member of the club wears a special identification card, bearing the seal and colors of the organization.

Tuesday was specified as "No Gripe Day" for the teachers, student body and all employes of the school. Wednesday was devoted to the informal initiation of all new members. A detailed report on No Gripe Day was given on Thursday.

All teachers and employees of the school are to be honored on Friday, each one being presented with a corsage or boutonniere bearing the club colors, red and white.

LETTERS TO THE EDITOR

Thanks to the help of so many of you, the Women's Division of United Appeals has completed a successful campaign. Your efforts will bring continuing satisfaction all through 1954, as you realize the many thousands of people who will have a richer life because of what you have done.

In your own residential division, 102.6% of goal was reported b ythe women. To all of the workers, and to their loyal leaders—colonels, majors, and captains who were responsible for the detailed organization, we say, "Thanks, for a job well done!"

We are grateful also to those "unsung heroes" of the drive — husbands, children and other members of families who helped with household duties and accepted inconveniences of home life in order that women might give their time and attention to this work so vial to our community.

Are They Just Politicians Or Are They Good Citizens?

A resolution to abolish four city commissions and transfer their duties to a committee responsible to city council as announced Wednesday morning smacks of nothing less than very cheap politics.

It is hardly conceivable that members of city council are so concerned over the welfare of Columbus under the newly elected mayor that they feel such action should be taken.

It is rather a very obvious move to try to embaraas the new mayor and from the very start assure the people of Columbus that they intend in no way to give him a chance to make good.

It is also evident that they are concerned with making of themselves just plain out and out politicians rather than the good citizens that people of Columbus thought they placed on their board of directors.

Of course one reason for such action might be that council desires to cover up actions of previous administrations.

While this is merely a proposal at this stage it is sincerely honed that members of council will see fit to table such action until the new mayor has had ample opportunity to give an account of himself.

Taking such authority unto themselves under these conditions is a direct slap in the face of the majority of the voters of Columbus who went to the polls last week and elected Jack Sensenbrenner, and the political futures of such councilmen, if they carry out this proposal, certainly will be at stake when election time rolls around again.

This is indeed an opportunity for the people of Columbus to take the measure of the men on city council.

Filling the School Board Vacancy

One vacancy now exists on the Columbus Board of Education and reports have it that another may occur in a short time. The present board will soon make any necessary appointments to fill such vacancies that exist.

In view of the fact that no resident of the Hilltop or West Side now has membership on the board it is hoped the board will look with favor on the suggestion that a resident of this area be appointed to the board. The very large population in this area certainly justifies such representation.

There are many capable men and women in the community who could serve well in this position. However, in view of the fact that it does take a considerable amount of time and returns nothing in the way of monetary remuneration is isn't always the easiest task to find a capable person to fill such a job.

With this thought in mind one prospective candidate comes to our attention and we feel he is well qualified in many respects. We suggest that the board consider Edward Walker for the post and invite him in for an interview.

Walker was a candidate for city council in the election just past, and while he was not successful, he did make a creditable showing in view of the fact that neither party endorsed him.

We have found him to be energetic and sincere and a willing worker for any project for the

Glenwood Church Will Honor Oldest Charter Member Sunday

Mrs. Elizabeth Watts Gould

When Glenwood Methodist Church observes its 60th anniversary as a Hilltop institution Sunday, Nov. 15, all attention will be focused toward Mrs. Elizabeth Watts Gould, the only living charter member of Glenwood Church. During the ceremonies Mrs. Gould will be accorded the honors of the church congregation for her years of service and devotion to the church.

Aside from the fact that she is the sole living charter member of the church Mrs. Gould also holds another distinction. She is a native of Franklin County and especially so of Franklin Township where she has lived continuously since her birth on Oct. 17, 1866. Her entire life span of 87 years has been lived in this one community.

The honored guest of Glenwood Methodist Church, this Sunday, is the daughter of Albert and Martha Watts who were also natives of Franklin County. When a child she attended a school which was located then at the corner of Warren-av and W. Broad-st.

She attended church services in those early years at a church which was located on the corner of Wilson-rd and W. Broad-st. (which is now the home of Dr. Parks) until Mar. 1893, when a group of neighbors met at the home of Mr. and Mrs. Samuel Six to form another Methodist church. From this meeting grew the organization of Glenwood Church in November, 1883.

Rev. Shellhaas

The group met in a little school house located on Clarendon-av (which is still standing and now used as a dwelling) until 1895 when the first little white church was built on Highland-av.

Mrs. Gould was married in January, 1893 to Fred Gould and they moved into a new home built by Mr. Gould located at 114 Hawthorne-av which has since been changed to Whitethorne-av. Mrs. Gould has always lived at this address until five years ago when ill health caused her to move to live with her son, Jay Gould living in Dublin, O., and daughter, Mrs. Carl Rucker, 3297 Fisher-rd. She has three grandchildren and seven great grandchildren. Mr. Gould died in 1911.

Mrs. Gould today recalls in her earlier days the hardships of getting through snow and zero weather to her school or church from Sullivant-av to Wilson-rd and Broad-st.

She recalls too the Old Four Mile Inn located on W. Broad-st and walking from her home on Sullivant-av to the foot of the hill on W. Broad-st to take a horse drawn street car to High-st; walking to State Hospital from her home for a doctor and the years she spent on Whitethorne-av watching the growth and development of the Hilltop.

Mrs. Gould was very active in the Ladies Aid and missionary societies. It was the efforts of these groups which made possible the present day Glenwood Church, now recognized as one of the largest in the City of Columbus.

Her other activities of note were with the Wells Relief Corps, Auxiliary of GAR and the Highland Garden Club of which she is a charter member. A lover of flowers she has devoted much of her interest to the latter organization.

Mrs. Gould has one living brother, W. R. Watts of 99 S. Wayne-av. At the present time at the age of 87 Mrs. Gould is in good health, enjoys reading her Bible and daily paper and loves visits and letters from her many friends.

Dr. Joseph B. Shellhaas and the congregation of Glenwood Methodist Church will celebrate on Sunday, Nov. 15 and Wednesday, Nov. 18, the 60th anniversary of the founding of the church.

On Sunday morning, Nov. 15 at 10:30 Dr. Shellhaas will deliver the address. Some of the former ministers of Glenwood who are now retired will have a part in the service.

On Sunday evening, Nov. 15 at 7:30 the combined choirs of the church, under the direction of D. Talmadge Crawshaw; Mrs. Clyde D. Moore at the organ, will present a musicale.

On Wednesday evening, Nov. 18 at 6:30 a Family Night — Pot Luck Dinner will be enjoyed along with a program of group singing. Special Music by a Ladies-Trio composed of Mrs. Nancy Cailand, Mrs. Eugenia Armstrong and Mrs. Alice Jean Galloway, Bob Johnson accompanist. A sermonette by Dr. Shellhaas and remarks by lay leaders of the church will complete the [illegible].

Thirteen members out of a present enrollment of over 3500 have been members of the church for more than 50 years.

Church Will Burn Mortgage This Sunday

A day-long program termed "a day of rejoicing" is planned at Edgewood Chapel, United Brethren In Christ Church, at 496 S. Wheatland-av, for this Sunday, on the occasion of their mortgage-burning ceremony. The building, purchased May 27, 1946, was dedicated on July 7 of that year.

The program will include Sunday School at 9:30 and worship service at 10:30. A cooperative dinner will be served at noon and the special mortgage burning service will begin at 2:30. Rev. R. E. Harwood is pastor of the church.

Ditch Cave In Kills Workman On W. Broad-st

Death instantly claimed the life of James F. Kerr, 39, 906 Arsenal-av Tuesday afternoon when the walls of a ditch in which he was working collapsed. The fatal accident happened in the 4200 block of W. Broad-st.

Although fellow workmen succeeded in extricating him within a short space of time after the collapse of the 20-foot deep ditch, Kerr was believed to have died immediately.

Rome emergency squadmen called to the scene of the mishap said that Kerr was pronounced dead on arrival at Mt. Carmel Hospital.

Westgate EUB New Schedule Is Announced

Westgate EUB Church, 61 S. Powell-av, this week through its pastor, Rev. Harold Dutt, announced a new service schedule effective throughout the winter.

Rev. Rutt said that worship service will be held from 10-11 in the sanctuary for adults and young people; church school class from 11 to 11:30; children's classes in the basement from 10 to 11:30 for worship and church school instruction.

Under the new schedule Rev. Dutt pointed out that the complete service would cover but one and a half hours.

Prairie Township Rezoning Case Is Scheduled

A public hearing on rezoning was held at 8:30 p. m. on Nov. 9, in the Prairie Township Fire House, located on Maple-dr in [illegible].

William P. Mulholland, jr., 156 E. Southampton-av, has applied for a change of zoning on a tract of land of 25 acres, known as 4822 Hall-rd, located approximately 3000' west of Georgesville-rd, and approximately 1600' east of the New York Central Railroad, from a Residential and Agricultural District to a General Commercial District in Prairie Township.

MAYOR GREETED MAYOR-ELECT SENSENBRENNER when he arrived at last Thursday's meeting of the Hilltop Kiwanis Club of which he is a member. For three minutes the membership of the service club gave an ovation to their member and past president who on Jan. 1 will take over the chief executive duties of Columbus. Following the ovation Harold Fox (left), immediate past president of the club, presented Sensenbrenner with a beautiful box of mums as a token of the club's esteem and admiration.

While attending the Chicago school he sang with the Apollo Club and played double bass with the Moody Chamber Orchestra. HBA Speaker Places Blame For Economic Ills

Big business, big labor organizations and big government were singled out this week by Ed Wimmer of Cincinnati as the forces which, if not controlled, will push us into a major depression. Mr. Wimmer, who is vice-president of the Federation of Independent Business Men, expressed his views at the monthly meeting of the Hilltop Business Association, held at the Glenwood Methodist church.

The speaker compared statements being made today by our leaders with those uttered just prior to the depression of 1929 and noted that conditions then and now are very similar. . .

"We must face facts," he said, "not be pessimists or optimists, but realists.

"Money was doled out by the Great White Father in Washington after 1932, going into the alphabetical agencies such as the WPA and CCC and we all shouted the praises of the NRA. However, it wasn't long before criticism of the government's spending program resulted in some curtailment and we were again hitting the [illegible] in 1940 we began giving away ships, food, ammunition, etc., to Europe, giving us a pseudo type of prosperity.

"Then came Pearl Harbor and the war years, during which billions and billions of dollars were spent to kill 30 million persons around the world and in which we lost 300,000 of our own boys."

Mr. Wimmer then painted the post-war era, in which men and machines worked overtime to produce the articles which had been denied us during the years of conflict. Big business grew larger and larger; labor bosses became so strong that they were able to control millions of our workers and government itself became a bigger and bigger [illegible].

"The concentration of power in the hands of a few—as was the case in 1929—will, if not halted, cause the same catastrophe in the near future," the audience was told.

Mobilization of spiritual forces of the nation are also necessary in avoiding a depression, he declared. "Character and religion are synonymous," Mr. Wimmer stated.

Touching upon the world scene, he said that we had wasted money in attempting to purchase good will instead of attempting to sell the people of other lands on our type of [illegible].

He closed his remarks with the statement: "I hope and pray that we will always be able to say, 'God Bless America' instead of 'God save America.'"

Mr. Wimmer was introduced by E. H. LeFever, program chairman.

The business portion of the session, presided over by Jack Alkire, included the initiation into membership of William Rains, Ivan Snyder and Dr. Jack Wallick, with Phil Stout serving as the induction officer.

Applications for membership were approved by the group for George's Barber Shop, 13 S. Wayne-av; Palmer Motor Sales, 3436 W. Broad-st and Maxwell S-X Scope Co., 273 S. Richardson-av. They will be inducted at the December

Band Fund Drive Now Underway; Lasts 'Til Nov. 19

Members of the West High School bands and orchestras along with members of the West High Band Parents Association during this past week have been really scouring the Hilltop area in search of new subscribers to the Hilltop Record in an effort to supplement the uniform and instrument funds of the organizations.

The Hilltop Record this week extends its thanks to the subscribers, Band Parents and band and orchestra members for their fine cooperation in this endeavor and reminds that Nov. 19 is the last day of the drive.

If a student has not as yet contacted you for your subscription to the Hilltop Record, a phone call to the Record office, RA. 1125, will get a student solicitor to you quickly.

Thus far the reports on the efforts of the bandsmen and their band-parent organization have been very favorable indicating that they are going all out to build up that band and uniform fund. A final report of their efforts will be given in a later issue.

NEW WESTSIDE LANDMARK—West Siders have been watching the construction of a one million gallon water tank and pumping station at W. Broad-st and Phillipi-rd. According to Franklin County Sanitary Engineer Dean T. Mitchell, the new facility will furnish water for the 1170 acre Lincoln Village model city, as well as the area as far west as New Rome. Including the additional mains required, it is to cost $260,000.

Walker Report . . . .

A Survey Of Social, Economic and Governmental Factors In Prairie And Franklin Townships (Part Five)

(Continued from last week)

Like Franklin, Prairie has no high school. Its 9th to 12th grade pupils are farmed out as follows: to Hilliards, 80; to Grove City 31, to Columbus 5; and to West Jefferson 1; a total of 117. Unlike Franklin, Prairie does not have the bonding capacity or tax potentiality to construct a high school or to operate it after it is built. Perhaps after Lincoln Village is finished and occupied it will have. But by that time it will require more elementary facilities, too.

One partial solution would be for the subdivision of Lincoln Village to furnish a site and valuation from the shopping center to enable the district to construct an elementary school in that subdivision to take care of the increased elementary enrollment. Still another solution would be to combine Prairie and Franklin into a single new school district and let the latter use its present excess bonding power to construct a new building near the boundary between the two present districts to serve as an elementary school now and a high school later. This would be difficult due to the differing requirements of the two types of buildings.

If Franklin district could build an adequate high school soon the Prairie pupils could be sent there on a tuition basis giving a total student body of some 375. This would leave Prairie with its elementary problem and inadequate resources unless the two districts could be combined to use their increasing valuations until the new construction can be placed on the tax rolls.

From the standpoint of schools, one other solution is feasible. This would be to annex to the Columbus Independent School District all of the closely built up area of the township lying adjacent to the city. The school buildings along Harrisburg-pk and Frank-rd would go to the city school district to take care of the elementary load. The new building, if located properly, could remain in the reduced district until it became sufficiently developed to ask for its own annexation. The bulk of the high school problem would thus be transferred to the Columbus Board of Education.

For this purpose the area which might be used for school annexation would be bounded on the east by the Scioto River, on the west by the B. & O. right of way and on the south by a line 400 feet south of Frank-rd, and the south line of the city sewage disposal plant and the city workhouse grounds. For administrative reasons if this were done, it would be desirable to change the township boundary to add the area east of the Harrisburg-pk and south of Frank-rd to Jackson-Township. This annexation could be timed to occur when the new school in the southwest area of the district is ready for occupancy. Other areas close to the present city boundary seem destined to become a part of the city or the city school district, or both, in the near future. These could include all or part of the area north and west of the B. & O. right of way south to Briggs-rd and west to the west line of Westgate Manor. The rest of the southern zone of the township is not yet sufficiently urban to be ready for application for entry to the city. The one new school building soon to be built should take good care of the elementary children from this area for a number of years and might even aid in solving the problem of the Prairie Local District if the two were combined.

Conclusion. The whole educational situation in these two townships calls for courage and vision on the part of the local boards, support from the citizens and close cooperation between the boards and with the county board of education. Only by considerable sacrifice in time and money and a great deal of hard work can the problem be solved. But time is running out. Action is needed now.

School Age Population. The 1950 census figures are, of course, already obsolete, but the following excerpts may prove interesting:

P'lation	Prairie	North F'lin	South F'lin
age 5 to 9 yrs.	406	351	[illegible]
10 to 14 yrs.	352	300	[illegible]
15 yrs.	[illegible]	[illegible]	[illegible]
16 and 17 yrs.	106	126	[illegible]
18 and 19 yrs.	104	[illegible]	[illegible]

Thus, according to normal school ages 6-14 for elementary, 15-18 for high school, the approximate numbers for each area are as follows (discounting for 5 yr. olds and 19 yr. olds)

Elem. ages	[illegible]	[illegible]	1043
In sch. '52	780	1260	
Hi. sch. ages	220	233	[illegible]
In H.S. '52	117	228	

According to these figures, Prairie is caring for its elementary pupils — Franklin is not except by farming them out or by conceding territory to other districts. In the high school area, both districts are far from meeting the problem, even allowing for those cared for by township territory not in the local school district.

School Finances. As has already been noted, there are several valuable areas of the township which have been placed in other school districts than the one which serves the majority of the township. These areas have an aggregate valuation of $6,117,140. This reduced the 1952 valuation of the real estate in the Franklin local school district to $18, 963,580. As already noted, the 1953 valuation of the school district is $24,646,700. The school enrollment for 1951-52 is reported as 1340, thus giving a valuation per pupil of $14,152.00 However, the 1952-53 attendance was 1497.

An examination of the report filed on Feb. 10, 1953, covering the year 1952 shows that the district opened the year with a balance of $26,609.68 in all funds. Receipts during the year were $272,601.67. Disbursements were $271,592.33, leaving a balance at the end of the year of $27,619.02, divided as follows: General fund $14,913.00, bond retirement fund $3320.94, cafeteria fund $6490.87 and building fund $2894.21. Receipts included property taxes of $156,426.50, foundation program money amounting to $71,444.55, other receipts (including cafeteria) of $44,542.12 and non-revenue receipts of $188.50. Expenditures for administration totalled $1770.49; for instruction, $130,520.98; for transportation $24,385.29; for school lunches $37,389.39; for special services $1174.27; for operation of school plant, $23,677.76; for maintenance of school plant $3765.79. The school paid bonds amounting to $24,000.00 and interest of $8,185.00. Capital outlay for the improvement of school sites ($671.82) and for the purchase of school busses ($16,071.99) accounted for the remainder.

The assets of the school district as of Dec. 31, 1952, were reported by the clerk as follows: cash $27,619.02; land (at cost) $8900.00; buildings (at cost) $578,005.17; equipment (at cost) $36,305.36—total $650,829.55. The only liabilities were outstanding unpaid bonds not yet due amounting to $341,000.00. The excess of assets over liabilities thus was $309,829.55. The bonded debt is being paid off at the rate of $24,000.00 per year. Another 14 years at this rate will be required to liquidate it. In the meantime the district must start paying on the $970,000.00 issue just sold and probably issue still more in the near future for high school construction.

The school foundation program will furnish only $58,568.63 net* for the 1953 calendar year as compared with $67,567.61 net in 1952. This reduction is caused by a substantial increase in valuation of real estate which more than compensated for an increase of approximately 100 in enrollment, thus taking the schools out of the class entitled to additional aid.

*The term net means that deductions have been made for support of the county board of education and for retirement fund payments on behalf of teachers and school employees.

Columbus' New Municipal Band Draws Heavily From This Area

COLUMBUS OFFICIAL MUNICIPAL BAND pictured above is now a permanent fixture in the cultural and entertainment field of Columbus with a goodly portion of its membership comprised of residents of the Hilltop and West Side areas of the city. Joseph F. Masdea is the director of the organization which practices at Southpipe Recreation Center.

Organized about two years ago as an independent concert band the Columbus municipal band became the official band unit of the City of Columbus by an act of Council on Mar. 23, 1953. The group has the endorsement of Local 103 American Federation of Musicians and all of the bandsmen are members of the local.

The first appearance of the band in public was in heading the Sesquicentennial Parade on W. Broad-...May 2.

While all members of the organization are professional musicians, very few of them depend on music as a means of livelihood. The membership is a mixed affair embodying business men, mechanics, insurance and real estate men, dentists and a host of other occupations.

Included in the band are several musicians of note, particularly David Hite and Clevio Del Signore, clarinet and oboe, respectively, who were with Izler Solomon in the Columbus Philharmonic Symphony Orchestra and also Rose-Mary Hite who came from New York local to play first bassoon under Mr. Solomon's direction.

Mrs. Hite is the only woman member of the band with the exception of vocalist Theresa DiPolo Montevon. Mrs. Montevon studied vocal in New York conservatory and later graduated in the music department of Ohio State University.

Joseph F. Masdea, 183 Powhatansv, director, was born in Filadelfia, Italy, where he studied music under Maestro Nicola Carlisano and Prof. Raffaele Maiolo, now a teacher and composer in Rome.

Mr. Masdea was on tour for two years as trumpet soloist with a concert band. He was director of Lynch Band, Lynch, Ky., for eight years. In 1938 he came to Columbus where he was soloist with the various bands, also later director of Eagle Band in Columbus, then had the Masdea's Concert Band.

Local 103 is additionally represented in the band as three officers of that local hold down important chairs in the band. Other officers of the band are: Lott B. Burke (past president of the local) who is band president; Dr. H. E. Cowden, treasurer, and Frank Stansell, secretary.

Starling School News

Y-TEEN RECOGNITION
By Glenda Karnes

On Tuesday, Nov. 3, there was a meeting held at the YWCA for all Y-Teens in junior high schools.

Starling's representatives, who sang under the direction of our music teacher, Miss Winchester, were: Helen Callihan, Sally McGhee, Jane Rathburn, Nancy Coontz, Jane Dobbins, Myrna Johnson, Carol Richmond, Sandra Southworth, Elizabeth Thomas, Judy Tilton, Janice Van Order and Joyce Williams.

The ushers were Connie Daily, Carol Lauthutte, Lacinda Scherer, and Judy Tagge.

The advisors were Mrs. Bolte and Mrs. Dicks.

ENGLISH MOVIE
By Charlotte Edgington

The first movie for English classes this year was shown Thursday, Oct. 29, and Monday, Nov. 2. The movie was about the school bond issue and the school levy. Among other things, it pointed out that the levy and the bond issue together will cost the owner of a house worth $12,000, less than two cents a day more. That is less than one pays for a bottle of pop or a pay-telephone call.

Another point brought out was there are 11,000 more children in Columbus public schools than we had just five years ago.

This points up the need for more schools, more teachers, more equipment, and more money for maintenance. At present the population of Columbus is approximately 400,000. By 1960 it is expected to be 430,000.

PTA NUMBERS
By Judy Snyder

The home room winners in the PTA contest at Starling were first, Mrs. Mentzer's room; second, Mr. Smith's room; third, Miss Miller's room. Mr. Rader's room came in fourth but fourth place does not entitle the pupils in the room to receive a gift. The first three winners will be the only ones to receive a prize.

Mrs. Mentzer's home room had 175%, Mr. Smith's room had 120%, and then Mr. Rader, who came in fourth place, had 115%. Any parents who wish may still join the organization.

SKATING PARTY

Starling will hold its first skating party for the semester on Thursday, Nov. 12, at Smith's skating rink. The time is 7:45. We hope that everyone will come and have a good time.

Lone New Rome Senior Is Nominated To Honor Society

By Mrs. James W. Whelan

Rome — David Michael Busick, son of Homer Busick of New Rome and Mrs. J. B. Martin of 880 Clarendon-av, was the only senior from New Rome to be chosen for membership in the Franklin County Honor Society and was initiated into the Society, together with the other students elected, in a very impressive ceremony at Grove City High School recently.

For election to this Society, the

David M. Busick

students chosen by the faculty at Hilliards High, must rank in the top third of their class.

From this group, the faculty votes on each student as to scholarship, character, leadership and service. As each school is limited to a certain number of students allowed, this narrows the chances still more for a student to gain membership. This year there were six seniors chosen from a class of 77, and six juniors, one of them being Dorothy Smith of New Rome. David plays tackle on the football team.

There are 11 high schools in the

Homer L. Busick

society at present, and 92 students were initiated at the October meeting.

David Busick was accorded the high student rating when graduating from the 8th grade class at Rome in 1950 when James A. Groves was principal.

David's brother, A-2C Homer L. Busick, recently returned to Wichita AFB after a 15 day furlough. Airman Busick plans to attend the University at Wichita in January, in connection with his studies in Electronics in the Air Force. He finished a special course in Radar at Keesler AFB in Biloxi, Miss., just previous to his furlough. He spent 10 months in Korea, and has approximately 14 months to serve before his four year enlistment in the Air Force is completed.

Mr. and Mrs. E. B. Quinn, 5267 Fisher-rd, were recently accompanied by Mr. and Mrs. Lloyd Raske of Zanesville on a motor trip to Quebec and New England. They stopped enroute and visited their friends, Mr. and Mrs. M. A. Sheskey and family, formerly of the Hilltop, who are now living in Erie, Pa., from there they went to Niagra Falls and on to Quebec.

The most interesting part of their trip was their visit to the Ste-Anne-de-Beaupre Shrine, which is located 20 miles from Quebec City. While in Quebec the Quinns and their guests stopped at the Chateau Frontenac. Later they enjoyed four days at Bar Harbor, Me., and continued on down to New York City where they enjoyed a pleasant week.

A pre-nuptial luncheon was given by Mrs. William G. Lamb this past Monday in honor of her cousin, Mary Patterson. Other family members present were Mrs. Robert Day of West Jefferson, Mrs. Allen Adams of Columbus, Mrs. Jeanne Kimberly of Worthington, Mrs. Elton Kaderly of Galloway, Mrs. David Sheets of Alton and Mrs. E. Your Youth

By Bob Schmidt Dick Wilson

Say, that snow we had Saturday sure ruined our Gra-Y Football League. This was to have been the big game between West Broad and John Burroughs Gra-Y Clubs. If the weather permits last Saturday's schedule will be played this Saturday. You parents won't want to miss that championship game.

Even if this column is to be for youth, the Hilltop "Y" is very much interested in adults. In cooperation with the Hilltop Community Council and the Hilltop Church of Christ, we are organizing a club for older folks. This group held its first meeting last Saturday with 30 adults in attendance. An afternoon of fellowship was enjoyed by all and refreshments were served by Mrs. Warren Leeka, a member of the sponsoring committee. This club will meet again, Nov. 21, so if any of you Hilltoppers are interested phone JO. 4841 for additional information.

Calling all men. The Hilltop "Y" has scheduled a volleyball league and there are several openings for players. The league will start Nov. 13 and will play at the Glenwood Methodist Church gym every Friday evening.

Did you know that the Hilltop "Y" has 113 clubs, teams and committees connected with its program to date. More than half of these groups are boys' and girls' clubs and are now active in the Hilltop "Y" program. The boys' and girls' craft classes are still very popular. Every Monday after school you fellows can enjoy a craft class. Right now the class is working with leather craft.

The girls' craft class for the West Broad, Westgate and John Burroughs Schools meet at the "Y" office every Friday after school. All girls are welcome to attend this class. Also the girls in the Highland School District are meeting at 1960 W. Broad-st under the supervision of Mrs. William Grover. This class meets every Wednesday and there are several openings. Check with your principal for further details.

November program schedules are ready, so hurry down to the "Y" and get your copy today. There are lots of special events for everyone so don't miss picking up your Hilltop "Y" program schedule today.

ROBERT MORRIS SOCIAL CLASS, OHS, will meet Wednesday, Nov. 18, for a 1:30 dessert luncheon at West Gate Temple, 2985 W. Broad-st. Mrs. Ethel Aston will be in charge of the meeting and election of officers will be held.

Ohio Holds Slight Edge Over Purdue University

By Dick Dunkel

While Notre Dame continues to top the college football Power Index for the eighth straight week, the rankings immediately below are as indefinite as a maiden's mind.

The Irish batting average slipped to 111.8 after last Saturday's 28-20 shiveree with Penn, but it's still comfortably ahead of the pack.

Meanwhile, observed by practically nobody, the Rebels of Ole Miss nudged into second place, with 107.4, after winning their seventh game in eight starts, a 40-7 tromping of North Texas State. And immediately following in a tight bunch are Illinois, Georgia Tech, Maryland, Oklahoma and U.C.L.A.

The Rebs have turned out to be the battering ram of the powerful Southeastern conference, a group that has consistently taken rating points away from other parts of the country in the intersectional wars. As a result, the SEC now has nine representatives ranking in the top 27. Its nearest rival is the Big Ten, which has six in the same area.

Mississippi, whose lone loss was to 18th ranked Auburn, owes its present altitude to a net scoring superiority of 20.1 points per game, accomplished against opposition with composite rating of 87.3. Adding 20.1 to 87.3 results in the Rebel Power Index of 107.4.

All teams set their own ratings each week in the same manner. Here's how national and sectional leaders stood through games of Nov. 7:

The question of whether or not, and to what extent, Coach Jim Tatum and his Maryland Terrapins may have been playing 'possum so far this season will get an unvarnished answer next Saturday.

At that time a passel of Mississippi Rebels will invade College Park to tangle with the Terps in what ought to be the battle of the college football week.

The once-beaten Rebs are the surprise holders of the No. 2 spot in the Power Index rankings, while Maryland, with a clean record of eight straight wins, resides at No. 5.

Mississippi's rating is 107.4 compared to Maryland's 104.5. The difference here of about three points means that Ole Miss, on the record, has been that much stronger per game against the same kind of opposition.

But wait!

It's no secret that Tatum has been striving mightily to hold down the scores of Maryland's recent games. The second and third stringers have been laboring while the varsity toileth not. How cometh? Could it be an ambush? Tune in next Saturday and find out if the Rebels, who upset Maryland last year, 21-14, get their comeuppence.

Other members of the Top Ten show the following Power Index differences over opponents of next week-end:

No. 1 Notre Dame, 32 over North Carolina.

No. 3 Illinois, 5 over Wisconsin.

No. 4 Georgia Tech, 11 over Alabama.

No. 6 Oklahoma, 34 over Iowa State.

No. 7 U.C.L.A., 19 over Washington.

No. 8 Michigan State, 6 over Michigan.

No. 9 Baylor, 20 over Houston.

No. 10 Kentucky, 35 over Memphis State.

And in some of the week-end's other big games, the differences are:

Eastern: Cornell 5 over Dartmouth, Harvard and Brown even, Marquette 9 over Holy Cross, Navy 18 over Columbia, Penn and Army even, Penn State 27 over Rutgers, Pitt 19 over N. C. State, Princeton 2 over Yale, Syracuse 19 over Colgate, Villanova 3 over Boston U.

Midwestern: Iowa and Minnesota even, Missouri 1 over Kansas State, Northwestern 3 over Indiana, Ohio State 2 over Purdue, Oklahoma A & M 7 over Kansas, Colorado 9 over Nebraska.

Southern: Auburn 9 over Georgia, Mississippi State 2 over LSU, Rice 13 over Texas A&M, SMU 8 over Arkansas, Tennessee 2 over Florida, Tulane 10 over Vanderbilt, West Virginia 7 over South Carolina.

Far Western: Arizona 4 over Texas Western, California 9 over Oregon, Stanford 18 over San Jose State.

Terriers Rope And Hogtie Cowboys

SURROUNDED BY TERRIERS Ongarro of West High School makes a desperate attempt to take a pass in the early stages of the Aquinas-West game. The ball, however, went awry and West lost another scoring bid. Final score of the contest was Aquinas 33, West 6.

By Woody Owen

Coach Bob McQuade's Aquinas Terriers showed unexpected offensive power last Friday night at Magly field as they handed the West High Cowboys a 33-6 shellacking before a small "Dad's Night" crowd.

The Terriers tallied their first score mid-way in the first period by marching 80 yards with Bellisari culminating the drive with a one yard sneak through center.

Di Sabato added the point after.

The Cowboys after failing to cash in on three previous scoring opportunities, finally tallied on a 40-yard aerial from Nafzger to Deshler on the final play of the first half. Klein's extra point try was blocked.

The Irish broke the game wide open in the third stanza as Cassan recovered a Cowboy fumble on the locals' 36.

Bellisari and Orendorff made a first down on the 19, from where Bellisari passed to Henry for the score.

Di Sabato missed the point after.

The Irish then took over the ball again as a short Cowboy punt went out of bounds on the visitors' 47.

Tiberi then ran through left tackle for 35 yards to the Cowboys' 28-yard line. Tiberi, Orendorff and Disabato then alternated to put the ball on the eight-yard line from where Henry circled right end for the score.

DiSabato then alternated to put the er was no good.

The period ended without any further scoring.

The Cowboys gambled and lost the ball on downs on their own 28 as the final period opened. A Miller to Reeb pass carried to the 12, Tiberi then ran thru left tackle for the score.

DiSabato, added the point after.

A Cowboy pass attack carried to the Aquinas 34 after the ensuing kickoff, but Reeb stopped the drive with an interception and returned to mid-field.

DiSabato, Bellisari and Tiberi then romped at will thru the Cowboys defenses to reach the 13 yard line from where Henry again dashed thru right tackle to score.

DiSabato again added the point after.

The contest ended a few minutes later without any further scoring.

Outstanding for the Terriers offensively were Bellisari, Tiberi and Henry, while Watkeys, Higgins and DiSabato stood out defensively. The latter player in particular was brillian, being one of the area's outstanding defensive backs.

This Friday night the Cowboys will conclude their 1953 football campaign when they clash with the North High Polar Bears on the Arcadia-av gridiron and a victory for the locals will take some of the sting out of their previous setbacks.

Fifteen Cowboy seniors will be performing for the last time. They are Roger Thompson, Bob Fenimore, Jim Ealy, Dick Sensenbrenner, Jim Johnson, Tom Ongaro, Jerry Horn, Lavender Mebane, Jack Eppert, Ron Klein, Ron Dean, Doug Cole, Bob Brownlee, Phil Anderson and Ken Harper.

ARROW SQUARE DANCE

The Order of the Arrow, Boy Scout Honorary Camping Society is holding its annual square dance at Cubbage Corners in Westerville on Saturday, Nov. 28, from 8 to 12 p. m. This dance is open to all scouts, scouters, and their friends. Karl Karrer and James Stal are co-chairmen.

Dick Dunkel's COLLEGE FOOTBALL POWER INDEX

EXPLANATION — The Power Index provides a direct comparison of the relative strength of any two teams for this season to date. Thus, a 50.0 team has been 10 scoring points stronger than a 40.0 team on their comparative records, in which average scoring margin has been weighed against average rating of opposition. However, this does not mean that a 50.0 team should defeat a 40.0 team by 10 points in the future, because the ratings have not been adjusted for such important forecasting factors as home team advantage, injuries, lineup changes, etc. Therefore, they are not to be construed in any way as gambling information. The Dunkel system correlates records of all college teams and was started in 1929.

Your Shoetrician in SEILLER'S Says

CHEAP SHOES

A wise man once said, "There is nothing so cheaply made that someone can't take a little out of it and make it cheaper." That is true of shoes as well as other merchandise.

I just had an example of same. A little boy's shoe, poorly shaped and ill-fitting, lined with imitation leather which was nothing more than oil-cloth and with counters of paper. According to the parent, the shoe had cost about $5. and had been purchased almost two months before. In fact she said that she bought the child shoes on an average of every two months.

We can prove from our record cards on which we record each fitting of our little customers, that better shoes, costing from $6. to $8.50 will average at least four months because they come in widths and we can fit them more accurately. Thus about three pairs of good shoes will out-last six pairs of cheap shoes, not to mention the protection to the child's foot health.

Timely Holiday Recipe Is Given By Mrs. Verna Born, This Week

Mrs. Verna Born

A recipe for "Cranberry Salad" is submitted this week, and is most welcome, coming at a time when many of us are beginning to think about holiday meals. The donor is Mrs. Verna Born, and she tells us this is a favorite of her family, not only during the holidays but throughout the fall season.

As chairman of devotions for John Burroughs PTA, she is already busily engaged in helping plan the group's biggest money-making project of the year, the annual bazaar to be held on Dec. 3 and 4. Proceeds from the affair will help buy radios for the classrooms.

Her husband, Raymond, is associated with Columbus Bank Note Co. art department and the couple has two daughters, Karen and Lauren. They reside at 706 S. Eureka-av, and attended Trinity Lutheran Church, where Mrs. Born teaches the nursery class.

A delicious accompaniment to all meat courses, this salad has an added advantage; it may be prepared the day before and kept in the refrigerator until serving time.

CRANBERRY SALAD

1 pkg. cherry flavored gelatin
1 cup hot water
1 cup sugar
1 tablespoon lemon juice
1 cup pineapple syrup
1 cup ground raw cranberries
1 orange, ground
1 cup drained crushed pineapple
1 cup chopped celery
½ cup chopped California walnuts.

Dissolve gelatin in hot water, add sugar, lemon juice and pineapple syrup. Stir to dissolve. Chill until partially set, add remaining ingredients, chill in oiled shallow pan or individual molds until firm. Unmold on lettuce; pass mayonnaise. Nice with roast turkey. Serves 8.

FOR A NEW HOUSE

Oh, love this house, and make of it a home—
A cherished, hallowed place.
Root roses at its base, and freely paint
The glow of welcome on its smiling face.
For after friends are gone and children marry,
And you are left alone,
The house you loved will clasp you to its heart
Within its walls of lumber or of stone.

Mail . . .

From vacationing Hilltoppers in Coatesville, Pa.: "We are having a nice time. Jim is eating scrapple at every meal. I think he is trying to clean out the state's supply" . . . From Seoul: "On my way back here from church, I passed an old Korean woman selling roasted chestnuts. I only meet the Koreans briefly; it is most difficult to convince them that one is interested in their history or customs.

I think the Koreans must use the old bowl method of cutting hair that we laugh about, on the baby girls. When they get a little older the girls wear two pig tails and vivid red and yellow silks. Young women, with one pig tail, wear cut or pile black velvet dresses. Women's styles are reminiscent of the Empress Josephine. At the nape of her neck, the 'Mama-San' wears a bun.

Men's work clothes are invariably spotless white and very dark blue, but these are being replaced with olive drab. The cut of their suits is western; ties are conservative. Elders wear an odd black hat and long white gown. White clothing used to be the national costume and is still very popular" . . . From Kenton: "We took your advice and went to see the Shenandoah Valley. We found it everything you said and more; we even saw the blue and grey ghosts you have written about."

From Panmunjom (to my favorite shutin): "Now that Halloween will soon be over, the d-js will start playing Christmas records so that by the time Christmas is here we will all be sick to death of them, but when they play 'I'll Be Home For Christmas,' you'll know they aren't kiddin', for I will be home for Christmas. I've spent two Christmases in this bleak place and hope that none of our kids has to spend another here."

My private Waterloo — changing typewriter ribbons . . . the term "juvenile delinquent" (why not "parental delinquent") . . . peanut butter . . . tv shows like Strike It Rich . . . stamp-licking . . . "Come As You Are" parties—I'm usually washing woodwork or my hair!

From a medical journal (1922): He is wise who knows that he Dust has been and dust must be, But a fool is he who must Fill the interim with dust.

Also from a medical journal: Dr. Blank was awakened from a sound and much-needed sleep in the middle of the night by the persistent ringing of the telephone. He picked up the receiver and listened to a very excited voice say "Hurry over, Doctor, my wife is reading one of those books on what to do before the doctor arrives!" "So what," asked the doctor, much annoyed. The frightened man replied, "I'm afraid she'll do it! " . . . A wife to her husband, riding in their new car: "Let's not pass the doctor's office. We still owe him for the baby."

Recipe for a wonderful fall evening — New magazine or a good book to read or re-read; a few slightly-guilty thoughts of the letters you should be writing, then deciding to write them tomorrow; a special Somebody asleep over the evening paper; wondering if everyone you love is safe at home—maybe praying a little that if they aren't they soon will be.

DRIFTWOOD

At this time there is widespread interest in shells, driftwood and mineral specimens of beauty. The texture, form and decorative value cause each person to visualize arrangements which suit his or her individual taste. I have enjoyed many wonderful hours on the shores of Lake Erie searching for odd shapes in driftwood.

This is a hobby one can enjoy alone, but of course companions increase the pleasure.

One happy day my mischievous six year old grandson, who was helping me, held up a perfectly straight piece of wood and said, "Rosie, is this interesting?" The twinkle in his eye will long be remembered.

In painting a picture we strive for movement in line and color. On the beach we find it when we least expect it! Nature forms gnarls and shapes which no artist would dare copy. These pieces, when cleaned and polished, make lovely backgrounds for dried arrangements, bitter sweet and numerous vines and flowers for one's choice.

Don't forget that using things imaginatively, in a new way, can be thrilling!

Seen at Seiller's

By Sue Fredendall

Dear Fran:

Boy is it cold here. It snowed last Thursday for the first time this year, real hard, for a little while. It looked just beautiful, but I had to go to Seiller's and buy a head scarf to keep from freezing my ears on the way home.

While I was there I looked for coats for Bobby and Eddie. They have real nice clothes there. The coats are so heavy and warm as well as pretty. I'm going to take the kids down tomorrow after school and let them pick one out. Mr. Merriman tells me the manufacturers have stopped making winter things, they have started on their spring line, so I want to get them before they are all picked over.

Also, while I'm at Seiller's I'm going to start laying away things for Christmas presents. I saw the cutest china dog for olives and pickles or cheese crackers and so forth, with a tail that sticks straight up in the air, to hang pretzels on, and the prettiest desk sets. Some have magnetized pencils. Ed gets so mad because he never can find a pencil when he needs one in a hurry. Outside of chaining one to the telephone, this is the best idea yet. Seiller's also have perpetual calenders which match the cover of the desk pad.

The kids, all three, need new gloves and hats and Linda wants a red velvet muff that she saw at Seiller's, but her coat is yellow. I'm a little dubious about that color combination.

How's Mom? I hope she's feeling better. And how's Pud and Bob's new baby?

Why don't you come up Saturday and we'll do our shopping together. Seiller's is so handy and they have everything you could possibly want, and they are open every Saturday night 'till 9 o'clock. We could let the kids go to the movie and we could shop in peace. What d'ya say? If we did that every Saturday night from now 'till Christmas, our Christmas shopping would be a breeze. Maybe you could come up early on Monday once in a while. Seiller's are open Monday night too, and they really do have beautiful gifts. Well bye now. I'll be planning on seeing you Saturday.

Love to all,
Sue.

P. S. Bobby says since it's so cold I'd better buy some wool at Seiller's and make Spot a pair of pants. What a little screwball.

School Classes Plan Library Visitation

Classes from Hilltop schools will visit the Hilltop Branch Library during the week of Nov. 15 for the annual observance of Book Week. On display in the new exhibit case will be a collection of dolls from other countries, or rare dolls, from the collections of students in the various schools. New books for the pleasure of teachers and pupils are also on display during the week.

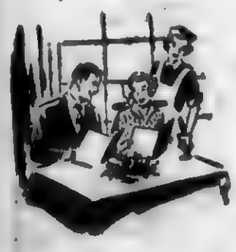
It is customary for the library staff to entertain the classes with a puppet show. This year "The Princess with the Dirty Face" was chosen. It is abundantly populated with fairies, witches and animals. Three shows are given each day. Appointments may be made by calling RA. 4922.

Hilltop Library is located at 2955 W. Broad-st, just east of Binns-blvd. Library hours are from 1 until 9 o'clock every day except Saturday. Saturday hours are from 9 until 5.

Thanksgiving Assembly Given By Y-Teens

The Y-Teens of West High will present the Thanksgiving Assemby Nov. 25, for the West Senior High School. Jane Lloyd, president of Y-Teens will give the introduction and the choir will sing Thanksgiving selections. George Taylor, pastor from the Westgate Methodist Church, will speak. Ronnie Klein will sing a solo and Judy Matson will give the devotions.

Hilltop Library Is Now Serving Two Purposes



Since the Hilltop Branch Library moved to its present location, 2955 W. Broad-st, it has served the community in a two-fold capacity. As well as being a library, it has become a community art gallery. Outstanding artists of Columbus have exhibited their paintings. Emerson Burkhart, Ralph Fanning, Robert Chadeayne and Marianne Bradley are just a few of the well-known artists whose talents have been brought directly into our community through the library.

Currently showing are the paintings of Mrs. Katherine Belle Brown, 4866 Rustic-Bridge Lane. Mrs. Brown is well known in art circles for her water colors. Just this fall her "Poppies" won the Ohio greeting card award. It will soon be seen on greeting cards. The original is now on display with 19 other water colors at the Hilltop Branch Library.

Mrs. William D. Campbell, 3000 W. Broad-st, is responsible for this interesting development of a local art gallery. Mrs. Campbell, herself an artist of note, has worked earnestly to further this cultural interest in the community.

COUNTY FUNCTIONS

Elections. The Franklin County Board of Elections has divided Prairie Township into 5 voting precincts and Franklin Township into 11 precincts for election purposes. In addition, Rome, Marble Cliff and Valleyview constitute separate precincts. The number of registered voters in each precinct and the vote cast at the 1951 election, the last for village and township officers was as indicated in the table below. The percentage of votes cast to registered voters also is shown. The lack of interest in local elections is suggested by the fact that only one township precinct and in two villages did as many as half the registered voters vote. If improved local government is desired, greater participation is necessary. A get-out-the-vote campaign is indicated for November, 1953. It may be added further that the registration in these two townships is not what it should be either. An effort to secure a more complete registration of eligible persons would be desirable. The inconvenience of having to go to the Court House Annex to register is small compared with the cost of undemocratic government.

Agriculture. Reference already has been made to the transitional character of the two townships involved in this study. Franklin is in the later stages of change from an agricultural area to an urban or suburban area. There is some commercial truck gardening in the southeast portion, commercial orchard in the southwest and the remainder which is not subdivided is devoted to general farming operations, either livestock and dairying or raising of small grains.

Prairie Township, on the other hand, is in the early stages of transition. Urbanism has occurred only in that portion of the area near Route 40 which lies closest to the city of Columbus. The county agricultural agent estimates that from ⅓ to ½ of the income of the residents of this township still comes from farming. There are many good farms in the area, with general livestock farming predominating. Yield levels are increasing and more farms are adopting approved land use practices. However, as urbanization progresses the valuation of real estate increases, due in considerable social increment until it eventually becomes uneconomical to continue to use the land for farm purposes. Many Prairie Township residents are beginning to feel this pressure. It will continue to increase.

Health. Under Ohio law, public health is considered to be a state function, rather than a local function. Townships and villages have no health activities but, in each county they are grouped into a general health district to the financial support of which they all must contribute. The Franklin County General Health District has its headquarters in the County Court House. The Health Commissioner, Dr. H. L. Mitchell, devotes his full time to his public duties and is assisted by a staff of public health nurses, sanitarians, clerks and inspectors who serve the areas of the county outside of its incorporated cities. Each of these, under the state law, constitutes a city health district.

The small staff of public health nurses has a wide field of responsibility. The nurses make home visits on request from private physicians, faculty members of schools, neighbors, community agencies, hospitals, health services and clinics. These visits cover a broad range of objectives including communicable disease control, venereal disease control, tuberculosis control, infant care, preschool care, school service, crippled children service, adult health, mental health and public health education. Labratory service is provided through the state health department labratory on the campus of Ohio State University.

In the field of environmental sanitation, county health employees will take water samples of domestic supplies for testing, nuisances are abated, schools are inspected, trailer camps are inspected and licensed, food handlers are given medical examinations annually and food handling establishments are inspected and licensed.

The county board of health office is the collecting point for birth and death certificates and it files one copy of each such document. Certified copies, however, must be obtained from the state.

Some idea of the extent of health problems in Prairie and Franklin Townships and the breadth of the health service rendered by the county may be gained from the following figures:

Welfare. The Franklin County Department of Welfare, whose offices are located at 282 E. Long-st in Columbus, conducts an extensive list of welfare activities in the county area. Most of the programs are related to aspects of the federal social security act, including aid to the blind, aid to the disabled, and for the aged and aid for dependent children. In addition it administers public assistance or relief when a case does not fall within one of the other areas.

An attempt was made to secure data on the work load attributable to the townships under study, but figures were not available. The statistical reports issued by the county department of welfare are not broken down by townships or census tracts, as they could be. The figures for the county as a whole show an increase from January to June in Aid to Dependent Children (June, 612 cases, 2389 persons in the whole county) and in aid to disabled (283 cases in the whole county. There has been a small reduction in aid to the blind (249 cases in June in the whole county). General relief shows no substantial change (1683 cases, 2857 persons on the relief rolls in June in the whole county), and neither does aid for aged (203 cases supplemented monthly in June for whole county).

In view of the lack of concrete data on these problems at the township level, it seems likely that the only service which this report can render here is to invite attention to the various programs involved and to the existence of the county department of welfare as the appropriate agency to which application should be made when circumstances require it.

Juvenile Delinquency. The records of the Franklin County juvenile court show that since January 1, 1953, only two complaints (one formal, one informal) have been filed from Franklin Township and five (one formal, four informal) from Prairie Township. This would indicate that the delinquency rate in these two townships during the first half of 1953 has been very low. This phenomenon is not uncommon in suburban and rural areas due in part to the fact that children are kept occupied and in part to a tendency for families in such areas to take care of their own problems rather than taking them before the courts.

Library Service. While there are no established public libraries in Franklin or Prairie Townships, the Franklin County bookmobiles serve both areas, with stops especially at the schools. There is an all day stop at Prairie Township School, and in the summer, stops are made in Alton, Rome and Galloway. The bookmobile spends an entire school day at South Franklin and also is scheduled at Briggsdale, Burnside, Skidmore and Wilson schools. Summer stops are made at Briggsdale and Wilson. The winter schedule is set-up with visits once every three weeks; in summer these are made once every two weeks.

West Franklin Kiwanis Analyze Local, National Political Upsets

Conclusions which could be drawn from recent local and national elections were discussed informally by members of the West Franklin Kiwanis club at a meeting held on Thursday evening of last week at the Old Hickory Barbecue.

A majority were of the opinion that local issues were responsible in most cases for what were termed as "upsets," though some felt that the slight recession in business might have had its effect at the polls.

Following the meeting, the executive committee met to formulate plans for the new organization, under the leadership of President William Coulthard. A report of action taken by the committee will be made by him at a meeting of the full organization, to be held this evening at Old Hickory.

Many Books On Child Care On Shelves Of Local Library

"Johnny is only two years old but he is becoming so unruly I can't do anything with him. My neighbor says it is my fault and if I would read some books on child-training I would learn something about rearing a child. Much as I hate to take my neighbor's advice I would be glad for some enlightenment."

Well, Mrs. Jones (or whatever your name is) why don't you try your neighborhood branch library? There you will find quite a selection of books to help you, or you Mrs. Smith, with your teen-ager.

In Dr. W. W. Bauer's book "Stop Annoying Your Children" he says if your children annoy you or disappoint you, chances are you have disappointed and annoyed them first. Thus does Dr. Bauer apply the shock treatment for the self-satisfied parent in this useful but easy and informal book. Dr. Bauer believes in children. He says there are no problem children — there are problem parents and problems in raising children.

The beginning problems of the very young, the early school-age youngster, the teen-agers, all with their own individual and peculiar problems — are treated in a practical and sensible manner. Both parent and child will enjoy Erminie Anne Bauer's evaluation of her parents which she wrote at her father's request and after she had consulted her friends as to what they thought of parents.

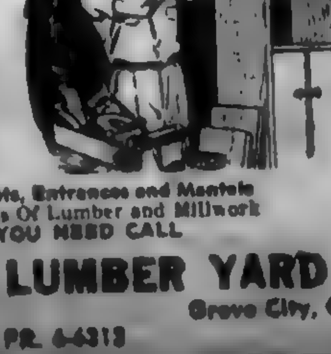
"Exploring A Child's World" by Helen Parkhurst, is based on 10,000 miles of wire recordings of unrehearsed interviews with children about their problems. It opens up whole new vistas, permitting adults to understand the ways of children. Every parent, teacher, and lover of children will be enlightened by this pioneering and inspiring guide. Miss Parkhurst's very original interviewing techniques will be of inestimable value as a model not only for parents and teachers but also for the professional in radio and television.

"I'm Telling You Kids For The Last Time" by Parke Cummings is a book for you if your offspring have occasionally baffled, confused or annoyed you. It will melt your exasperation, tickle your funny-bone, and above all, you will recognize yourself and your children. Mr. Cummings kids the kids with great charm and humor and he kids you, too, if you take your work seriously as a conscientious modern parent; for, while Mr. Cummings likes to poke fun at children's foibles he thinks they have fewer than adults do. Although this book hints broadly that being a parent can be befuddling and bewildering it is clear that Mr. Cummings believes fondly that it takes children to make a family.

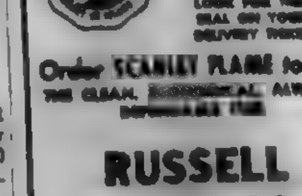
Dorothy Baruch's book "New Ways In Discipline" will help to answer that controversial question of how to discipline. Parents and teachers alike are more concerned with discipline than with any other topic. It is their privilege and responsibility to make civilized people out of little hellions and little angels alike and this presents a problem. One other person enters the scene all along — the doctor. He, too, will find it beneficial to acquire similar orientation and insights into psychological management of children to add to his store of knowledge on the physical side.

Another readable and understandable book of sound advice and guidance that should be of inestimable value to parents and parents-to-be in these troubled times is "Your Key to Youth Problems" by Harold M. Sherman. Mr. Sherman has covered concisely and clearly "Your Child's Mind," "The First Seven Years," "From Seven Through Adolescence," "Your Child at School," "Your Child At Play," "Your Child and Sex," "Your Child At Work," and "Your Child And The World."

In "Just and Durable Parents" James Lee Ellenwood carries on the wise, practical and witty saga of family life, begun in "There's No Place Like Home" and "It Runs in the Family," to the point where the family comes of age and grandchildren come into being. The children of the earlier books are now, Dr. Ellenwood finds, sensible adults with legal rights and preposterous notions about people past fifty. All three of these books can be recommended as extremely good reading for every man and woman and even child who is part of a family.



Cub Scouts Initiate Members



St. Mary Magdalene Cub Scout Pack will have initiation of new members Friday, Nov. 20, at 7:30 p. m. The families are invited. Charles Simcoe is scoutmaster.

Social Security Begins at Home

Our government may lighten the burden of life in years ahead, but much we can do for ourselves, right now, to banish worries we take for granted. For example simply by arranging, now, for the ownership of a family plot, you will have conferred upon those you love the one item of "Social Security" without which no "Peace-of-Mind-Plan" can be complete. Call or visit.

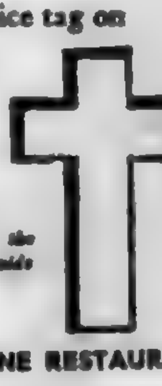
Character

The "how to improve yourself" book seems to be here to stay. If you doubt it, check your bookstore.



There, on shelf after shelf, are publications that can help you. Do you want to make friends and influence people? There's a best-seller on that subject. Do you want to improve your vocabulary—your posture—your earning power—your garden—your speech? If so, there are self-improvement books on these and many other topics. . . .

But one book is missing—the most important book of all. That's the book on how to improve your character.

You see, character just can't be built up or improved upon with the help of any book, although there are many good books to tell you what it is. *Characters must grow with the man.*

Churches know this. They know that character isn't a commodity with a price tag on it, even though it's the most valued possession a man may have. Character grows in direct proportion to a man's belief in himself, his fellow-men, and his God.

Go to the bookstore for self-improvement aids in other fields. They can be acquired from the printed page. But go to your church for help in attaining your most important quality—the quality of character.

The integrity of the upright shall guide them.—Ps. 11:3.

For good character must grow with God. . . .

Ask Court To Aid Deaf Hilltop Girl

Carl F. Hatmaker, 314 S. Hague-av, has asked Common Pleas Court to have his daughter admitted as a full-time student to the recently completed State School for the Deaf and Blind.

Hatmaker, in asking the court to order state officials to admit his 16-year-old daughter, said that she had attended the former E. Town-st school since she was six and under present conditions the girl will have to commute 15 miles to the new school daily.

A hearing before Judge Joseph M. Harter has been scheduled for Dec. 3.

THE PREACHER WENT A-HUNTING, and he brought back the game to prove that he was no poor marksman. Such was the case of Rev. Alex D. Vance, 38 N. Harris-av, who returned this week from a hunting trip into Wyoming and Dakota loaded down with four deer, one of them an 11 point white tail buck. Rev. Vance now plans to repay his congregation at Trinity Assembly of God, 29 S. Eureka-av, for the complete hunting outfit they gave him two years ago. Saturday evening he is supplying the venison and the congregation the extras for a bountiful banquet at the church.

Friday 13 Holds No Qualms For Hilltop Folk

Evidently the Hilltop folk are not a superstitious people, even when Friday the 13th comes around, according to a number of them who were asked this week. Seems as though black cats, walking under ladders, breaking mirrors, spilling salt and other of the many superstitions of bygone years have more or less faded into oblivion.

Nevertheless here are some of the opinions of Hilltop people concerning superstitions and Friday 13th.

Mrs. Ozella Harris, 282 Clarendon-av, "I'm not really superstitious and don't actually believe it is bad luck, but sometimes I wonder just a little about a black cat crossing my path."

Mrs. Viola Radabaugh, 2006½ Sullivant-av., "None at all. I really don't believe in any of them."

Mrs. James K. VonSchrilitz, 239 S. Westmoor-av., "Although I'm not actually superstitious, when I hear someone singing before breakfast I think of the one that states "Sing before breakfast and cry before night."

Mrs. Carl F. King, 637 S. Wayne-av, "I honestly have no superstitions at all, and no one in my family does."

Mrs. O. C. Thomas, 87 S. Westgate-av, "I do a lot of sewing and make a practice never to cut out anything on Friday, that I can't finish that day, or I find that it takes two or three weeks to finish. I don't know if that is being superstitious or practical. My daughter-in-law is from Lima, Peru, however, and she firmly believes that giving a handkerchief as a gift will break up a friendship."

Mrs. Howard Whittaker, 5030 Sullivant-av, "I'm really not the least bit superstitious about anything."

Mrs. John P. Wynn, 148 N. Warren-av, "I believe the closest thing to a superstition I have, is a dislike to start anything on Friday that I am unable to finish that day. That is probably more habit than superstition. My stepmother had many superstitions which she truly believed, such as carrying a tiny round hambone in her purse for luck, and that breaking a mirror was sure to result in bad luck."

Mrs. Frank Yonadi, 328 S. Roys-av, "I have always treated mirrors with a lot of respect, remembering the superstition that says seven years of bad luck will follow breaking one. But I believe that's the only one.

Rat Banquet Will Be Given Friday, Nov. 13

Thousands of rats in this area will be treated to a banquet Friday evening, Nov. 13, according to Associate County Agricultural Agent James Mills. One hundred seventy-five farmers in the county will place a total of 315 pounds of a specially prepared Warfarin bait in bait stations on their respective farms in a coordinated effort to rid their premises of the destructive rodents.

The drive, sponsored by the Agricultural Extension Service in cooperation with the Vocational Agriculture Departments in Franklin County, is designed to control the rat population as they move out of the harvested fields to their winter quarters in barns and outlying buildings.

Everyone who placed an order for the Warfarin bait with the Hilliards F.F.A. Chapter is urged by the chapter adviser, Leon Boucher, to pick up his order at the Hilliards High School ag rooms, the distribution point, on Thursday, Nov. 12, or Friday, Nov. 13, and place it in the bait stations Friday to make it the "unlucky 13th" for rats.

SAUERKRAUT SUPPER

The American Legion Auxiliary, Smith-Barratt unit, is having a sauerkraut supper at the post clubrooms, 2322 Sullivant-av, Thursday, Nov. 19, from 6 until 8 p. m.

Boucher said the Hilliards Chapter has sold over 300 pounds of Warfarin in this drive.

Franklin Twp Voters To Be Asked For Approval Of New Million Dollar High School Next May

The annual Hilltop union Thanksgiving service will be held at the Oakley Avenue Baptist Church, 396 S. Oakley-av, Thanksgiving morning at 8 o'clock. Speaker of the morning will be Rev. George Taylor, minister of the Westgate Methodist Church.

The choir of the host church will furnish the music and ministers from several Hilltop churches will participate in the service. All ministers will be in the processional and will be introduced.

The offering from the service will be sent to the chaplain of the Ben Franklin Hospital to purchase Christian literature for distribution to the patients.

All Hilltop residents are invited to attend this service.

New Elementary School Location Told At Meeting

Next May the voters of Franklin Township will go to the polls to vote on a bond issue asking for a million dollar high school building to be erected at Demorest and Briggs-rd. This was indicated as the next step to be taken by the Franklin-twp Board of Education at a meeting held last Thursday evening at South Franklin School when the response by the more than 150 township residents was favorable to the idea.

During the course of the meeting the Franklin Township board announced that it had purchased the tract of land at Demorest and Briggs-rd comprising 38.82 acres as the proposed site for the new elementary school of 16 to 20 rooms. The new school will be built with funds already on hand by virtue of the $970,000 bond issue approved by the voters last year for remodeling of current schools and the erection of the new one. The new high school would be built at the same site if voters give approval to the proposed new bond issue in May.

A $271,000 contract was recently let for the addition of eight rooms at Skidmore School, the board revealed at the Thursday night meeting. Work at that school is currently in progress.

Franklin County School Superintendent George C. Berry, who was in attendance at the Thursday night meeting, called attention to the fact that school enrollments and the population of Franklin Township are showing a continual rise. In 20 years, he said, the elementary school enrollment has grown from 529 pupils to 1,403 and that township schools now have 733 pupils in the fourth through the eighth grades who will populate "a pretty good sized high school four years from now."

Berry pointed out that Franklin Township now has 334 pupils of high school age who attend Columbus, Grove City and Hilliards High Schools. The Franklin Township Board of Education has already been informed by Grove City that it can no longer take tuition pupils after this year. Hilliards School Board is expected to deliver a similar ultimatum at a meeting which is scheduled for next month.

At present Franklin Township students of high school age are attending school at West, Central, South, Grove City and Hilliards High Schools, for which Franklin Township pays tuition.

Board Member Clyde Crandall described to the assemblage the overcrowded conditions currently existing in Franklin Township elementary schools, such as classes being held on the stages and in basements.

Discussion at the open meeting also touched upon other problems which have arisen in the township which are traceable to the rapid growth of the area. Discussed was a current movement now under way to annex to the city of Columbus the tax rich area which included the Westinghouse and General Motors Ternstedt plants. The W. Broad-st area, it was pointed out, is the lifeline to the township in tax revenue and loss of it to Columbus would cripple the financial structure of the balance of the township.

Annexation petitions are making the rounds in the township and, although none admitted having signed it, several did ask for information as to how to go about withdrawing a name from the petition. A motion to pass a resolution opposing the annexation was tabled but the Franklin board president, Albert Beckor, called for and received a definite voice vote as not favoring the proposal.

Also in attendance at the meeting was the Franklin-twp school board: clerk, Sarah Ely: board members, E. O. Clime, Robert Jahn, Robert Hawthorne and PTA Presidents Mrs. Clifford Workman, Mrs. C. O. Barnes and E. L. Le Capitain.

Trees Reported Stolen From Church School

Several evergreen trees just recently planted on the front lawn of the Eastwood Seventh-day Adventist grade school at Union and Ryan-av in a general beautification program were uprooted and stolen last week.

The trees and the installation of the new fence were contributed by one of the members of the congregation. Two of the men of the church contributed their time and labor in the grading of the lawn and the planting of these trees. Several other members contributed to the fund and the labor of installing the new sidewalks at the school.

Westinghouse Starts Production at New Hilltop Plant

Completion of the first refrigerator at the new 45 million dollar Westinghouse Electric Appliance Division plant this week officially marked the production debut of the largest manufacturing plant that Westinghouse has ever built.

Although construction in some areas of the vast Hilltop plant, which contains 2,000,000 square feet of floor space, has not yet been completed, a limited amount of production has been started by a small force of approximately 500 workers. Eventually, the plant will employ between six and seven thousand workers and will produce approximately 4,000 major appliances a day, most of which will be refrigerators and freezers.

"When completed and operating at full capacity, this new plant will represent a substantial increase in the total annual production of Westinghouse appliances," stated John Ashbaugh, Westinghouse vice president this week at Appliance Division headquarters in Mansfield. "The beginning of production at this plant is something we have long awaited," he continued, "as we have been operating our appliance plants in Mansfield and East Springfield, Mass., at top capacity for some years and have greatly felt the need to expand our operations."

Designed and built by Ebasco Services, Inc., of New York, the plant is situated on a 315-acre site just outside the city limits of Columbus in Franklin Township at West Broad-st and Philippi-rd. It is a one-story type factory building extending almost half a mile in length. Almost in the center and extending forward in a T pattern is the two-story office area, highlighted by an impressive marble and stone entrance.

While ground for the new plant was cleared in June, 1951, the first structural steel was not raised until Sept. 1952, having been held up by a steel strike. Construction

Hilltop Men To Lead Annual Charity Newsie Drive

These nine Hilltop and West Side residents and business men line up to carry the ball for needy children of school age. They are members of the Charity Newsies who are soliciting funds now for their 47th annual sale of "Open Your Heart" newspapers, and who also will be selling these special editions Saturday, Dec. 12, on street corners throughout metropolitan Columbus.

They are, front row, left to right: Leroy S. Weigand, corresponding secretary and factory lists committee chairman; A. Louis Holzbacher; Theodore E. Vollmann, special paper delivery chairman, and James W. McDevitt. Middle row: Fred "Fritz" Moritz, first vice president; William H. Haire, "Pep Dinner" committeeman; Warren M. "Scoot" Boyd, past president, and William F. Krause, co-chairman of factory lists and "Pep Dinner" committees, and President Robert L. Durham, back row.

The Hilltop community is furnishing top manpower in the planning and direction of the 47th annual paper sale drive of the Charity Newsies. With an advance solicitation now in progress, the old-time newspaperboys will climax their efforts Saturday, Dec. 12, when they sell "Open Your Heart" special edition newspapers on all principal street corners.

Robert L. "Bob" Durham of 199 S. Brinker-av, heads the welfare organization as president. He piloted the drive two years ago as chairman, while serving as second vice-president. His father, the late Edward J. Durham, was the founder of the organization in 1907, and served as president in 1911-12.

Fred "Fritz" Moritz, of 90 N. Warren-av, now is first vice-president. He was last year's drive leader.

Heading the committee for factory lists solicitation, the campaign now being conducted in stores, offices, and the like, are Leroy S. Weigand of 3181 W. Broad-st, and William F. Krause of 125 N. Terrace-av. Mr. Weigand also is corresponding secretary of the Charity Newsies.

Krause, prominent West Side contractor, also is co-chairman of the "Pep Dinner" committee. This unit is responsible for staging the annual banquet that immediately precedes paper sale day. It will be held Dec. 10 in Southern Hotel.

William H. Haire of 3107 Ellis-pl, is another key personality in the "Pep Dinner" setup. He is planning an elaborate, novel scenic investiture that will transform the Southern's ballroom into "Open Your Heart" land.

The Hilltop also is the home of these active participants in the fund-raising effort that will mean new, warm clothing and sturdy shoes for all needy children of school age:

W. Herbert Dailey, 615 Belvidere-av; Max Gutkind, 476 S. Burgess-av; Otho Haynes, 1995 Floral-av; A. Louis Holzbacher, 97 S. Algonquin-av; James W. McDevitt, 462 S. Huron-av; A. T. Vollmann, 208 Binns-blvd; Theodore E. Vollmann, 75 Whitethorne-av; Richard M. Young, 2766½ W. Broad-st; Harry Fleming, 104 N. Warren-av, and Police Chief Frank L. Harrison, 2964 Wicklow-rd, and Police Inspector Thomas A. Scully, 2101 Sullivant-av, both honorary members.

Corner assignments of the Charity Newsies for the all-out sale Dec. 12 will be announced later, according to Drive Chairman Leslie W. Heimberger.

President Durham also added the word this drive is "100 Per Cent for Charity." All campaign expenses are paid from profits of the organization's principal social event—the annual summer stag outing at Beulah Park. Thus a contribution to aid the youngsters is in every sense a direct help to those in distress.

Oldest Bible In Columbus Is Sought In Unique Contest

How old is the oldest Bible in Columbus?

A local church, spurred by the American Bible Society's annual Bible reading campaign, has started a drive to find out.

Richard T. Minesinger, pastor of the Eastwood Seventh-day Adventist Church, announced today a city-wide contest will be conducted from Nov. 21 until Dec. 12 in search of Scriptures with a long history.

"It is expected that some rare examples will be reported," the pastor said. He added that Bibles with unusual human-interest stories surrounding them will also be eligible for a prize.

The award for possessing the outstanding Bible in either class will be a new Bible of exceptional quality, Pastor Minesinger said.

Owners of the Bibles will not be expected to give them up. The only requirement is that they furnish proof of the publication date. "Publication date is obscure in some cases," Pastor Minesinger said. But often a figure giving month and year is stamped at the bottom of one of the back pages. Family histories in a Bible may also give a clue."

Persons wishing to enter their Bible in the contest are asked to call or write the pastor. His address is 2563 Glenmawr-av. His telephone is LA. 9361.

If an owner is unable to present the Bible personally, an inspector will be sent on request to his home to examine the volume and enter its characteristics in the record.

Cowboys End Season With A Tie Game

By Woody Owen

West High School's Cowboys rung down the curtain on their 1953 football season last Friday night at North High School by battling the Polar Bears to a 7-7 tie, witnessed by a slim homecoming crowd.

The Polar Bears counted their lone score of the night in the first minute and one-half of the game as Dale Hampshire took the opening kickoff on his own 15-yard line and raced it back 77 yards before being tackled from behind on the Cowboys' eight-yard line. Two plays later Jim Yeamans plunged over guard for the T.D.

Steahle converted and it was 7-0 North.

The Cowboys tied the score late in the second period as Tom Ongaro recovered a Polar Bear fumble on the home eleven's 33.

Cline passed to Ongaro on the 19 for a first down and then passed to Thompson on the 16 when a roughness set the North team back to their own one yard line from where Cole plunged for the score.

Klein's conversion was good, making the score 7-7 from where the two elevens battled scorelessly the remainder of the contest. The Cowboys, however, did threaten late in the final period as Kenny Harper intercepted an aerial on the Polar Bear 15 and returned to the eight from where the Cowboys failed to score by inches on four plunged into the line.

Outstanding offensively for the Polar Bears was the running and passing of Hampshire while Swan and Bovie led the defensive play.

For the Cowboys, Senior Tom Ongaro was the standout on offensive while Dave Randall, a sophomore, and Kenny Harper were brilliant on defensive.

West Reserves Capture City League Title

By Woody Owen

Carl Brenning made his debut into the West High coaching ranks a successful one, as his Cowboy Reserve squad captured the City Reserve League title Monday afternoon at Magly Field by downing North High School's reserves by a score of 14-2 in a well played contest.

The Junior Cowboys drove 65 yards downfield in the second period with halfback Williams going the final four yards to score. Williams also converted via placement.

The Polar Bears added their only points late in the same period when a Cowboy back was tackled in his own end zone for a safety.

The locals iced the contest in the final period with a 58 yard march downfield. Conley, a fine scatback, went the final five on a slice over right tackle.

Williams again converted via placement.

The Cowboy reserves finished their city league season with four wins, no defeats and two ties.

Their only defeat of the season was by a 13-7 margin to Arlington reserves in a non-league contest.

Maryland Takes Lead; Nations Top Grid Power

By Dick Dunkel

Maryland blew the lid off of the college football Power Index with the 38-0 blast it lit under Mississippi last Saturday.

As a result, the Terrapins' rating rose to the season's high of 118.2 to put them in first place ahead of Notre Dame (110.9). The Irish had topped the national standing for eight previous weeks.

It was Maryland's ninth straight victory and by far its most impressive one. The Terps now show a net scoring surplus of 27.3 points per game. This was accomplished against opposition with average adjusted rating of 90.9. Adding 27.3 to 90.9 yields the Maryland Power Index of 118.2.

The corresponding figures for Notre Dame, on its seven straight wins, are 16.9 plus 94.0 for 110.9.

Other rankings were shuffled erratically as the result of some of the weekend's events.

Oklahoma, whose only loss in eight games was to Notre Dame, took over third place after swamping Iowa State, 47-0.

Wisconsin (6-2) rose to No. 4 position after mangling previously unbeaten Illinois, 34-7.

No. 5, UCLA (7-1) beat Washington, 22-6; No. 6 Mich. State (7-1) downed Michigan, 14-6; No. 7 Iowa (5-3) walloped Minnesota, 27-0; No. 8 Rice (6-2) trounced Texas A&M, 34-7; No. 9 Texas (6-2) took TCU, 13-3; and No. 10 Texas Tech (8-1) flattened Tulsa, 40-7.

Maryland and Notre Dame, the top two teams in the college football Power Index, will have to be at their unbeaten best in order to avoid disaster next Saturday.

They're scheduled to meet a couple of rugged and upset-minded opponents, namely, No. 11 Alabama and No. 7 Iowa. Both of the latter have made rapid headway in recent games.

Maryland fattened up its No. 1 rating, to 118.2, in last Saturday's 38-0 smashing of Mississippi. But, at the same time, Bama was upsetting Georgia Tech, 13-6, to bring its [illegible] average up to 100.3. Thus, the rating difference is still about 18 points in Maryland's favor. And that's the amount by which the Terps will win next Saturday, if both teams go strictly according to past performance.

However, Maryland shouldn't forget that the Tide rolls in November.

Notre Dame's prospects are even dimmer. The Irish Power Index is now 110.9, only about 8 points higher than Iowa's 103.0. Which means that Notre Dame has been eight points stronger, per game, against comparably rated opposition. But the Hawkeyes have shown increasing potency in their last two games with wins of 26-0 over Purdue and 27-0 over Minnesota.

Other Top Ten members show the following Power Index differences over their opponents of next weekend:

No. 23 Oklahoma, 23 over Nebraska.

No. 4 Wisconsin, 19 over Minnesota.

No. 5 UCLA, 10 over So. California.

No. 6 Mich. State, 12 over Marquette.

No. 8 Rice, 14 over TCU.

No. 9 Texas has an open date.

No. 10 Texas Tech, 3 over Houston U.

And in other big games across the nation, the differences are:

Eastern: Boston U. 18 over Temple, Columbia 13 over Rutgers, Fordham 3 over Holy Cross, Lehigh and Lafayette even, Penn State 2 over Pitt, Princeton and Dartmouth even, Yale 3 over Harvard.

Midwestern: Illinois 18 over Northwestern, Kans. State 10 over Arizona, Michigan 1 over Ohio State, Missouri 18 over Kansas, Purdue 1 over Indiana.

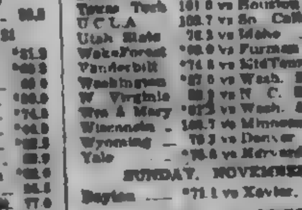
Southern: Auburn 19 over Clemson, Georgia Tech 4 over Duke, Kentucky and Tennessee even, LSU 1 over Arkansas, No. Carolina 23 over Virginia, So. Carolina 33 over Wofford, SMU 13 over Baylor, Wake Forest and Furman even, W. Virginia 22 over N. C. State, Wm. & Mary 16 over W&L.

Far Western: N. Mexico 5 over Colo. A&M, Oregon 15 over Oregon St., Stanford 5 over California, Utah State 10 over Idaho, Washington 13 over Wash. State, Wyoming 10 over Denver.

West Cagers Preparing For Season Opener With North

With the opening of the 1953-54 basketball season less than one week away, Head Coach Fred Heischman and his assistant, Gene Pierce, are sending the Cowboys through their daily paces with hopes of finding a smooth working combination.

Before they clash with North High's Polar Bears, led by the brilliant high scoring Jim Franklin, Wednesday night, Nov. 25, at the fairground coliseum, the Cowboys have a job cut out for them.



The coaches are faced with an almost complete rebuilding job, as only two letter winners are returning from the 1952-53 squad. They are two brilliant guards, Ron Bowman and Jim Vincent. The latter was the Cowboys' leading scorer last season.

Other candidates who either played some varsity or reserve ball last season are Chappalear, Longmeier, Ruffner, Nafzger, Prudea, Strevides and Hicks.

Dave Randall, all-city junior high selection last season, will in all probability be a strong contender for a starting position.

Your Shoetrician in SEILLER'S Says

SHOES TRAVEL

"Far away places with strange [illegible] names!" What brought that on? Well, it isn't every day that you get an order for a pair of shoes from Cairo, Egypt.

When we first opened our children's shoe department in Seiller's, one of our early customers was little Ricky Boehm. His doctor prescribed special shoes with wedged heels and arch supporting long counters. These were provided and a record card was made of Ricky's shoe requirements.

About a year ago Ricky and his mother left the Hilltop to join his Daddy in far-off Egypt. Before they left they bought an extra pair of larger shoes to take along. Since it was very unlikely special shoes like Ricky wore could be purchased in Egypt, we made arrangements for Ricky's mother to put vaseline on Ricky's bare foot and stand him on a piece of typing paper to make a foot-print to send us when he needed shoes again. This morning the print came in a letter covered with foreign stamps and Ricky's new shoes are on the way. It will take 45 days for them to reach him in Egypt. That means Ricky will have new shoes about Christmas. Hope he likes the balloons and the comic book we sneaked into his package.

Dick Dunkel's COLLEGE FOOTBALL POWER INDEX

EXPLANATION — The Power Index provides a direct comparison of the relative strength of any two teams for this season to date. Thus, a 50.0 team has been 10 scoring points stronger than a 40.0 team on their comparative records, in which average scoring margin has been weighed against average rating of opposition. However, this does not mean that a 50.0 team should defeat a 40.0 team by 10 points in the future, because the ratings have not been adjusted for such important forecasting factors as home team advantage, injuries, lineup changes, etc. Therefore, they are not to be construed in any way as gambling information. The Dunkel system correlates records of all college teams and was started in 1929.

Glenwood Teen Club Host To Inter-Center Council Nov. 24

The Glenwood Teen Club will be host to the Inter-Center Teen Council Tuesday, Nov. 24, at Glenwood Recreation Center.

This Teen Council is made up of four representatives from the teen clubs at each of the six city recreation centers. This council meets to discuss mutual and individual teen club problems and programs at the various centers.

Glenwood's representatives are Bill Kenny, Mike Posey, Ann Williams and Hannah Simpson with Marilyn Levering, Don Miller and Floyd Love as alternates.

More than 30 boys and girls from Glenwood Center participated in the first session of bowling at the Hilltop Bowling Alleys on Nov. 16. These leagues, sponsored in cooperation with the Hilltop Bowling Alley, are composed of members of the Teen Club, Gleaners Club, Boys' Club and Glenwood Camp Fire Girls.

Instruction for those who could not bowl was furnished by Marilyn Gordon, Charles Moore and bowling alley personnel.

The senior girls' basketball league opened Nov. 18 at Glenwood Recreation Center with the Blue Eagles playing the Sharpshooters, the Blue Sockers meeting Oakwood Methodist, Crazy Eight vs. Hilltoppers, Poo Cats vs. Amazons and Hep Cats vs. Red Devils.

Next week's schedule, Nov. 23, is as follows:—6 p.m., Blue Sockers vs. Amazons; 6:45 p.m., Red Devils vs. Crazy Eight; 7:30 p. m., Sharpshooters vs. Hilltoppers; 8:15 p. m., Blue Eagles vs. Oakwood, and 9 p. m., Poo Cats vs. Hep Cats.

Intermediate girls' basketball teams are practicing Thursdays from 6 until 8 p. m. League play will begin the first of December. Any team or individual in this age group who would like to participate should contact the Center office.

Junior teams play on Saturday morning from 9 until 12. This league, which will begin the first of December, includes girls of 13 years and younger. Any team or individual interested in participating in this age division should also contact the Center or attend one of these practice sessions.

In League 1 of the Senior League, the Hilltoppers dominate the league play with two wins and also have the league's leading scorer in Bill Voss who has 63 points.

In League 2, the Panthers, Celtics and Lightning Five have two wins and no losses. Skip Robinson of the Panthers lead the scorers with 40 points.

In the Intermediate League, after the first set of games, the Westgate EUB and West Side Pirate teams have one win each.

The Atomic Five leads the Junior League with two victories and Mike Wolf of the Atomic team leads the scoring parade with 17 points.

A boys' basketball clinic is being sponsored by the Boys' Officials' Club. This clinic will include basic skills and strategy of the game and will be offered to those who desire to increase their knowledge of the sport. The first session will be held on Thursday, Nov. 19; at 4:15 p. m. and will continue every Thursday. All boys are required to bring their trunks and shoes in order to participate.

Several new boys have joined the wrestling team and a good season is in prospect. The team meets for regular practice each Wednesday at 7 p. m. The wrestling room is also available on Tuesday and Thursday evenings for those who can "work out". The wrestling invitational tournament is scheduled in March and other meets are being planned with other recreational centers.

One, two, three, kick! Such calls are common in the club room on Wednesday nights as the dancing class learns to conga and rumba. Much progress is being made on the foxtrot and waltz steps as well as on the Latin American rhythms. The fast growing group plans to study the jitterbug, polka and other steps in the near future.

The Gleaners Club plans to sponsor a Thanksgiving party on Friday, Oct. 30, from 4 to 5:30 p.m. All interested girls between the ages of six and twelve are cordially invited to join us for an afternoon of fun and refreshments. Future plans of the club include a puppet show to be staged and produced by the members.

The Junior Boys' Club took a trip to the top of the Lincoln-LeVeque Tower on Saturday, Nov. 7, to get an "aerial" view of Columbus. Seven boys, Bill Quinn, Ronnie Ogden, Bobby Posey, Ronnie Hensley, Jimmy Crameans, Mike South and John Bents, made the trip. Although the day was cold and cloudy, a very interesting and good time was had by all. Other trips are being planned for the future.

Next week the club will meet at the Center and elect its officers for this year. Any boys interested in joining this club can do so by attending the meetings each Saturday at 9:15 a. m.

The Tuesday and Thursday afternoon craft classes have begun work on Christmas gifts. In addition to the gimp work and weaving we are beginning to decorate pasteboard boxes in various designs and sizes with wallpaper and original designs. All persons interested are urged to bring in different sizes of boxes to refinish. The adult craft class which meets on Tuesday night from 8 to 10 will be doing similar work on a more advanced level.

The free weekly movie at Glenwood on Nov. 25 will be "Curtain Call at Cactus Creek, starring Donald O'Conner.

A typical Abbott and Costello comedy, "Ride 'Em Cowboy," will be shown Dec. 2.

Hilltop YMCA Will Sponsor Volleyball

The Hilltop YMCA will sponsor an adult volleyball league during the fall and winter months. The league will open Nov. 20 at the Glenwood Methodist Church gym. The league is composed of the following teams: New Home, West Park Methodist Church, Hillcrest Baptist Church and St. Paul's Evangelical Congregational Church.

The first evening of play will be set aside for instructions and practice sessions. Albert Hollowell, physical director of Central YMCA, and several experienced volleyball players from the Central "Y" leagues will be on hand to instruct and demonstrate the game to the Hilltop "Y" league players.

Any individual interested in entering this league can contact the Hilltop "Y" office at JO. 4641 for additional information.

Student Survey Scores Rowdyism At Grid Contests

A West High Citizenship class has just completed a school and community survey of special interest to all West High football fans.

Almost three-fourths of the answers say that conduct during the games is not good — either fair, poor, or disgraceful. Throwing things and general confusion are the things that annoy most. Better sportsmanship on the part of spectators would be appreciated.

Getting in and out of seats, stepping on people's feet, fussing over seats, scuffling, jumping up and down when nothing is going on were some of the things mentioned. Throwing such things as coke is much disliked, and so is foul talk.

Rowdyism after the game is giving West a bad name, so say 80 per cent of the people surveyed.

What can be done to improve the situation? These are some of the suggestions: parents contacted, stricter discipline, a special section for junior high school students, the curfew enforced, more police action, and punishment of individuals involved. Afternoon games, or no games at all, was the most frequent suggestion.

The class making the survey, 7B Citizenship, did this project because they wanted to help a little on the football problem. They believe it is a problem that involves both junior and senior high students, and that the help of all is needed if West is going to be noted for good sportsmanship.

Tax Stamp Show MC'd By Morgan And Kirkpatrick

Ronnie Kirkpatrick and Margie Jo Morgan will emcee the annual Sales Tax Stamp Show to be held at West High on Dec. 10. Admission will be $10 in sales tax stamps or 50c for the two student shows and 50c for the two public shows to be given at 7:30 and 9 p. m. on the same day.

The highlight of the show will be the Nancy Wilson Trio singing "Crying in the Chapel", the Albery sisters dancing to "Birth of the Blues" and Anita DeMatteo and Janice Underwood singing "There Is Nothing Like a Dame." These and many more will make up the show from both West senior and junior high.

By Dick Wilson

The Furry coached West Broad eleven won the Gra-Y football gonfalon last Saturday morning at West High School by edging a fighting team from John Burroughs Gra-Y to the tune of 6-0.

The game was deadlocked at the end of the first quarter as both teams played cautious defensive ball with punting by J.B.'s Mike Cantlon and WestBroad's Ron Saint being the highlights of the quarter.

West Broad opened up its offensive attack in the second quarter and managed to push across a score. John Peterson and Tom Hartranft set up the score by working the ball down to the two-yard line with running plays. Ron Saint then passed to Bill Kern who made a circus catch in the end zone for the score. Saint tried to pass to Hartranft for the extra point, but it was knocked down by the entire J.B. backfield.

The two teams see-sawed back and forth for the remaining time in the game until the last minute when J.B. threatened to score by working the ball down to the West Broad four yard line. Time ran out on the Sullivant team as Captain Ray Barnes tried scooting around the end for the score.

Jimmy Ricketts of West Broad and Jim Bidwell of John Burroughs were the defensive standouts of the game.

Westgate Gra-Y clinched third place in the league by beating Highland 14-0 in the second league game of the day. Highland played a spirited fighting type of ball, but the Westgate running attack was too much for the boys of Lowery and Shepherd.

Joe Mann, fleetfooted Westgate back, made the first score of the game in the second quarter when he returned a punt for fifty yards to go untouched into the end zone. Rob Ross's try for extra point was not good. The Westgaters continued with their scoring ways in the third quarter as Bob Wesley scored from the one-yard line on a run around end. Terry Linson tried to run the extra point but he was stopped at the line of scrimmage.

The final score of the game also came in the third quarter when Big Dildine was caught behind his goal line for a safety.

Pohle of Westgate and Little Riebel were the defensive stars of the game.

Looking Back

16 Years Ago West Won Grid Title Second Straight Time

Sixteen years ago on the Hilltop West High School's Cowboys were celebrating the completion of a season without defeat or tie, and clinched the city title for the second consecutive year.

Columbus City Council heard a complaint against the Cincinnati and Lake Erie traction tracks on W. Broad-st, and their responsibility as a serious traffic hazard. Injured in the two auto crashes caused by the slippery tracks on Sunday, Nov. 19, were Harold Williams, 21, of 185 N. Burgess-av, William Woodyard, 19, of 461 S. Harris-av, and Henry Fichterman, 19, of 108 S. Dakota-av.

Two Hilltop police officers retired that week after more than 25 years' service on the force, were F. M. Draper, 74 N. Roys-av, and Cpl. Sam W. Earnest, 144 Binns-blvd.

Looking back on the social side, we find an announcement of the wedding of Margaret Paschal and Robert E. Maxwell. Well-known to many Hilltoppers, Bob is now associated with the John Hancock Insurance Co in this area, after many years with the Harley Printing and Publishing Co.

Other marriage announcements in the issue of Nov. 19, 1937, include Rachel Richards and Charles Boye, West High grads of the class of '35; Louise Pennell and John Voltz, and Geraldine Jones and Paul Wichterman, then associated with The Hilltop Record and now with The Surface Combustion Co.

And, in recognition of outstanding work during the year past, Esther Weakley, 2 Belvidere-av, and still a favorite columnist in the Record, received the "Poet's Roundtable" award.

Thanksgiving To Be Stressed

Thanksgiving emphasis will be given to the worship services Sunday morning, Nov. 22, 10:30, at the Burgess Avenue EUB Church.

The newly organized youth choir will make its second Sunday morning appearance this fall and will furnish the special music of the morning. The choir has grown to include about 30 voices.

The Thanksgiving meditation will be given by the pastor, Rev. Irvin Lane.

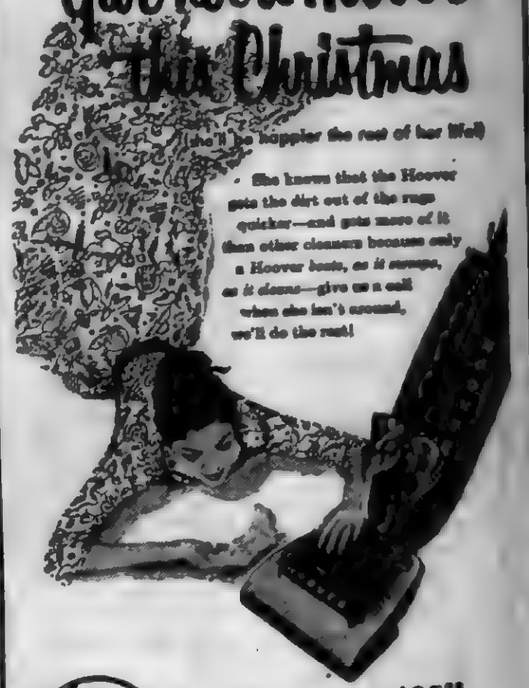
Thanksgiving Service Planned

A Thanksgiving service will be held at Glenwood Methodist church Wednesday evening, Nov. 25, at 7:30. The pastor, Rev. Joseph B. Shellhaas, will give the Thanksgiving sermon and the Chancel, Wesley and Chapel choirs will sing, under the direction of D. Talmadge Crawshaw, with Mrs. Clyde D. Moore as organist.

District Scout Officials Meet

The November meeting of the Southwest District Scout officials will be held at the Camp Chase American Legion Hall on Tuesday night, Nov. 24, at 8 o'clock.

Cy Rawlings, chairman of the district, will preside. All institutional representatives and other district officers are urged to attend. Mr. Rowlings has promised an announcement at that time that will be of interest to all members of the district.



Family Night At Briggsdale Church

Briggsdale Methodist Church has designated Friday, Nov. 20, as monthly family and fellowship night, with a basket dinner to be served at 7 o'clock. Special music will be provided by the Achbar Grotto chorus and the public is invited to be guests of the church.

The Franklinton Branch Library, 940 Sullivant-av, in Columbus, and Hilltop Branch Library, 2958 W. Broad-st, and the main library, 96 S. Grant-av, are available and convenient to all the residents of these townships.

TOWNSHIP SERVICES

Under the laws of Ohio, townships are permitted to render their citizens only a limited number of services. These include:

1. Fire department (505.37) (521.02, 521.14)
2. Garbage and refuse disposal (505.27)
3. Hospital (513.01, 513.06)
4. Street lighting (515.01)
5. Cemetery 517.04) Hearse and Vault (505.15)
6. Town hall (511.01)
7. Township memorial (511.06)
8. Township parks (511.16)
9. Sanitary dumps (505.12)
10. Street markers and house numbers (503.30)
11. Regulations for vehicle parking (505.17)
12. Soldiers monument (517.30)
13. Zoning (519.02)
14. Road construction and repair
15. Viaduct construction and repair (505.36)

It will be recognized that most of these are optional rather than compulsory. Only after the Board of Township Trustees has been directed to proceed, by a vote of the people, is it necessary to levy taxes and provide for such services as 2, 5, 6, 7, 8. Thus the people of the township determine to a large extent the scope of its governmental activities. In neither Franklin nor Prairie Townships have the people yet demanded such service. The financial statement of Franklin Township shows that, in 1952, its two principal activities were its fire department and road and street maintenance. The fire department absorbed more than half the township budget, highway functions a little more than one-fourth leaving less than one-fourth for all other purposes. The assessment for the support of the general county health district required nearly half of this.

Fire Department. Franklin Township has a fire department of which it is quite proud. There is little doubt that it is one of the better volunteer departments in Franklin County, if not in the state of Ohio. There are three stations as follows: No. 1 on McKinley-av at San Margherita; No. 2 on Sullivant-av at Derrer-rd; No. 3 on Frank-rd at the intersection with Ohio highway No. 3. A fourth fire station is soon to be constructed in the Dublin-rd area east of the Scioto River. These stations are so located that no part of the township is more than three miles away from a fire house. At each station there are 30 volunteer firemen, all of whom have received training in fire fighting. Likewise, at each station is a modern triple combination fire engine. The unpaid balance of the purchase price of these trucks as of 1952 was $20,695.87. The township had an unexpended general fund balance of $13,203.64.

Those areas of the township which are within 1000 feet of a fire hydrant (see the discussion on water supply service) enjoy a fire insurance rate based on 8th class of the Ohio Inspection Bureau. There are 10 classes, No. 1 being the perfect system (so Ohio city has one) and No. 10, indicating no protection at all. Those beyond this limit have 9th class rating. The city of Columbus with its full time efficient department and water supply system is in the fourth class with much lower fire insurance rates, especially for commercial risks. Of course, large industrial plants, like General Motors and Westinghouse, have internal fire fighting organizations with trained men to supplement the public facilities.

Under the impetus of civilian defense, all the municipalities and townships of Franklin County have entered into a fire and disaster mutual aid pact which, in effect, assures aid in large conflagrations.

Prairie Township also maintains a fire department, serving the whole township, with its equipment housed at New Rome. This department has 28 volunteer firemen with two triple combination pumpers and one more on order. Since there is no water supply except in New Rome, the major part of the township has fire insurance rates based on the ninth class.

Township Hall. Franklin Township once owned its hall at 3445 Sullivant-av but it was sold in 1952 to Mel Peiffer, a contractor. The township now is renting it from Mr. Peiffer until he is ready to use the premises for other purposes. The General Motors Corporation has given the township three acres on Sullivant-av on which the township hopes to build a fire station, with space for town meetings which it would rent from the fire department. But so far no action has been taken toward placing the question of a bond issue for this purpose on the ballot, which would be the first step in such a plan.

Mother McCord's Cookie Recipe Is Favorite Choice Of Printers

Frank McCord

This week's recipe feature offers a departure from the ides that to the ladies only go all the laurels as cooks. Frank McCord, printer at The Hilltop Record, when he gets the ink washed off his hands, turns out cookies that would challenge the best of us.

A veteran of World War II, Mccord has been associated with the Hartley Printing and Publishing Co. for several years. He is a member of Local No. 8, Typographical Union, and is active in the Presbyterian Church he attends.

McCord is married and has one son, and the family resides in Lan[illegible].

With the holidays and its traditional cookie-baking just around the bend, all of us are looking for new and unusual recipes. Frank often brings a generous contribution of these delicacies with him and the speed with which they disappear attests to their goodness.

Frank "Mother" McCord's Pie Dough Cookies

5 cups flour
1 cup white sugar
1 cup brown sugar
1 cup vegetable shortening

Mix as for pie dough, kneading with the hands.

1 cup seeded raising, heated to boiling point in ¾ cup water.

Drain off ¼ cup water in which the raisins were cooked and add
1 tsp. soda
1 [illegible] cups
1 tsp. vanilla
1 tsp. salt
1 cup walnut bits.

Thoroughly mix all ingredients and drop by teaspoonfuls on greased cookie sheet, flatten and bake at 375 degrees for 18 minutes. Makes five dozen.

By Lou Davenport

On Friday and Saturday, Nov. 20 and 21, the All Ohio School Journalism Conference will be held in the Journalism Building at Ohio State University. Hilliards High School is honored to send seven representatives to this conference.

Five representatives were selected from the Wildcat staff: editor-in chief, Dick Roesch; senior assistant editor, Jerry Kaltenbach; junior assistant editor, Dave Boerner; sports editor, Tim O'Hara; fashions editor, Billie Ann Orr. The two who were selected from the annual staff were: editor-in-chief, Toni Murray; art editor, Alice Ray.

Newspaper reporting and yearbook planning are the main topics to be discussed at the conference.

INITIATION
By Dorothy Sparks

The initiation of the new members of the Tri Hi-Y Club was held in the high school auditorium Tuesday night, Nov. 10, at 8 o'clock. All the new as well as the old members were asked to be present.

The initiation for the Hi-Y was held the same evening.

ATTENTION PHOTOGRAPHERS
By Bill Foechter

Have you entered your pictures in the Hilliards snapshot contest? The snapshots may be of club activities, sports pictures, pictures of students, even yourself. Turn in as many pictures as you wish. Just be sure they have your name on them in order that credit may be given. Every picture will be published in the Hilliards High yearbook, and the winner will receive a $3 Memory's Trail free.

CONGRATULATIONS
By Bill Foechter

Penny Pennell was winner of the contest, "Why the Hilliards Wildcats should go to the Orange Bowl," sponsored by the annual staff. As winner of the contest Penny is entitled to receive a free copy of the 1953 Memory's Trail.

The judges were Mr. McElheny, Mr. Boucher, Mr. Koncar and Miss Woelfling. The themes were judged on sincerity, originality and content. Because of a close race, Mr. Pickens was asked to select the winner.

Runner-up was Louisa Potts. Honorable mention goes to Lowell Johnson, Judy Moore, Marilyn Murray, Dave Francis, Donna Kreis and James Hetrick. Congratulations again to Penny and her English teacher, Mrs. Smith.

MY FAVORITE TEAM
By Penny Pennell

I think that every boy and girl, unless he doesn't have school spirit, thinks his school's football team is best.

But that isn't the only reason I think Hilliards High School's team is the best. The boys on the Hilliards High team know what it's like to win and what it's like to lose. But, win or lose, they are good sports about it.

If any of the opposing teams play unfairly, Hilliards merely goes out and plays all the harder. But while they play harder they still play fair ball.

Even if they see they are losing the game they keep up their spirit. I've seen many a boy pat the boy next to him encouragingly on the shoulder or bottom to bolster up his spirit.

Hilliards has a good clean reputation and it is popular with the other teams and the people who attend its games.

All in all, I think our school, Hilliards High, is tops and our team helps to make it so.

Those Eyes —

How Well Do You Know Them?

This is a new feature of The Hilltop Record. We know you'll find it entertaining in testing your own powers of observation and memory in identifying the person to whom these eyes belong.

Paul L. Jones

How well did you remember these eyes of last week? We know of at least one person who sees Paul L. Jones, resident manager of the General Motors Terminal Plant every day in the week who didn't know who he was. The comment was, "Those eyes look very familiar but I just can't place them." We didn't tell and will bet that someone is mighty surprised when he reads this.

Jones, as resident manager of the local GM plant, is representative of the 27 men who form the nucleus of the plant's management. He started as a factory worker and worked himself upward. He was born in Orlinda, Tenn., and his first job with General Motors was as a punch press operator in 1923.

EDITORIAL AIRED

Hilltop Record readers will hear the editorial "Are They Just Politicians?" on Buckeye Viewpoint Saturday, Nov. 21, at 12:45 p.m. on WRFD, Worthington, 580 on your dial. The editorial appeared in The Hilltop Record of Nov. 12.

LETTERS TO THE EDITOR

Dear Editor:

In regard to the stealing of billfolds and money at the Highland Avenue Church of Friends, where a young man was accused by members of the church without a chance to defend himself.

I want it to be known that the one who did take them was a boy from the Bureau of Juvenile Research who has been apprehended and is being held.

Another case of circumstantial evidence with nothing concrete to go on. Take the Lord's warning (Matthew 7) and if those who accused have what it takes, go and make things right with this young man.

BRITTLE NIGHT

The night is brittle as the rattling leaves
That line the fence; the sky is frigid blue
Where Autumn kneels and late November weaves
A scarf of tattered vines and icy dew.
A gust of wine that fallen apples laid
Upon the wind intoxicates me now,
For here the autumn shed the summer's jade
And sun-bruised fruit, neglected, left the bough.

I watch the moon creep past the night's sharp ledge
Then rest one moment on the pasture stile
To lift its golden body up, and wedge
Between two groups of stars and stay awhile—
Dark autumn slowly burns its last red fire
While winds blow out earth's candles of desire. .

Things I like to remember, though the list might date me: the thrill of being allowed to drive Grandpa's horse and help hitch him to the brand-new rubby-tired buggy, complete with whip with tassel . . . how wealthy and important you felt when somebody gave you a whole quarter . . . the stuff they used to use on bedroom floors, which we called "matting," and how cold it was to bare feet, winter mornings . . . the big striped sacks of candy you could buy for a dime . . . hay rides, even when the wind blew all the hay off the wagon and your feet got cold . . . the huge dill pickles you got for a penny and ate behind geographies in school (are the geographies still a obig? I hope so for they can cover a multitude of youthful "sins") . . . the old organ in Grandma's parlor and how hard it was to pump; how we thought it sounded like thunder with all the stops out . . . the way applebutter smelled and bubbled in the big copper kettle and the long stirrer and how the wood smoke made us cry . . . long underwear we used to have trouble with; how bumpy our legs looked under our long black stockings when we did not get the underwear anchored down below our high shoe tops . . . last day of school when everyone "spoke a piece" . . . the enormous breakfasts everyone ate, often even pie, with never a thought of/to calories . . . old rail fences with bittersweet running along the top . . . how long it took the butter to show at the top of the old wooden churn, especially when you were dying to finish one of the Alger or Elsie books, or read the last copy of the Youth's Companion . . . what big troubles we thought we had and now know were not troubles but little parts of growing up.

Mail—From Thornville: Being a man of the fields, I have no little delight in visiting the various Indian mounds. I know many of them and have made a study of them, and still find many perfect arrowheads right here on my farm. I found a very lovely tomahawk. I fastened a wild cherry handle to it with leather string. When I show it to visitors I tell them that is just the way I found it. Almost invariably they will gasp with awe, then on second thought they will know I am only joking . . . From an ex-Hilltopper: I know how proud the Hilltop is that one of its own has been elected Mayor of Columbus. Fine people, these Hilltoppers . . . From Delaware: I was in a drug store the other evening and was surprised when a lady came in and asked for asafetida. I hope they don't still hang that stuff around the necks of little defenseless kids! (Incidentally, those bags of asafetida are one of the things about the Good Old Days that I DON'T like to remember!)

From somewhere: A boss is a man who—when you get to work early, comes in late — and when you are late, comes in early . . . Except for wrestlers, no pro big man ever throws his weight around . . . All good things will come to the other fellow if you will only sit down and wait . . . PICTURES

Pictures taken on vacation trips can become the most treasured of all souvenirs. They offer the best means of reliving the pleasures experienced, as well as sharing them with others. My husband and I go to Mesa, Ariz., for the winter months, and during January and February we spend our time in sight seeing and taking pictures.

One of our favorite spots is Oak Creek Canyon. It is a huge crevasse of white, yellow and red rock cliffs rising 1,500 feet above ground surface and clothed in pine, cypress and juniper trees. Color is rampant here and the place is truly a mecca for the shutterbugs!

In March the cactus starts blooming, beginning with the Cholla (Jumping Cactus) and followed by the Ocotillo, Bismaga (Barrel), yucca and the Sagauro which is the state flower.

In April, after a rain one finds large beds of verbena and poppies in bloom. Sagebrush, Greesewood and the Palo Verde trees are also in radiant bloom. The desert ground is very fertile, but it requires water which is supplied to the farming areas by a series of irrigation ditches.

Tourists are sometimes surprised to learn that this state ranks second in the production of lettuce, and leads all states in the per-acre yield of alfalfa, cotton, winter wheat and cantaloupe. One also sees picturesque fields of vegetable gardens and citrus groves.

Also of interest to the tourists are the Indian reservations. One seventh of all full blooded Indians of the United States are in Arizona. While they are shy about having their pictures taken, they will pose for the price of a candy bar or a quarter.

On our way home each year we take a different route. Last year we drove north through Flagstaff to the Grand Canyon, and from there to Zion and Bryce Canyons. Each canyon with its different rock formation has a unique appeal all its own. Continuing north through Mormon territory to Salt Lake City. The Mormon Temple presents a beautiful picture from any angle. From here to Denver we traveled through five hundred miles of mountainous scenery, considered by many to be the most scenic drive in the United States. From Denver we drove through the Kansas wheat fields crossing the Mississippi at St. Louis. And then on to good old Columbus and the Hilltop, with many pictures to remind us of another wonderful vacation!

LaVina Souslin Is Saturday Bride Of Clifford William Paul

Mrs. Clifford William Paul
J. Curtis Allen Photo

Miss LaVina Mae Souslin became the bride of Clifford William Paul in Saint John Lutheran Church, Saturday evening. The 7:30 p. m. ceremony was solemnized by Rev. C. T. Langhoix with the assistance of Rev. Boynton Merrill, pastor of the First Congregational Church.

Escorted to the altar by her father, the bride is the daughter of Mr. and Mrs. E. Robert Souslin, 247 S. Southampton-av, and the bridegroom's parents are Mr. and Mrs. Clifford D. Paul, of 460 Binns-blvd.

Lace appliques trimmed the bridal gown of white nylon tulle over satin, fashioned with a shirred bodice and short sleeves. The bouffant skirt extended into a brush train. Her fingertip veil of sheer imported French illusion fell from a crown of nylon tulle enhanced with seed pearls.

She carried a white Bible topped with lace leaves, pink rose buds and white stephanotis. The bride also wore an heirloom diamond necklace belonging to her paternal grandmother and carried a handmade white lace handkerchief from Bruges, Belgium, a gift of the bridegroom's aunt, Miss Mabel Leffler.

Miss Charlene Souslin, maid-of-honor, was gowned in Aready blue velveteen and nylon net, styled with a fitted strapless bodice of velveteen with soft folds of nylon net and a shrug jacket of velveteen. The bouffant skirt was fashioned of nylon net over taffeta.

Miss Marilyn Rieder, served as bridesmaid and Mrs. Howard Long, as bridesmatron. Their frocks of winter wine velveteen and nylon net were styled identically with the one worn by the honor attendant. They each wore a head piece of velveteen leaves and carried a colonial bouquet of red rosebuds.

The little flower girl, Denise Regan, wore a gown of pink nylon net over taffeta and carried a colonial bouquet fashioned of pink rosebuds.

The mother of the bride was gowned, for the event, in mauve pink nylon net over taffeta with winter white accessories and a corsage of deep pink carnations.

The bridegroom's mother chose a frock of dusty rose lace over taffeta with matching accessories, and her corsage was fashioned of pink carnations.

A graduate of West High School, the new Mrs. Paul attended Ohio State University and is associated with the Civil Service Department of the United States Government.

Her husband is also a West High School graduate and attended Ohio State University prior to his enlistment in the U.S. Navy.

For their wedding trip to Daytona Beach, Fla., the bride chose a wool suit of mauve pink and brown with matching accessories. The couple will reside in Bremerton, Wash., where Mr. Paul is stationed.

Double-Ring Ceremony Unites Miss Fulton, Dallas Swanson

Mr. and Mrs. Dallas Deane Swanson
J. Curtis Allen Photo

The home of the bride was the scene of the wedding ceremony uniting Miss Amy Jeanette Fulton and Dallas Deane Swanson, on Nov. 8 at 1:30 p. m. The couple repeated their vows in the presence of friends and relatives, before an altar decorated with white gladioli and mums, palms and seven-branch candelabra. Rev. A. L. Roth, pastor of Hillcrest Baptist Church, officiated at the double-ring service.

Given in marriage by her father, the bride is the daughter of Mr. and Mrs. Earl R. Fulton, 578 Townsend-av, and the bridegroom is the son of Mrs. Clara Swanson, of Kenyon, Minn.

Her waits-length bridal gown of white chantilly lace over satin, was fashioned with a tight bodice and a yoke of illusion. Bands of waxed orange blossoms held her veil of illusion, worn by her mother at her wedding.

Her only jewelry, a single strand of pearls, was the bift of the bridegroom and she carried shattered carnations, fashioned into a cascade and centered with an orchid.

Miss Beatrice Ellenger attended her cousin as maid-of-honor, gowned in a waits-length frock of pale yellow nylon net over taffeta featuring a bolero jacket. Her colonial bouquet was fashioned of American Beauty roses and white mums.

Mr. James Fulton, brother of the bride, served as best man.

For her daughter's wedding, Mrs. Fulton chose a mist blue silk suit trimmed with pink and wore a shoulder corsage of pink roses.

Mrs. Marjorie Rytenton, Miss Eileen Landenberger and Miss Dolores Ziegler served as hostesses at the reception, held at the home of the bride, following the ceremony.

The new Mrs. Swanson is a graduate of West High School and is enrolled as an art student at Ohio State University. She is a member of Plenides and Job's Daughters, Bethel No. 3, and was associated with the S and W Molding Co.

Her husband graduated from Kenyon High School and is a member of the U.S. Air Force, stationed in Mountain Home, Idaho, where the couple will reside.

When pleasure is on her trial we are not impartial judges.

Mr. and Mrs. Richard W. Wilson

Trinity Methodist Church in Chillicothe was the scene of the nuptial ceremony uniting Miss Jacqueline Smith and Richard W. Wilson in marriage on Nov. 1. Rev. Harry Baker solemnized the 2:30 p. m. service.

Given in marriage by her father the bride is the daughter of Mr. and Mrs. Bernard Smith and the bridegroom's parents are Mr. and Mrs. Carey B. Wilson.

The bridal gown of white skinnar satin was styled with a scalloped neckline with beading of pearls and brilliants, and long fitted sleeves. The bouffant skirt, worn over old-fashioned hoops, extended into a cathedral train.

Her veil of French illusion cascaded from a poke bonnet fashioned of satin and lace and she carried a white Bible topped with a white orchid and stephanotis.

Mrs. George Greisheimer attended the bride as matron-of-honor and serving as bridesmatrons were Mrs. William Patterson and Mrs. Robert Oney.

Their gowns of nylon net over taffeta featured hand draped strapless bodices of net and satin covered with satin jackets and the bouffant skirts of net were accented with bands of satin. The honor attendant's frock was of minuet pink and the others were of peacock blue.

Serving as bestman was George Greisheimer, and seating the guests were Mr. Harold Wilson, Mr. Robert Lambert, Mr. Raymond Kuss and Mr. Thomas Kimball.

Mrs. Smith chose, for her daughter's wedding, a slate-blue taffeta gown with pink accessories and the bridegroom's mother wore a frock of grey crepe with pink trim and black accessories.

For her wedding trip to New York City, the bride chose a medium blue wool suit with navy accessories and her bridal orchid.

The new Mrs. Wilson is a graduate of Chillicothe High School and is employed at the Ohio Fuel Gas Co. Her husband, a graduate of Ohio State University, is associated with the Hilltop Branch of the YMCA.

The newly-married couple is residing at 279 N. Oakley-av.

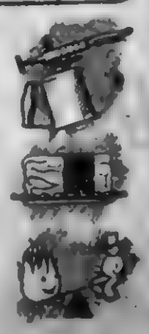
The greatest comfort idea since automatic heating

Here's a revolutionary new concept in home heating! The A. O. Smith gas-fired Winter Air Conditioner actually replaces heat losses—as they occur! Ordinary thermostat-controlled furnaces can't compensate for heat losses until after the heat is gone and the room is too cold for comfort.



A.O.Smith

the furnace that thinks for your thermostat!

The A. O. SMITH gas-fired furnace ends hot-blast heating because it continuously tunes the heat to match the need! There's never an excess of heat—always mild, even warmth.

The A. O. SMITH gas-fired furnace eliminates layer cake heating because mild, filtered warmth is constantly, gently in motion from floor to ceiling in every room of your home.

The A. O. SMITH gas-fired furnace ends see-saw temperatures. It replaces heat losses continuously and automatically . . . provides true Living Level Comfort all during the heating season!

Westinghouse—

(Continued from Page 1)

since that time has been rapid in a race against time and weather to get the plant into production. Today, it stands almost completed—its vast roof covering 45 acres of plant area—built of 47,000 cubic yards of concrete and 11,400 tons of structural steel.

Approximately six miles of railroad sidings lead into the plant, and over these rails each day when the plant is operating at maximum production approximately 90 carloads of supplies will be brought into the plant, and 90 carloads of completed apparatus will roll out.

The plant contains four manufacturing aisles, each 200 feet wide and extending approximately 1500 feet. These aisles lead in a straight-line production pattern to the warehouse area with a storage capacity of 100,000 major household appliances.

First Refrigerator to Miami

Among those present to witness the assembling of the first Columbus-made Westinghouse refrigerator were F. L. Smith, works manager, and George Mesliger, manager of the Division's refrigeration department.

The refrigerator assembled first was a model DF1-84, the most popular Frost Free automatic defrosting refrigerator in the 1953 Westinghouse line.

Assembled and crated on the line, the refrigerator was hoisted into the air by a conveyor, a part of the plant's 27-mile long conveyor system, and carried over the heads of the spectators, through an opening at second-story height and into the warehouse area. Then to be shipped to Jefferson Stores, Westinghouse electric appliance dealer in Miami, Fla., who was selected out of all appliance dealers in the country for having done the most outstanding job in selling Westinghouse refrigerators during 1953.

THANKSGIVING

For blessings received . . . . a time to give thanks

The first Thanksgiving of the Pilgrim Fathers was more than a feast. Above all, it was a day specially set apart for giving thanks. The first cruel winter had been weathered. The first harvest had been reaped. The foothold in the New World had been made secure. True, this took vision, courage and a great deal of plain hard work. But the Pilgrims knew in their hearts that none of their gallant band could have survived without the gracious intervention of Divine Providence. And so, in all humbleness, they took a day of surcease from their toil to express their deep gratitude to Almighty God.

Let us approach this Thanksgiving Day in the spirit of the Pilgrim Fathers. Let us enjoy the feast, of course; the family reunions, the gatherings with friends. But let us not lose sight of the inspiration and true purpose of the occasion: gratefully to give thanks to God for the blessings we have received.

Let us share with the Pilgrims that unquestioning trust in God, without which they would never have embarked upon their historic voyage. Let us partake of the steadfast faith that sustained them through the trials of their first year in the New World. Let us, above all, follow their example in recognising the Hand of the Creator in all good things that have come to us.

Each of us will find his own personal blessings for which to be thankful. All of us share in those paramount blessings that come to us as Americans. A free people, we walk in dignity and sleep at peace, and without fear. We are free to worship God, each in his own way. We are free to know the truth and speak our minds about it. We are free to choose our own work.

We are free to grow, to create, to achieve . . . each to the utmost of his own ability, with no shackles of regimentation to curb his ambition or thwart his progress.

These freedoms are the strength of America. They are the priceless blessings enjoyed by every American. For them on this Thanksgiving Day . . . in our churches and in our family circles . . .

LET US GIVE THANKS TO GOD, FROM WHOM ALL BLESSINGS FLOW

Indian Observer Visits West To Study Educational Program

By Barbara Booth

Recently West High was host to a visitor from New Delhi, India. Mrs. Shanti Kabir, who is visiting this country on invitation from the State Department to study and observe the program of education and social welfare organization in the United States was the visitor.

In India, Mrs. Kabir is general secretary of the Association for Moral and Social Hygiene and administrative official of three New Delhi educational institutes. Her work in her country covers two major fields, education and the problems of women. Mrs. Kabir is working hard to better life for Indian women. Her husband is secretary in the ministry of education. She has two children, a daughter, 17, in college in India, and a son, 20, doing graduate work in nuclear physics at Cornell University.

In the United States six weeks, Mrs. Kabir will stay until Dec. 10. Here at West she observed teaching methods and parent-teacher organizations and how they work.

She is fascinated with American kitchens. "Machines have been a great help to your women," but she admits it will be a long time before Indian kitchens can be comparable.

India's biggest need, Mrs. Kabir [illegible], is compulsory education for all the teachers to staff the program. She described the newly-organized 12-year program of "pre-basic and post-basic" schooling patterned after the American public school program.

Mrs. Kabir is an ardent worker for women's rights. "It is good for society as a whole that men and women develop equally, but we must accept not only the equality but also the responsibility."

"Traveling like anything" to see all she can of the U.S. in a three-month visit, Mrs. Kabir is absorbing western ideas with [illegible] tions. "We look to the west," she smiled, "and we learn both by your success and mistakes." She will spend 10 days in Columbus visiting schools and institutions.

Your Youth

By Bob Schmidt · Dick Wilson

With the close of football season, we place our sights on basketball, the king of winter sports. Your Hilltop YMCA is in the process of organizing basketball leagues to offer all ages of Hilltop youth. There will be two Gra-Y leagues. One will be for Gra-Y members of ages 8, 9 and 10. The second will be for Gra-Y members ages 11-12. These games will be played every Monday and Thursday evening immediately after school at Glenwood Methodist Church gym, starting the first week in December.

The next age group will be a league for junior high school age. This will be a church league and will be played at John Burroughs gym on Wednesday evenings, starting the first part of December.

The last league will be for high school youth. This will also be a church league and will be played at John Burroughs gym on Monday evenings, starting the last Monday in November.

Basketball was just a little fast for the "old men" of the hill; so your "Y" is offering them a volley-ball league. These games will be played at Glenwood Church gym every Friday evening starting Nov. 27.

Well, readers, there is your sports program for the coming winter. You are invited to participate in these activities and receive the joy and exercise you can derive from them.

It was a lot of fun for me and 15 Gra-Y boys last Sunday night when we put on a 15-minute broadcast from radio station WVKO. I would like to compliment the boys who took part in this program as they did a splendid job in presenting and explaining the Gra-Y Club purpose and platform.

In closing, I would like to make the opening announcement of the Hilltop YMCA annual banquet. It will be held at Glenwood Methodist Church on Jan. 28. There will be lots of fun, good eats and interesting business at this meeting; so plan now to attend.

Watch this column and other announcements in The Hilltop Record concerning this event.

Cupid's Ally

Fred—I love her, although she isn't pretty. She has that indefinable something—

Jim—Oh, yes, I know. My girl's dad has piles of it, too."

time for Decision

Our scientists give us about ten more years. By then, they assure us, the Atomic Bomb will be so highly developed that nations can blow each other to bits without a boundary line being crossed.

Ten more years on borrowed time. That's all. . . .

Of course, we can wait out those years just to "see what happens." But check the headlines these days.

Do you still think we can afford to wait. Or do you agree that *the time for decision is now!*

Some people, searching for a sure pathway to peace, claim that religion is "too theoretical." Yet these same people are quite willing to put faith in power politics which have—throughout history—drawn nations swiftly and relentlessly into war.

Perhaps *they* are the theorists. Perhaps it's time we all realized that the words of the Bible shape up into a workable doctrine that can make for peace in our time—and forever.

Take your choice. There's man's way. And there's God's way. No one will press you for a decision. . . .

Blessed is the nation whose God is the Lord.—Psalms 33:12.

But the *time* for decision is *now.*

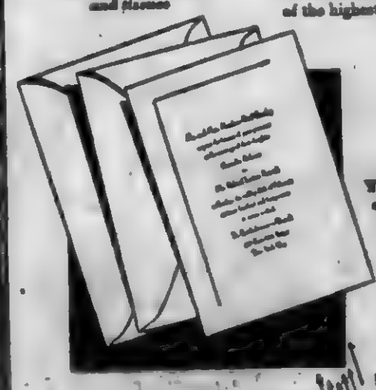
Injured Deer Found In Field



A six-month-old doe, its right hind leg broken, was found in a pasture field at the Paul Peace dairy farm on Avery-rd. three miles north of Hilliards, Tuesday evening.

The injured fawn was cornered and captured by workers at the farm, who called the Humane Society Shelter House, 2770 Groveport-pk. Thomas Justice, society general manager, H. A. McClellen, his assistant, and Humane Officer Lester Bibler drove to the farm and returned the doe to the shelter.

A veterinarian at the shelter said the break was several days old and it was necessary to amputate the foot. The deer was apparently recovering Tuesday night following the amputation. It will be housed in a special pen until it recovers.

Autopsy Ordered In Death Of Hilliards Child

HILLIARDS — An autopsy was ordered by acting coroner Dr. Carl Tetirick in the death of a three-month-old Hilliards baby early this week.

Richard, the son of Mr. and Mrs. Eugene Nunamaker, was found apparently suffocated in his crib at 4:15 a. m. by the mother, Sally, 19. On the advice of a private physician, the father rushed the child to Mt. Carmel Hospital, where he was pronounced dead.

Questioned at county jail the parents said they had returned from a visit about 1 a. m. Monday. Their 16-year-old baby sitter reported everything was in order. Nunamaker took the sitter home, returned to his own home and he and his wife retired.

The baby awakened them at 4:15 a. m., his usual feeding time. The mother checked him, then went to the kitchen to warm his bottle. When she returned he was under a shroud of blankets in an unconscious condition.

They called a private physician, who told them to take the child to Mt. Carmel. The father rushed the baby to the hospital, where Dr. Tetirick examined him.

Tetirick said a preliminary investigation revealed that the baby had fallen out of his crib at the age of one month. He was treated for a fractured skull at Children's Hospital. Dr. Tetirick added that the baby had been suffering a dietary disorder since birth.

"Everything is apparently all right, but because of the unusual circumstances we questioned the parents and ordered the post mortem," Dr. Tetirick explained.

The Nunamakers have one surviving child, Jean Anne, age one and one-half. Nunamaker works as a farmer for his father in Hilliards.

1789 THANKSGIVING 1953

One hundred and sixty four years ago in the year 1789 George Washington, then President of the United States penned the first official proclamation designating Nov. 26 of that year as the first Thanksgiving Day. In the ensuing years the calendars have listed other dates as the day of Thanksgiving but this year the date of Nov. 26 again as in 1789 is Thanksgiving Day.

Today, let us bow our heads in Thanks and in the spirit of the first Thanksgiving be truly thankful to God, the Creator for all the blessings we have received . . . both as individuals and as Americans . . . a free people, living without fear in a free country.

As did the Pilgrim fathers, let us humbly acknowledge our debt to a divine Providence for all that we are and may hope to become. Like them, let us bow our heads in a prayer of gratitude to the Giver of "every good and perfect gift."

It seems that in these past few years, too many of us Americans have lost sight of the true meaning of Thanksgiving Day. We've been much too busy pursuing our own pleasures to take the time to stop just a bit and think about the many blessings for which we should be truly thankful. We've been much too busy seeking more wealth and too prone to accept everything for granted.

Let us then, this day stop just long enough to take stock of ourselves and the world in which we live today. Let us truly count our many blessings and realize that though many of these modern day conveniences have been wrought by men, that there is still that Supreme Being to whom we owe every vestige of creation that we might have life, liberty, the will and the know how, to bring about todays mode of life.

Today the world is again in turmoil with men's greed and lust for power again threatening the peace and life of every living being. Today on earth exist those powers that deny men and women the right to freedom of speech, press and religion, while we here in America enjoy those privileges.

In other lands today men are being stripped of every freedom, their lands, their crops, their earnings all become the property of the state. Even their minds are being robbed of the right to think as they wish and they are becoming indoctrinated to the belief that their allegiance is only to their leaders.

From men's hearts and minds, these lustful leaders are trying to erase all thoughts of the Divine Creator by subjugation of the church and denying the privilege to gather in worship to God.

In those other lands too, the children are being taught the precepts of life in the manner desired by government leaders with the end result that children believe not in home and family but solely in the all powerfulness of the demagogues that rule their lands.

In other lands too, exist the grim spectres of war and strife. Gutted farmlands, once fertile and bearing the fruits of harvest and mens toil are devoid of crops and the bountifulness of nature. Bleak, silent fields and woodlands remain a constant reminder, that here is no life . . . here instead is the stillness of the dead.

In our community today there exists no such poverty, want and need, that is prevalent in those war torn lands. Here in America we are thrice blessed with good homes, food for our families in plenty, good jobs and above all the right to do pretty much as we please.

To many people Thanksgiving Day is merely a signal for the start of the holiday season, a day for sumptious dinners or another day off from their workday labors.

To many others though, today is a day for expressing the gratitude in their hearts as they gather with family and friends in the Church on Thanksgiving Day. Theirs is a humbleness that knows no bounds as they kneel in prayer and say, "Thank You God."

"Thank You God" Says Girl Facing Surgery

Barbara Wolcott and Mrs. Rich Wolcott

Dear God, today's Thanksgiving Day
And I'm giving thanks to you
For all the things you've given me
And all the things you do.

Thanks for dying on the Cross
And thanks for making me
Thanks for Mom and Daddy
And all my family.

Thanks for each and every friend
And every smile that's true
Thanks for giving me the chance
To prove my Love for you.

Dear God, on this Thanksgiving Day
May people everywhere
Bow their heads in Thanksgiving
And say a little prayer.

Please won't you reign in all our lives
For you're our Little King
And from the bottom of our hearts.
We say, "Thanks God for everything."

A dark eyed little girl of 14 years who has an unwavering faith in God wrote the above poem from her bed in Mt. Carmel Hospital this week. Barbara, the oldest of five children in the family of Mr. and Mrs. Rich Wolcott, 346 Guernsey-av is now confined to the hospital for her 22nd surgical operation.

Barbara's plight came about as a result of being struck down and run over by a scrap iron truck loaded with 10 tons of steel on Mar. 28, 1949 when she and her family at that time resided in Akron.

Following the accident she was hospitalized for 11 months and listed as very critical for the first five months. Her injuries at that time included a fractured skull, ruptured spleen and crushed leg. It was from these injuries that stemmed the series of operations.

Besides the operation for the removal of her spleen, Barbara had 14 operations on her leg during that first 11 months in the hospital. Since then she has had six more skin graftings on her leg.

She was hospitalized from July until October this year and on Nov. 16 entered Mt. Carmel for more surgery.

Said Barbara's mother this week, "Barbara's own deep faith has done much to pull her through all these ordeals. During the first few months she was on the critical list she never gave up hope of walking and getting well!"

Typical of the young girl's faith was her remark made to a Summit County jury which awarded her $50,000 damages for her injuries. Said Barbara as she stood before the jury, "I knew if I left it up to God and you jurors it would come out alright. I knew that if God wanted me to have the money I would get it. I'm so happy I don't know how to thank you. May God bless you all."

During this past week Barbara drew the attention of a distinguished patient currently at Mt. Carmel. Gov. Frank J. Lausche in a brief note to her invited her to visit him if able. Barbara paid a visit to the Governor and on this past Saturday morning received from him two dozen roses with a note wishing her an early recovery from her forthcoming operation.

Sensenbrenner Names Nine Members Of Advisor Group

MAYOR-ELECT JACK SENSENBRENNER this week began delving into a mass of correspondence that has been arriving in a steady stream since the day following election. More than a thousand requests have been made of the newly elected mayor for all kinds and types of jobs in the city government.

M. E. "Jack" Sensenbrenner, 335 Guernsey-av, newly elected Mayor of the City of Columbus, this week smilingly observed, "Boy I didn't realize there were that many people in Columbus out of jobs and seeking work at City Hall." Columbus' new Mayor-elect gestured toward a pile of more than a thousand letters and telegrams, writers of which were either seeking appointments for themselves or for relatives.

In addition Sensenbrenner is finding that the ascension into the chief executive's seat for the City of Columbus also carries with it a burden of being called upon by most every type organization for public appearances.

"I thought most of that was over following the strenuous campaign in which I made 168 speeches during the month of October, but now I find since the election is final that the requests are piling up still more. My gosh! they even call me out of bed as late as midnight and one o'clock in the morning to ask me to make a speech at some club or before some college groups."

Sensenbrenner seemed pleased that one of the requests had come from the Political Science Department, Ohio Wesleyan University. He said they were primarily interested in two factors, his "grass roots" campaign wherein he met with people in groups of 20 or less in homes and made speeches; the other factor was the fact that he had made a bid as a political nobody and had successfully brought about defeat a highly geared political machine that had enjoyed a reign of a number of years.

Reverting to a more serious mood Sensenbrenner said, "There has been much publicity accorded the fact that I intend to turn City Hall upside down. I have only this to say and that is no one need fear his job if he has been a faithful public servant who has carried out the duties of his office. For those political parasites however, who have been dilatory in office and lived off the public funds without giving full measure in return to the public, it's a different story. They will be replaced by men and women who will do a good job."

Commenting on the recent recount of 94 precincts asked by the incumbent Mayor Robert T. Oesterreicher, Sensenbrenner said, "There is one thing I'd like particularly to call attention to, and

Sensenbrenner stated today that an additional seven members of the committee will be named within a short time after he has an opportunity to make further contacts.

Sensenbrenner said "Members of this committee have been selected on the basis of their ability to assist me in giving Columbus

Feminine Influence Responsible For West Hill Grand Opening

That women play an important role in business is further attested to by the fact that a Hilltop woman-and-wife partnership duo, Fred R. Asay, is quick to admit that he was "sold" on the idea of acquiring the business by his wife, the former Kathryn Hackman, who received her public school, education at John Burroughs grade school and West high school and who admits to being a "genuine Hilltopper."

Fred R. Asay

Mrs. Asay

Mr. Asay, a transplanted Hoosier, who was reared in Terre Haute, felt the Hilltop influence even prior to acquiring the pharmacy on W. Broad, as he and Mrs. Asay have resided in their own home at 665 S. Eureka for 4 years, though operating a pharmacy at 211 S. High.

The masculine half of the team has been associated in the drug business for more than 30 years and Mrs. Asay is a beauty consultant.

Grand Opening Features

A number of grand opening features have been announced by the couple, which include awards for men, women and children visitors. A special feature will be the appearance of Don Eagle, famous Indian wrestler, who will be at the store between 1 and 2 o'clock Saturday afternoon.

"It will probably be like old-home week, as far as the wife is concerned," Mr. Asay said, "but both of us expect to make a lot of new friends, too," he added.

Two registered pharmacists are employed by the drug store—Pauline Maclam and Dan Jenkins—both Hilltoppers.

The masculine half of the management is directly responsible for the grand opening of the West Hill Drug Store, W. Broad and Waren-av, to be held Saturday, Nov. 28.

New Five Mile Water Main To Serve Hilltop

Columbus City Council in session Monday evening paved the way for construction of a new 36 inch force water main to the Hilltop and surrounding area with the appropriation of $832,000 for the project. With the new appropriation the total sum earmarked for the new construction is now $1,632,000.

The new line which is expected to boost water pressures on the Hilltop and West Side will run five miles in length. Monday's appropriation on the West Side force main project was for erecting a booster station near Fisher rd and Hauge-av at a cost of $132,000 and $700,000 for installing the pipe.

The new water main will extend from the Dublin-rd filtration plant to Fisher and Phillipi-rds, turn south and connect with the present 20 inch water line at Broad-st.

HILLIARDS FHA MEETS

The Hilliards High School Chapter of the Future Homemakers of America met Nov. 13 in the Music Room at Hilliards. A large group attended. The president, Bessie Eckard, presided. 170 Attend West Franklin Kiwanis Charter Night Dinner Thursday

Forty-three members of the newly-organized West Franklin County Kiwanis Club were welcomed into the international organization by Carl A. Frey of Athens, governor of the District of Ohio, at a charter night dinner, held at the Prairie Township school on Thursday evening of last week.

The affair was attended by approximately 170 persons, most of whom were members and wives of members of the West Franklin and Hilltop clubs, the latter being the sponsoring organization.

Out-of-town dignitaries in attendance in addition to Gov. Frey, were William Mercer of Newark, lieutenant-governor of the eighth division; Silas S. Corthell of Akron, district secretary, and Harold Van Tassell of Newark, secretary of the eighth division. Also present were numerous officers and members of various clubs in the Columbus area.

C. Carlton Hartley, president of the Hilltop club, was master of ceremonies and introduced William Coulthard, president, and other officers of the new group. He also singled out for introduction a number of visiting Kiwanians.

Principal address of the evening was made by Gov. Frey, who analyzed the reasons for the phenomenal growth of Kiwanis clubs and the appeal of Kiwanis to the individual.

"Why do we attend meetings—taking time away from business and from home?" he asked his listeners.

"Not entirely because of the meals we eat. We enjoy the fellowship, it's true," he said, "but there's something more."

Gov. Frey admitted that analysation was difficult. He said he had read "Kiwanis in Brief," but still found no complete explanation.

"The answer lies, perhaps," the speaker declared, "in the fact that Kiwanians are men of good character and standing in their communities and that Kiwanis provides the collective vehicle which can be used by these men to better the communities in which they live."

He mentioned some of the projects undertaken by Kiwanis, which,

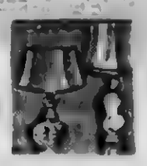
Harry Graham
Your Shoetrician in SKILLER'S Says



WHEN FEET HURT

Pushing a grocery cart down the aisle of a local food emporium last Thursday evening, I literally bumped into a customer. Said she, "Mr. Graham, I want to thank you for making a different man out of my husband. Since you fixed him up with work shoes so his feet don't hurt, he has been a changed person."

The gentleman referred to, had a pair of touchy feet, fairly long and boney with little padding over the bone surfaces. Most work shoes fit like a sack because they come only in wider widths. We handle several that come in narrow widths and can be fitted like a dress shoe. Our suffering customer was fitted in an 11B in a shoe with a built in cushion which we further padded to relieve pressure on sore spots. There are two things a man owns that better be of the best . . . his bed and his work shoes. He spends a great part of his life in one or the other.

SAFETY IN DRIVING WAS MADE MORE IMPRESSIVE to the students of West High School this past Monday morning when actual demonstrations and tests were made before the entire school. Under the guidance of school officials and George M. Tewksbury two students were asked to drive a specially outfitted car to test their reactions. As they drove on Powell-av which was barricaded to other traffic Tewksbury tripped a lever, which fired a gun and marked the street, as soon as the student's foot touched the brake another mark was made on the street and as soon as the car had halted still another mark was made. Measurements between the marks proved the student's reaction to sudden emergency.

In Passing

By

Esther Weakley

Dear the people coming home,
Dear glad faces long away,
Dear the merry cries, and dear
All the glad and happy day.
Dear the thanks, too, that we give
For all of this, Thanksgiving Day.
Harriet Prescott Spofford.

And therefore, I, William Bradford
(by the grace of God today,
And the franchise of this good people),
Governor of Plymouth, say
Through virtue of vested power—
We
Shall gather with one accord,
And hold in the month of November,
Thanksgiving unto the Lord.
Margaret J. Preston.
Part of her poem titled
The First Thanksgiving Day.

THANKSGIVING

I thank Him for the miracle of dawn,
For sacred benediction of the night,
For lighted casements in the darkening sky
And for a passing bird's sweet, sudden cry.

I thank Him for the fragrance of wet pines,
For wistful calls of whippoorwills at dusk;
For baby hands around my heart-strings curled—
Such tiny, helpless hands, to hold my world!

I thank Him for the splendor of my dreams
And for the loveliness of all His gifts.
In His great wisdom He has made it known
That mortals cannot live by bread alone.

R. V. (Reprinted.)

A teen-ager asked me today why I am thankful this Thanksgiving Day. Her school is conducting a poll. All I could think of to say—today being one of my many slow-thinking days—was that I'm thankful for EVERYTHING.

Now that I've had time to think it over, there are several million specific things for which I'm grateful: family, friends, ad infinitum, but I'll name only one: My Favorite Shutin. I am grateful for her (and to her) and for the many lessons in courage, hope and faith she has given me, and for the shame she has made me feel when I have griped—though she has never said a word. She didn't have to.

Her two pet—and sincere—replies when somebody tells her his troubles are: "This, too, shall pass," and "Let's start worrying tomorrow, shall we?" And many people do tell her their troubles: most of them don't really know the meaning of the word. She does!

I am grateful to all of my shutin friends. They have all taught the same lessons. There is the Hilltop lady who is totally blind and lives alone. She does her own housework, even washes windows; irons, sews and dusts—and her house is spotless . . . several of my bed-fast Columbus friends earn their own way by writing, sewing, painting, making hooked rugs, radio-monitoring, etc. . . . there is a group of physically-handicapped people who write, produce and act in plays, pageants, tv and radio shows . . . All of which reminds me of Eddie Guest's poem which contains the line "It couldn't be done, so they did it."

Lyle Stuart, former Columbusite now living in North Bergen, N.J., wrote to me about his latest book which is on sale at all book stores. Title of the book is "The Secret Life of Walter Winchell." Have not read the book, and am wondering in my stupid way if this expose is a kind, necessary or wise thing for Lyle to have done. He is a fine writer and a nice person to know, but I'm not sure that I shall spend time reading the book.

His first book (God Wears a Bow Tie) was published several years ago. There are so many unpleasant "exposes" in the world now, without Lyle's adding another. However, right or wrong, his friends will still be his friends — and that goes for Walter Winchell, too.

From somewhere: Boy, about to be spanked: "Dad, did Grandpa spank you when you were little?"

Dad: "Yes, son." "Did Grandpa's father spank him?" "Yes, son." "And did Great-grandpa's father spank him too?" "Yes, son." "Well then, don't you think it's about time this inherited brutality was stopped?"

THANKSGIVING

The Early American Thanksgiving table consisted of the following: a burl bowl with an adze from the knot of the tree in which rests a five-inch diameter pumpkin surrounded by a squash, Indian corn, cranberries and barley, harvest of the first Thanksgiving in America, a jug of herbs, a rush light holder with bayberry candle and a Bible with pages turned to the Twenty-third Psalm.

The first National Proclamation for Thanksgiving Day was given by our first president in 1789 and is as follows: "Whereas it is the duty of all nations to acknowledge the Providence of Almighty God, to obey his will, to be grateful for his benefits, and humbly to implore his protection and favor; and whereas both Houses of Congress have, by their joint committee, requested me to recommend to the people of the United States a day of public Thanksgiving and prayer, to be observed by acknowledging with grateful hearts the many and signal favors of Almighty God, especially by affording them an opportunity peaceably to establish a form of government for their safety and happiness.

Now, therefore, I do recommend and assign Thursday, the 26th day of November next, to be devoted by the people of these states to the service of that great and glorious Being, who is the Beneficent Author of all the good that was, that is, or that will be; that we may then all unite in tendering unto Him our sincere and humble thanks for His kind care and protection of the people of this country, previous to their becoming a nation; for the signal and manifold mercies, and the favorable interpositions of His Providence, in the course and conclusion of the late war; for the great degree of tranquility, union, and plenty, which we have since enjoyed; for the peaceable and rational manner in which we have been enabled to establish constitutions of government for our safety and happiness, and particularly the national one now lately instituted; for the civil and religious liberty with which we are blessed, and the means we have of acquiring and diffusing useful knowledge; and, in general, for all the great and various favors which He has been pleased to confer upon us.

"And, also, that we may then unite in most humbly offering our prayers and supplications to the great Lord and Ruler of Nations, and beseech Him to pardon our national and other transgressions; to enable us all, whether in public or private stations, to perform our several and relative duties properly and punctually; to render our National Government a blessing to all people, by constantly being a government of wise, just and constitutional laws, discreetly and faithfully executed and obeyed; to protect and guide all sovereigns and nations and to bless them with good governments, peace and concord; to promote the knowledge and practice of true religion and virtue, and the increase of science, among them and us; and generally, to grant unto all mankind such a degree of temporal prosperity as He alone knows to be best."

Looking Backward Through Record Files

News of Hilltop folk, as reflected in the pages of the Thanksgiving edition of The Hilltop Record 15 years ago, included news of the Hilltop Community Church, then located at 3060 W Broad-st, holding their ground-breaking ceremony at Huron and Steele-avs. A Thanksgiving program was presented at West High School, conducted by the Girl Reserves and Hi-Y Boys' Club.

On the social side, Mr. and Mrs. Glenn Meeder entertained '45 guests in their new home at 75 Powhatan-av, and past matrons and past patrons of Robert Morris Chapter met for a regular dinner meeting at the home of Mrs. Clarence Williams, 53 S. Richardson-av.

Ten years ago, in the issue of Nov. 25, thoughts and prayers on Thanksgiving Day, 1943, were mainly centered on our servicemen serving overseas.

Assigned to Great Lakes Naval Training Station that week were Robert E. Sinclair, 109 Powhatan-av; Harry G. Lamp, Jr., 33 N. Chase-av, and Joseph F. Schwinne, 2585 Steele-av.

A column of rationing reminders listed current stamps and their date of expiration, and the Record, in an editorial, suggested that after Thanksgiving dinner each person might write a letter to a serviceman.

On Nov. 23, 1948, the Record reports that Mrs. L. G. Seales and John E. Martindale, heads of The Auxiliary and Camp Chase Post 96, American Legion, were especially honored at a banquet given for all past presidents and commanders of the Post, at St. Mary Magdalene School Hall.

The train of tomorrow, a Diesel liner created by General Motors, was on display at the Ternstedt Division, General Motors, for the public to view.

Announcements of marriages included the Nov. 2 wedding of Barbara Jean Hatch and Donald Moss, 41 N. Westgate-av, and the Nov. 20 nuptials of Catherine Dover of 4247 W. Broad-st and Mr. C. H. Jackson of Waverly.

Our deepest sympathy to Mr. and Mrs. John Justus of Dover-rd over the death of their grandson, Charles Lee Justus, who died in Mt. Carmel Hospital Nov. 17 of injuries received in an auto accident Nov. 13.

A birthday party was held at the home of Mrs. Addie Heller on Siebert-st for her granddaughter, Diane Heller's, 16th birthday on Nov. 21. Members of the immediate family were present.

We welcome into our addition Mr. and Mrs. Lawrence Kienle and children, recently moved into the new home built by George Hayslip at 3590 Plainview-dr.

Mrs. Barbara White has just returned from Texas after spending several weeks visiting her husband, Pvt. Buddy White.

Our congratulations to Charlotte Frame, daughter of Mr. and Mrs. Charles Stewart of Plainview-dr, married to Patrick Frame on Oct. 30.

Doctor's Driving License Revoked

Found guilty of failing to stop after an accident, Dr. Guy S. Hulett, 48, of 1478 Race-st, was fined $50 and costs and had his driving rights revoked for three years by Judge Rodney Ross last week in Municipal Court.

Police charged Dr. Hulett was driver of a hit-skip auto which struck and injured Mrs. Marguerite Gossin, 41, of 1049 Geneva-av, at Mount-st and Harmon-av, on Oct. 31.

Dr. Hulett pleaded not guilty.

'Small Fry'

By J. Curtis Allen

"Sure I'm drooling. Who wouldn't with all that turkey cookin' over there in the oven!"

George, the four-month-old son of Mr. and Mrs. George Neff, 779 S. Wayne-av, isn't quite old enough to partake of that Thanksgiving bird. But his expression surely mirrors the feelings of many of us when that aroma wafts out from the kitchen on Thanksgiving day.

New Novena Planned At St. Mary Magdalene's

Hilltop Man Is Specialist In Metals Analyses

A pattern of vertical lines cast upon the screen of the comparator densitometer gives Dick Heffelfinger a clear-cut picture of what elements are present in a metal being studied at Battelle. The pattern is being projected from a film made with a spectographic camera in the Battelle laboratories.

Finding a needle in a haystack may sound like an almost impossible job, but identifying even more obscure elements in metals is all part of the day's work for Dick Heffelfinger, 389 Chase-av. He is a member of a 40-man team at Battelle Institute that makes chemical analyses for the institute's varied research groups. His specialty is spectography, which is a method of analyzing material by studying light waves emitted from the material.

Spectography is very much like the study of fingerprints, according to Dick. Each of the 98 basic elements makes a distinct pattern when analyzed and photographed with spectographic equipment. The trained eye of a scientist, such as Dick, can quickly identify the element by its distinctive and never-changing "fingerprint"—the wave lengths of the light it emits. The amount of a particular element present in material being analyzed by spectography can be accurately determined to one part in a million by the intensity of the pattern the element makes. Spectography is made possible by the same phenomenon that explains the presence of a rainbow or causes light passing through glass to appear in a series of bands of different colored light.

Spectroanalysis is particularly useful at Battelle in the study of metals. In research, it is essential that metallurgists have an accurate knowledge of what elements are present in metals with which they are working. For example, they may want to know how nearly pure a metal is. Again, they may wish to know what elements are present in a metal alloy and in what amount. Dick, thanks to his training and special equipment, can provide these answers which help to make research successful in producing an ever-improving living standard.

Dick received his B.A. in chemistry from the College of Wooster. He and his wife, Alberta, are the parents of two daughters, Susan, 5, and Rebecca, 1. Susan attends kindergarten at Westgate School. Keeping up with their active daughters accounts for much of the Heffelfingers' time.

Alberta sings in the choir at Westgate Methodist Church, the family place of worship. Dick is a member of the Battelle Chapter of the Toastmasters Club and the Central Ohio Section of the American Chemical Society. His hobby is photography.

West High Choir Preparing For Two Concerts

Sunday, Dec. 13, the West High Choir will sing at Central High School with all the city high school choirs in the Christmas program given there every year. They will sing "Laudamus Te" by Mueller and "Carol Noel" by Charles Black. Handel's Hallelujah Chorus will be sung by the massed choirs.

At 3 p.m. the following Sunday the Choir will present its annual concert at West.

The choir will have a lighted processional to the traditional "Silent Night", assisted by the Girls' Chorus from the balcony.

The program includes a number of sacred, secular and popular Christmas music. The beginning chorus will do a medley of carols while the Girls' Ensemble will sing "I'd Like to Hitch a Ride With Santa Claus." The Girls' Quartette will sing "I Wonder As I Wander" with Ron Klein doing the solo. The Trio will sing "Silver Bells."

Some of the songs that will be offered by the choir are "Masters in This Hall", "Lullaby On Christmas Eve", "Ding Dong Merrily On High," "While By My Sheep," "Jesus of Bethlehem", and "Lullaby of the Christ Child". Grace Durfling-er will sing the solo to "Lullaby on Christmas Eve", and Nancy Wilson will sing it on "Lullaby of the Christ Child".

There will be no admission, but a free-will offering will be taken to defray choir expenses.

Season's record was four wins, no defeats and two ties in league competition. The only defeat was a non-league affair which they dropped to Arlington 13-7.

Maryland 11 Clinches Top Football Rating

By Dick Dunkel

Maryland virtually clinched the No. 1 position in this year's college football Power Index when it closed out a perfect season by beating Alabama, 21-0, last Saturday.

Undefeated and untied in 10 games, the Terrapins can look forward to a New Year's Orange Bowl date, while their rating of 118.7 stands alone atop the gridiron world. It's now a full 10 points higher than second place Notre Dame's 108.7.

Maryland earned that figure by establishing an average scoring superiority of 26.7 points per game over opponents with average adjusted rating of 92.0 in this system. Adding 26.7 to 92.0 gives the Terps their 118.7 Power Index.

It's possible but rather improbable that Notre Dame can close such a yawning gap in its remaining games with Southern California and SMU. The Irish rating dropped 2.2 points this week on their 14-14 tie with Iowa.

Other Top Ten members, their records, number of remaining games, and scores of last Saturday, are:

No. 3 Oklahoma (7-1-1, one to go) walloped Nebraska, 30-7.

No. 4 Iowa (5-3-1, season completed) tied Notre Dame.

No. 5 UCLA (8-1, season completed) beat Southern California, 13-0.

No. 6 Texas Tech (9-1, one to go), outran Houston U., 41-21.

No. 7 Wisconsin (6-2-1, season completed) tied Minnesota, 21-21.

No. 8 Rice (7-2, one to go) took TCU, 19-6.

No. 9 Michigan State (8-1, season completed) squeezed past Marquette, 21-15.

Now that national rankings and conference standings have almost jelled for this waning college football season, the Army, the Navy, and general tradition will take over what's left.

Next Saturday's annual service classic, at Philadelphia, will find the two academy teams as closely rated as ever before, but in roles reversed from last year.

Army, after a surprisingly good season, has a Power Index of 94.1, while Navy, after a surprisingly mediocre season, has one of 92.7. That's a difference of slightly more than one point. It means that Army has been that much stronger, per game, against comparatively rated opposition.

Oddly enough, their comparative performances against Duke bear this out. Army won, 14-13, while the Middies tied the Blue Devils, 0-0. So, the prospects are good for the best Army-Navy duel in years.

Lordly Maryland, with a rating 10 points higher than the second best, has completed its season and awaits an Orange Bowl date.

But No. 2 Notre Dame still has two games in which to try to overtake the Terps. In the first of these the Irish (108.7) will meet Southern California (93.5) at Los Angeles next Saturday, the record favoring ND by 15 points.

In other outstanding games of the week—some to be played on Thanksgiving Day, and others on Saturday—the latest Power Index differences are as follows:

Thanksgiving Day

Penn 10 over Cornell, Cincinnati 7 over Miami, O., Colgate 2 over Brown, Detroit 7 over Wichita, South Carolina 26 over Wake Forest, Texas 14 over Texas A & M, and Virginia Tech 7 over VMI.

Saturday

Eastern: Fordham 5 over Villanova, Holy Cross 5 over Boston College.

Southern: Arkansas 26 over Tulsa, Auburn 2 over Alabama, Houston U. 6 over William and Mary, Duke 15 over North Carolina, Florida 12 over Miami, Fla., Georgia Tech 16 over Georgia, LSU 14 over Tulane, Mississippi State 4 over Ole Miss, Rice 13 over Baylor, SMU 5 over TCU, Tennessee 13 over Vanderbilt, Texas Tech 25 over Hardin-Simmons, and Texas Western 27 over West Texas State.

Midwestern: Oklahoma 16 over Oklahoma A&M.

Gra-Y Champs Whip League All Stars 6-0

By Dick Wilson

The West Broad Gra-Y kept their unblemished record intact last Saturday at West High School as they edged the league All-Stars 6-0 in a game which was in doubt until the final whistle blew.

The only score of the game came early in the first period when Calvin English, right half for West Broad, completed a twenty yard pass into the end zone to his left end, Little Saint, the captain of the Gra - Y champions. English tried to pass to Saint for the extra point, but the pass was knocked down by an alert All-Star defense.

West Broad never threatened again after their score, but the All-Stars were in scoring position in the second and fourth quarters. In the second quarter, Bob Wesley ran the ball to the nine yard line, but on the next play the All-Stars fumbled and the ball was recovered by David Levering of the championship eleven.

Bob Timmons of the league All-Stars intercepted a Kern to Peterson pass in the fourth to place the ball once again in a scoring position, but a determined West Broad line charged hard to set Mac McClure and Terry Linson back for losses twice in succession. The All-Stars never threatened again as West Broad finished the game using nothing but running plays to run the time out.

Little Pohle of the All-Stars played his usual good defensive game and Little Saint starred defensively for the victors.

Score by quarters:

All-Stars	0	0	0	0
West Broad	6	0	0	0

All-Stars— R. E. Galentine, Harper; R. T. Bidwell; R. G. May, Linson; C. Walker; L. G. Linson; L. T. Chappelear; L. E. Pohle; Q. B. McClure, Wesley; F. B. Otis; R. H. Timmons, Cantion; L. H. Mann, Edmonds.

West Side Pirates Lead Boys' League

Dick Dunkel's COLLEGE FOOTBALL POWER INDEX

EXPLANATION — The Power Index provides a direct comparison of the relative strength of any two teams for this season to date. Thus, a 50.0 team has been 10 scoring points stronger than a 40.0 team on their comparative records, in which average scoring margin has been weighed against average rating of opposition. However, this does not mean that a 50.0 team should defeat a 40.0 team by 10 points in the future, because the ratings have not been adjusted for such important forecasting factors as home team advantage, injuries, lineup changes, etc. Therefore, they are not to be construed in any way as gambling information. The Dunkel system correlates records of all college teams and was started in 1929.

that is the efficient and capable manner in which the election booth workers handled their jobs. When you stop to think of the fact that more than 80,000 votes were cast and that there was so little error made, then I say my hat's off to each and every one of them for a job well done."

Asked concerning his political appointments, Sensenbrenner is still keeping "mum" on some of his choices. His only comment was, "I still have quite a bit of study to do on some of them before I am ready to make announcement."

Fabulous Molasses Crumb Pie Is New Holiday Dessert Idea

Mrs. Lona McCarty

We are indebted to Mrs. Lona McCarty for her recipe for fabulous "Molasses Crumb Pie" which she has generously shared with readers of The Hilltop Record this week. Her recipe, a tradition in her family for many years, has been a prize-winner in competitions.

Mrs. McCarty's sincere interest in the welfare of children is reflected in the time and effort she devotes to her office as president of Highland Avenue School PTA. The group has no definite project this year, but will contribute to a fund to be used for the school's benefit.

Her husband, Eugene, is a cashier at the Columbus Transit Co. and the couple, with their two sons, Michael, 8, and John, 21, reside at 184 Lechner-av. The family attends Glenwood Methodist Church.

"Molasses Crumb Pie" is the sort of festive and unusual dessert we all enjoy at holiday time, and accompanied by coffee makes a perfect snack to serve to guests.

Molasses Crumb Pie

Liquid:
⅓ cup molasses
1 egg yolk
½ teaspoon baking soda dissolved in
¾ cup boiling water

Beat molasses, egg yolk, soda and hot water together.

Crumbs:
¾ cup flour
3 tablespoons vegetable shortening
½ teaspoon cinnamon
½ teaspoon each, nutmeg, ginger, cloves
½ cup brown sugar
⅛ teaspoon salt

Combine flour, sugar, salt, spices, work in vegetable shortening.

Line pan with pastry. Make alternate layers of crumbs and liquid, top with crumbs. Bake in hot oven (450 degrees F.) until crust edges start to brown. Reduce heat (375 degrees F.) and bake until firm (about 30 minutes). Serve with sweetened whipped cream.

Use own recipe for pastry. All measurements are level.

the best possible municipal government. They have been named without regard to politics or special groups. All of my major appointments will be submitted to my advisory committee before they are announced. This committee will continue to serve through my administration and assist me in formulating all major policies.

"Members of the committee will serve without pay, as will my legal adviser, Mr. Draper. They are all civil minded individuals and interested in what is good for Columbus."

NO. 4 IN THE HILLTOP RECORD'S BIG ANNUAL CHRISTMAS COLORING CONTEST for kiddies of the grade schools appears above and pictures will continue to do so until the Dec. 10 issue. Color them with crayon, pastels or what have you and save them all until the last drawing appears, then mail to The Hilltop Record before Dec. 15.

Five dollars cash goes to the first prize winner and a pair of Chicago roller bearing skates to the next five best entries.

Be sure to enclose your name and address along with your age and the school you attend when you submit the complete set of entries on Dec. 15.

Central, Linden Dominate The Annual All-City Choices

By Woody Owen

Linden McKinley, 1953 City League gridiron champion, and runner-up Central High School dominate positions on the annual Hilltop Record all-city selections being announced today.

The Panthers and Pirates each won six places on the 26 man squad, which consists of an offensive and a defensive unit.

Aquinas won five places, North three, West three, East and South two each.

This writer, having witnessed every squad in action at least once, made the selections on football ability alone and not past reputation, with only city league contests [illegible] considered.

Only one player was placed on both the offensive and defensive teams. He is Jack Floyd, with the Polar Bears, a fine captain and great offensive tackle and defensive line backer, at which position he performed for his team.

One selection on this squad who seemed to be overlooked on other all star teams is Harry Chadwick, Pirates' brilliant defensive end. In the contests this writer witnessed in which the Pirates were in action, this young man was the best defensive end on the field and the finest I saw all season.

There are always many gripes when all star selections are made and usually someone is overlooked, so here are the choices:

Offensive Unit

E—Paul Snyder, Linden
E—Dow Harris, Central
T—Jack Floyd, North
T—Bill Higgins, Aquinas
G—Dave Woodring, Linden

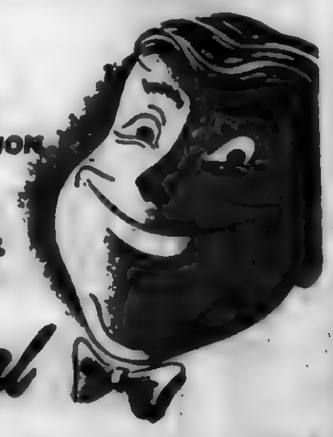
Two Line Classified Drew 40 Calls To Buy

Mrs. F. Bagby, 296 S. Chase-av, had the following ad in last week's issue:

MAPLE YOUTH BED and mattress, complete. $15; high chair, $8; standing bird cage, $8. JO. 5096.

Mrs. Bagby had more than 40 calls. She sold them the first day. "Your ads are a terrific selling force."



Through the years many Hilltop and West Side folks have come to rely on the quick, satisfactory service of the classified section. We don't need to extol the virtues of the want ads to these folks—they're firmly convinced by pleasant experience.

Many people with various needs are scanning the Record and West Side News classified columns each week. Perhaps some of them are looking for the ad that you haven't placed yet.

Record want ads are as close as your telephone. A friendly want ad taker will speedily handle your call and help you write a "designed for action" message.

A Survey Of Social, Economic and Governmental Factors In Prairie And Franklin Townships (Part Seven)

(Continued from last week)

Prairie Township has two township halls, one at Galloway and one at Alton. However, meetings of the township trustees are usually held at the fire department building in New Rome. The two halls are used occasionally for meetings, but there is serious question as to whether they should be retained and kept in repair, or sold.

Highways. Franklin Township is traversed by several state highways totalling 11.37 miles in length. County roads in the township account for a majority of the public ways with 85 miles. Township roads have a length of 32.02 miles, of which 26.24 miles is accounted for by dedicated streets in various subdivisions. The state highways all are graded and hard surfaced. All but nine miles of the county roads are graded and surfaced. However, only 1.7 miles of township roads are thus improved.

The county highway engineering department is responsible for constructing and maintaining county roads in the township. For example, during 1954, the county plans to reconstruct and resurface Trabue-rd from McKinley-av to the Rome-Hilliards-rd. This job will produce a highway similar to that represented by the present Wilson-rd.

County maintenance equipment both for road repair, spraying, weed mowing, guardrial construction and for snow removal is maintained at several centers. Galloway serves as the shop for both South Prairie and South Franklin townships. The north end of both townships is served from the central county highway headquarters on Dublin-rd, in Franklin Township. County equipment often is borrowed or rented with operators by the townships for work on township roads.

The state keeps its equipment for work on Route U.S. 40 at a yard on McKinley-av near Valleyview. Other state highways in the township include Route U.S. 33 on Dublin-rd, Ohio 104 on Chillicothe-Western-rd, U.S. 62 and Ohio 3 along the Harrisburg-pk. The enormous increase in traffic along Route 40 west has led the Franklin County Regional Planning Commission to prepare a plan for major freeways to by-pass the traffic around the central business district of Columbus. Two of the proposed routes would affect Franklin Township. The northern one would leave Route 40 just west of the present city limits and follow the Big 4 tracks into Dublin-rd and the new Sandusky-st interchange already programmed for construction in the near future. An alternative route would take the freeway along the north side of the Pennsylvania tracks to some point west of New Rome where an over or under pass would carry it back to Route 40. Clearly, the alternate route would cause less dislocation of present residences than the first one described which would wipe out a good share of Valleyview.

The second major freeway involves the Columbus-Cincinnati highway removing much of the traffic from the Harrisburg-pk. This route as planned utilizes Sandusky-st in the city, leaving the city limits by the road now used for Ohio Route 104. Circling around the east end of Greenlawn and across Frank-rd just east of the Franklin County Children's Home, it would blend into Route Ohio 3 south of Grove City after passing that village to the [illegible].

Another alternative route feeding U.S. 40 would call for the diversion of some traffic south from No. 40 on Phillipi-rd, thence on a curve which would pass just to the south of Westgate Manor along the Columbus city limits, south of Eakin-rd and Little-av, joining the Cincinnati highway just south of Greenlawn Cemetery.

Finally, the plan calls for the use of Trabue-rd as a feeder road, also the utilization of a by-pass completely to the south of the city of Columbus along Phillipi-rd, Clime-rd, Frank-rd, and thence across the Scioto River north of the sewage treatment works through Marion Township and Truro Township, rejoining Route 40 east of Whitehall. Such a route would be welcomed by most through drivers.

Zoning.

The zoning plan for Franklin Township is comparatively simple. In the northern section most of the area is zoned for single family residential use. This includes the land between Trabue-rd on the north and Fisher-rd on the south, including both sides of Hague-av on the east and extending west to the township line. In addition, the land between Fisher-rd and the Pennsylvania tracts from east of Hague-av nearly to Wilson-rd is included as well as approximately 100 acres lying just west of Valleyview and abutting on the Columbus city line. San Margherita, along both sides of Trabue-rd from Hague-av nearly to McKinley-av, also is zoned for single family residences.

The area on both sides of McKinley-av from Trabue-rd to the Columbus city limits is zoned for heavy industry. Here are the Marble Cliff Quarry and the city of Columbus garbage incinerator. A strip back of the houses on the side of Trabue-rd in San Margherita and along the west side of the New York Central tracks is zoned for light industry. Another block of some 120 acres on Fisher and Harrison-rds also is classified for light industry. A tract of 85 acres east of Wilson-rd on both sides of Valleyview-rd and 75 acres on the south side of Fisher-rd east of Phillipi-rd and 30 acres on Rt. 40 and Wilson-rd likewise fall in this category.

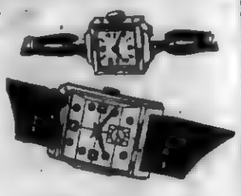
By Sue Fredendall

Stop and shop at Seiller's store,
There you'll find, gifts galore.
Short or thin, stout or tall,
You'll always please them all.

A gift, we think especially nice
For the men on your list, is Old Spice.
"Push button" shave, or soap in a mug,
The reward will be, a great big hug.

For the girls, a perfume
Called Prairie Flower,
A scent as refreshing
As a summer shower.



A soap for the shower you take indoors
Slips over your head, fastened to a cord.
You never lose it, or fuss around;
With eyes full of water no soap can be found.

It isn't expensive, and makes you nice to be near,
I'm sure the following words you'll not hear:

"When you're away I'm restless, lonely,
Wrecked, bored, dejected; only
Here's the rub, my darling, dear,
I feel the same when you are here"
by Mr. Hohenstein

Never mind this poetry corny
Just go to Seiller's in the morning
To buy the gifts, you'll be proud to give
On every Christmas, as long as you live.

St. Mary Magdalene Is Scene Of Melfi-Krug Nuptial Rites

Mr. and Mrs. Julius J. Krug
(J. Curtis Allen photo)

St. Mary Magdalene Church was the scene of the wedding ceremony uniting Miss Joann Marie Melfi and Mr. Julius J. Krug on Saturday morning. Rev. James E. Kraus solemnized the 9:30 nuptial mass.

Given in marriage by her brother, Mr. John Melfi, the bride is the sister of Mrs. George Lorainy, 75 S. Hague-av, and the daughter of Mr. Joseph Melfi and the late Mrs. Melfi. The bridegroom is the son of Mr. and Mrs. Julius J. Krug of Philadelphia.

The bridal gown was fashioned of satin and lace. Its sculptured bodice was enhanced by a [illegible] lace accent at the neckline extending into panels of lace over the full skirt, which formed into a cathedral train.

Her fingertip veil of imported French illusion fell from a crown of lace and seed pearls and she carried a white prayer book topped with a white orchid.

Mrs. Angie Marconi attended her sister as matron-of-honor and serving as bridesmaids were Miss Donna Mayhew, Miss Patty Pryor, Miss Barbara Orendorff and the bridegroom's sister, Miss Irene Krug.

The attendants were identically styled gowns of velveteen and nylon net with fitted strapless bodices of velveteen and soft folds of nylon net. Their shoulders were covered with shrug jackets of velveteen and the bouffant skirts were of nylon net over taffeta. The frocks were in honey gold, winter wine and azure blue and they each carried a horseshoe-shaped bouquet of roses and mums.

Mr. Pat Iacovone served as best man and the ushers were Mr. Millard Melfi and Mr. Mike Melfi, brothers of the bride; Mr. Frank Iacovone and Mr. Joseph Szemanek.

Mrs. Lorainy chose, for her sister's wedding, a light blue faille gown and the mother of the bridegroom wore a frock of light blue lace. Their identical corsages were fashioned of white carnations.

Hostesses for the reception held at the K of C Hall, 2069½ W. Broad-st, Saturday evening were Mrs. Bertie Melfi, Mrs. Pat Melfi, Mrs. Eva Melfi and Mrs. Cile Cacchio.

For her wedding trip to Salina, Kan., where her husband is stationed, the new Mrs. Krug chose a moss green knit frock with brown accessories.

Brinker-av, RA. 3971; Mrs. Lawrence Mack, 176 S. Algonquin-av, JO. 3686; Prairie Twp., Mrs. Ray Giehl, 40 Norton-rd, Columbus, FR. 8-4246; Pleasant Twp, Mrs. George Gusler, 7830 London-Groveport-rd, Grove City, FR. 6-4220.

Jackson Twp., Mrs. Clarence Gueth, 35 Columbus-st, Grove City, FR. 6-6910; Mrs. John Boss, 3579 Orchard-ln, Grove City, FR. 6-3841; Franklin Twp. S.E., Mrs. John Jones, 1712 Harrisburg-pk, Briggsdale; Franklin Twp. The Mothers' March on Polio, conducted in Franklin County for the first time last year, was so effective that it is being repeated as the major cleanup event of the 1954 March of Dimes drive for polio funds.

In order to cover 165,000 homes in Columbus and Franklin County, the Franklin County Polio Chapter estimates it will need about 16,000 volunteer workers for the one-hour drive. As nearly as possible, all volunteers will be assigned homes in their immediate neighborhoods.

Any person willing to devote just one hour of one night to the Mothers' March on Polio is urged to call the Colonel in her immediate neighborhood.

West Boxers Eye Golden Gloves Honors

In mid-January, the annual Golden Gloves boxing tournament will be staged at Memorial Hall. Four boys from West will compete. They are Walter Dolder, Buddy Wharton, Bill McKeever and George Eichenberger.

Dolder and Wharton are veterans of previous tournament bouts. Walter advanced to the semi-finals in the lightweight division in both 1951 and 1952. This year he could jump to the welterweight class but still is considered a definite pre-fight favorite. Buddy, trying for the first time last year, lost a decision in his first bout but should be improved this time.

The bouts will be the initial test for both McKeever and Eichenberger.

All except McKeever fight for the Boys' Club and are under the coaching of Al George and Bob Bucy. Bill fights for the YMCA. The Boys' Club will again be a strong contender for the team title. Last year they finished second.

Bill Green, who fought in the last tournament, has decided to skip the coming event.

The latter, he believes, is responsible to a great extent for the spiritual resurgence which he said is sweeping the nation.

At the conclusion of his talk, Gov. Frey presented the charter to President Coulthard, with the admonition that there would be no monetary reward—only a lot of hard work ahead for him.

Various gifts were presented to the new group from sister clubs. Accepting them in behalf of the West Franklin club were James Ryan, vice-president, and William Maurer, secretary.

Invocation was pronounced by Parnell C. Kirby, a member of the West Franklin club. Community singing was directed by W. H. Jones of the Hilltop club and Clark Van Schoick of the West Franklin club, with Mrs. C. Carlton Hartley providing the accompaniment.

Dinner was served by the Wells H. Teachnor group and accordion dinner music was provided by Wanda Sherwood of Hilliards.

Gabriel has for a number of years conducted a body and paint shop business on the Hilltop. He is a veteran of World War II.

These Eyes —
How Well Do You Know Them?

This is a new feature of The Hilltop Record. We know you'll find it entertaining in testing your own powers of observation and memory in identifying the person to whom these eyes belong.

G. Arlowe Bryant

These eyes of last week did you know them?

They belong to the man who is pictured above, G. Arlowe Bryant, a Hilltopper who resides at 2139 Sullivant-av who practices law in this city. Bryant maintains his law offices at 865 W. Broad-st.

The Hilltop man has been active in political circles in these past few years and more recently made a bid for the post of city attorney in the primary elections.

As to this week's mystery eyes, we'll give a clue. He is not a Hilltop resident, but is known very well to every person on the Hilltop.

Social Security Begins at Home
Our government may lighten the burden of life in years ahead, but much we can do for ourselves, right now, to banish worries we take for granted. For example simply by arranging, now, for the ownership of a family plot, you will have conferred upon those you love the one item of "Social Security" without which no "Peace-of-Mind-Plan" can be complete. Call or visit.

In addition to the many other blessings of life, we are thankful for the progress that we have made toward completion of our new funeral home.

The workmen, the weather, and the cooperation of our many friends have made it easier for us.

Our original parlors are intact, and we can continue to serve the families that call us during the period of construction.

YOUR YOUTH

By Bob Schmidt   Dick Wilson

The final curtain was lowered on Gra-Y football Saturday Morning League with a game between the champions of West Broad School and an All-Star team. These Gra-Y club members enjoyed good weather and each player received an opportunity to play each Saturday. There were many acts of sportsmanship displayed each week which is another factor why the Hilltop "Y" is happy to sponsor this event.

A word of thanks and appreciation to Coach Mac Pemberton and Irvin Young for making it possible to use West High football field. By all indications this program will be a must again next year if the Gra-Y members and their parents have a vote.

The Hilltop "Y" Volleyball League started play Friday night at Glenwood Church gym. Al Hollowell, physical director conducted a Volleyball Clinic with West Park Methodist, St. Paul Evangelical Congregational Church, New Rome and Hillcrest Baptist Church players receiving the instructions.

Regular scheduled play begins this Friday Nov. 27 with New Rome vs. West Park Methodist at 7:00 p. m. and Hillcrest Baptist vs. St. Paul Evangelical Congregational at 8:00 p. m. . There are still some openings for additional players so phone the "Y" office, Jo. 4641, for additional information.

A basketball organizational meeting was held Wednesday and a Junior and Intermediate league organized. There will be eight teams in each league and the Intermediate League will begin play Nov. 30 and the Junior League has scheduled opening play for Dec. 2.

Mrs. William Grover adult leader of the girls craft class advises us that there are three openings in the class. This class meets every Wednesday at 3:30 p. m. at Mrs. Grover's residence, 1860 W. Broad-st.

Also don't forget the Friday after school girls craft class. The members of the class are now making leather block belts and you should see some of the original designs that these girls have tooled on the leather belts.

The December program schedules are being printed this week. Monday you can stop by the "Y" and receive your copy, which by the way is really jam packed full of special events for the Christmas holidays.

In closing this week let each of us pause a moment during our busy life to give thanks to the "Great Spirit" for another Thanksgiving season. Also thanks for the opportunities our youth can enjoy through a Christian organization such as our Churches and YMCA.

Emphasis will be given to the need of world missions this Sunday in the Burgess Avenue EUB Church. The pastor, Rev. I. H. Lane, will speak on "Alerting Men For World Missions" at the 10:30 a.m. service. The WSWS Society and Youth Fellowships are urged to bring in their thank offering and appreciation offerings during the day.

During the evening services at 6:30 and 7:30 the Youth Fellowship societies will be in charge of the services and will carry the theme of missions into their meeting.

Bedtime FOR YOUNG AMERICA...

Now I lay me down to sleep
I pray the Lord my soul to keep;
And if I die before I wake
I pray the Lord my soul to take.

Every night when darkness falls over the land, hundreds of thousands of young Americans conduct their own vesper services with this little prayer.

Does this happen in your home?

"Oh," you might say, "There will be plenty of time for church when they grow up. Why should they bother with evening prayers now?"

Perhaps . . . But why bother with school, either? Knowledge comes easier later on. Why not send them to school then?

The plain fact of the matter is—*you can't!*

To live a full, useful life in America today requires thorough preparation. If a child is ever to fulfill the dreams of his parents, his schooling must begin early. If he is to have the spiritual assurance upon which he must build his life, he must build the foundation early.

That foundation is laid with prayer—in his home, and in his Sunday School.

Ruskin said that when you give just a little love to a child, a great deal more comes back. That holds good for prayers. Give your children the chance to pray. . . .

. . . God's love always comes back. . . .

That our sons may be as plants grown up in their youth; that our daughters be as corner stones . . .

AFTER 49 YEARS

Veteran Railroader To Seek A "New Life" With Retirement

"We're just planning to take life easy from now on and do the many things we've always wanted to do," was the comment of Grover C. Amrine and his wife, Lottie, as they poured over maps this week planning a tour of the west. The occasion was announcement of Amrine's retirement from the Pennsylvania Railroad after 49 years and one month service as of Dec. 15.

In less than two weeks, an entirely new vista of life will open up for Grover C. Amrine, 69, of 180 Binns-blvd. On Dec. 15 after 49 years and one month of service with the Pennsylvania Railroad he will retire from work and with his wife begin to, as he says, "readjust ourselves to living again."

For the past 49 years Amrine has been employed at the 20th-st Shops of the Pennsylvania Railroad where he is a supervisor in the Car Machine Shop. The same shop in which he began work as a youth of 19 years of age, and in which he has worked in the same department for 48½ years at the same job.

But when Dec. 15 rolls around, Amrine will no longer go to the shops, his work there will have been finished and the railroad records will record him as "Retired." Then on Dec. 18 he and his wife start out traveling, planning to visit a son in Santa Fe, N. Mex., during the holidays and thence to Los Angeles and other portions of the southwest.

He said this week though that they will return to the Hilltop in the spring or summer so that he can putter about the house and take time out for a bit of fishing. Then again it will be another trip to see more of the USA.

Residents of the Hilltop since 1906 the Amrines are the parents of four children, Lucille Shipley of Glouster, O.; Kenneth of 3011 Wicklow-rd; Harold of Santa Fe, N.M., and William of 3541 Beulah-rd. They also boast of nine grandchildren and three great-grandchildren.

On Dec. 16 they are holding a Christmas party for the children, grandchildren and great grandchildren before their departure to the west.

In the meantime there's a mark for the date of Dec. 15 on the Amrine home calendar which to the Amrines means, "The Start of a New Life" and a determination to enjoy their remaining years to the fullest extent.

Reiss To Make Bid For Judgeship

Emile Reiss

Attorney Emile Reiss 55, of 1909 Sullivant-av, will run for a full, six-year term as Franklin County Common Pleas Court judge in next May's primary election, he announced this week.

Unsuccessful candidate for Columbus mayor in 1951 and defeated as a "write-in" aspirant for that post in last August's primary, Reiss said he would run "representing the principles and doctrines of the Democratic Party."

Plan Community Christmas Tree Program Dec. 13

A Christmas Tree lighting ceremony to signal the opening of the Christmas Season will be held Sunday, Dec. 13 at Glenwood Recreation Center under the auspices of the Hilltop Community Council and other local agencies beginning at 6:30 p. m.

All Hilltop residents are being urged to attend the ceremony which will last but one-half hour, and feature many Hilltop choirs and choral groups in the singing of yuletide carols.

Mayor-elect Jack Sensenbrenner has been invited to light the tree, according to announcement this week by Robert Schmidt, president of the Hilltop Community Council.

Further announcement of complete plans and the program will be made in next weeks edition of the Hilltop Record.

$414,060 Bid Is Lowest For New Water Pipeline

Lowest bid for supplying the pipe needed for the 36-inch West Side force main was $414,060, submitted by Price Brothers Co., Dayton, Service Director Harry D. Metcalf said this week. That firm's bid calls for pre-stressed concrete pipe.

At the same time, Metcalf noted bids of three other firms would have to be considered before the contract is awarded. These are: $431,673 for concrete cylinder pipe by Universal Concrete Pipe Co., 297 S. High-st; $552,492 for steel pipe, Armco Metal Products Co., Middletown, and $966,070 for cast iron pipe by American Cast Iron Pipe Co., Birmingham, Ala.

Bids for installing the $1,632,000 pipe line, slated to run more than five miles in length, will be opened Dec. 15, according to Water Superintendent Paul C. Laux. He added the entire job should be completed by July 1, 1954.

Health Orders Issued Against Five Locations

Slum Cleanup Director Kenneth E. Thomas this week announced that he had issued health orders for the cleanup of five locations on the Hilltop.

The orders were written against sheds and garages in the rear of the following addresses: 36 S. Oakley-av, 470 S. Harris-av, 31 S. Wheatland-av, 438 S. Harris-av, and 2738 Sullivant-av.

Thomas said that the orders specify immediate compliance.

WEATHER REPORT —

It's Gonna Rain This Friday Silver Dollars — Not Water

THE ABOVE IS A TRUE FORECAST—Silver dollars will virtually rain in the Hilltop area this Friday when employes of the Hartley Printing and Publishing Company will receive their usual weekly stipend in silver, cartwheels instead of the usual folding money. It's a custom established several years ago at the opening of the Christmas season to show how money earned by employes of the publishing company finds its way into local merchants' tills.

Another custom will also be observed, that being, every silver dollar turned into the counter at The Hilltop Record offices in payment for a subscription will pay for nine months. This offer is good until Jan. 1, 1954.

Sky Watch Plan For Hilltop Is Plan Of Group

West Franklin County Association Thursday evening Dec. 3, will study the advisability of establishing a sky watch post in the western portion of the county, either in Prairie or Franklin twp. The plan will be up for discussion at the meeting scheduled to get underway at 8 p. m. in Prairie-twp. School auditorium.

D. J. Kunz, president of the West Franklin group said this week that representatives of the Columbus Filter Center and Red Cross will be speakers at the meeting and that the dramatic film—"One Plane — One Bomb — One City" will be shown.

The group is expected to select a site immediately if the proposal is adopted, with volunteer residents of the area manning the sky watch post.

Already a first aid committeee headed by Jerry Spears, Sr., and Jake Huffer have been named with other committees expected to be named at the meeting.

Kunz points up the hope that the emergency would never arise which will call for use of the observation post,—but also called attention to the fact that preparedness is the best policy.

He said, "Civil Defense authorities have told us that this area will be vulnerable if war should develop. The training gained in setting up such a post will however be invaluable to the community for any type of disaster. We will not be wasting our time with the training."

The Thursday night meeting is open to the public and all residents were urged by West Franklin County Association to be present.

Six Cruisers In Auto Theft Roundup Party

A police motorcade of three Columbus cruisers, a sheriffs car and a state highway patrolman joined forces to arrest a lone 19-year-old auto theif early Monday.

The surprised youth was arrested in New Rome after being tailed west on Broad-st, by cruiserman Jim Hanawalt till all five teamed up to make the pinch.

Robert Welch of 1448 W. Broad-st, called police about 1 a. m. Monday to report that someone had driven away his car and headed west. Officer Hanawalt spotted the car at Demorest-rd and Broad.

He radioed headquarters and was told to follow the car till help arrived. He was joined by other officers at New Rome where they stopped the stolen auto.

Arrested was Robert Joe Boyle of St. Joseph, Mo., also believed to be an AWOL serviceman. Boyle commented that he purposely obeyed all traffic laws while driving so as not to arouse suspicion.

Man Wounded Critically In Gun Accident

George Knapp, 40, of 1811 Longwood-av, was wounded critically last Thursday afternoon in an accidental shooting at the rear of his home, southwest of Columbus.

Knapp and D. R. Snyder, 312 Greiner-rd, had been hunting and upon returning to Knapp's home, they engaged in target practice with a .22-caliber automatic pistol in the back yard, according to Sheriff's Sgt. Paul Stormont.

The pistol jammed, Stormont was told, and Snyder, attempted to eject the jammed shell. The gun was discharged accidentally, Stormont said, and the bullet struck Knapp in the right shoulder, possibly puncturing a lung.

The injured man was taken to Mt. Carmel Hospital in a Jerry Spears Funeral Home ambulance. His condition was listed as critical.

Dave Randall Resigns Post At West High

Dave Randall

West High School's athletic and teaching staff was dealt a hard blow this week with announcement of the resignation of popular Dave Randall, 83 S. Powhatan-av, from the West High faculty. Randall has assumed new duties with the Columbus Board of Education as a cadet principal according to West prexy, Irvin F. Young.

First announcement of the change was made during assembly at West on Monday morning when the popular football line coach and social science teacher revealed the change. Principal Irvin Young said, "Randall was one of the best liked teachers on the faculty. His departure from West is felt keenly by faculty and students alike. We hate to see him go, but after all it is a promotion and we would not keep it from him."

Coach Mack Pemberton, still feeling the sting of West's unsuccessful football season and now the loss of his line coach commented, "Dave is one of the best line coaches in high school football. West is really going to miss him."

Randall is a former star on West football teams before his graduation in 1935, playing a tackle. He graduated from Ohio State in 1941 receiving his BS degree. After teaching two years at Shelby he entered the armed services and returned in 1946 to West High School where he has remained since as football line coach and Problems of Democracy teacher in 12-A.

Temporary replacement for Randall is Ralph Budd of North High as math and science teacher.

A Revolution In Christmas Giving

Before you find yourself in the soaring lift of the Christmas spirit, driven impulsively to share the season and your personal good fortune with some family down on its luck or a child in bed with a crippling illness, there is something you ought to know—

In cities and towns across the country in recent years, there's been a minor revolution in ideas and methods behind Christmas giving. This has usually been spearheaded by the Council of Social Agencies through a Christmas Exchange. The existence of your Christmas Exchange is the visible proof of a general but gradual change that has come about in gift-giving habits in this and other American cities.

A basic purpose of the Christmas Exchange is to provide a sane and sound channel for the flood of gift-giving impulses that sweep through the community at Christmas time.

The Christmas Exchange, which unites reputable organizations in a well-thought-through gift-giving plan, seeks to get the maximum results for the citizen's contribution. Through organized, rather than haphazard, spur-of-the-moment giving, gifts can reach the family in an intelligent and constructive manner. An orderly system of clearing names avoids duplication and protects both donors and recipients. The Exchange can give guidance to community groups as to suitable means of expressing Christmas joy. By making Christmas giving efforts part of a planned whole, it enables more adequate coverage of areas of need.

Beyond the aim of organizing the flow of Yuletide cheer, the Christmas Exchange has been driving to achieve another purpose—the constant strengthening of family life and the personal welfare of recipients.

When community Christmas giving is intelligently organized and channeled, social agencies are enabled to use gifts as part of the long term plans they make with families and individuals to strengthen family life and overcome personal difficulties. With the development of our public welfare system, the need to provide food for half-starved families at Christmas time is fairly infrequent. By and large, Christmas baskets no longer serve as the answer for most families in need. But many a family is helped through other means by social agencies intimately aware of its real needs. A hearing aid, music lessons for a talented child, train-fare to visit her husband in a mental institution for an old lady struggling along on a pension — these can be Christmas gifts that evoke genuine gratitude and make the problems of living more bearable the whole year through.

Gifts that are given indirectly, as through the channel of an organization affiliated with the Christmas Exchange, have one disadvantage for the giver. He never gets to see the pleased faces of the family he has helped or to have them clasp his hand and murmur thanks. He has the inner satisfaction of knowing, however, that his gift is nobler for it was given without claim on the recipient, he has not embarrassed or hurt the recipient, by his generosity, and his gift was more wisely chosen and usefully employed than if he had impulsively acted on his own behalf.

"The gifts that flow into homes through the work of the Christmas Exchange are not bare of the givers," says Mrs. Henry Stair, president of the Council of Social Agencies. "To the contrary, the family helped feels strongly that there are many kind, thoughtful people in their community who have stretched out their hands to help without a return of some kind being demanded. The family is made to feel that not one person, but the whole community, is behind it in efforts to gain the strength and solve its problems without prying interference. What is a better way to give at Christmas?"

Through The Garden Gate

By Members Of Highland Garden Club

"Come forth into the light of things,
Let Nature be your teacher.
William Wordsworth

You don't have to be a big scale gardener and possess a magic green thumb to enjoy the beauties of Nature. It is all around us for the taking—God has blessed us with five senses so that we are able to see and to enjoy the miracles He has performed.

Mrs. Ray Haunts

Have you ever watched a sunrise in the early morning? Have you ever thrilled at the tremors of spring being born, the first blades of grass as they push through the earth — the brave little crocuses that sometimes even peep through the snow? Have you ever seen a breeze caress a field of golden wheat or smelled the delightful fragrance of red clover in summer?

Have you ever marveled at a sunset from atop a hill when the trees are dressed in their autumn finery? Then you know what I mean when I say that even an apartment dweller can still enjoy Nature to the fullest.

Like a child making mud pies it does something for me just to dig in the earth—to feel the warmth and promise of the soil.

What matters it if I do my gardening on the kitchen sink? I'm as proud of those three or four potted plants as a farmer is of a 200 acre ranch.

The blue of my violets bring spring into my kitchen as January winds rudely knock at my windows —the red of my geraniums brings cheer and warmth to a dreary day.

What more could a person ask?

More Than 300 At Hilliards School Affair

More than 300 parents attended Open House at Hilliards Elementary School, Thursday night, Nov. 18, from 7 to 9 p. m.

The teachers in the 19 rooms, with the principal, Roy Moore, acted as hosts and hostesses. The primary grade rooms were decorated with autumn colors, the Thanksgiving motif being the predominating theme. Pilgrims going to church or brilliantly colored turkeys made up the bulletin boards located in the hall and several rooms.

Work books and papers from the first few weeks of school were on each pupil's desk in the lower grade rooms, while note books, science projects and charts predominated the displays in the upper grades.

One third grade room completely stole the show with a life-like cardboard figure (made by the pupils and dressed in the pupil's own clothes) at every desk. Two very interesting displays in the middle grades were Indian villages showing the Pueblo Plains and Woods Indians, tribes living in America before the White Man's coming. A study of Ohio was carried on in a sixth-grade room.

Many children attended with their parents, making more than 600 guests in all.

When The Wind Lies Down
The mind and the wind work overtime in November.
Only when the wind lies down
Does the mind lean back to remember
Carmines and yellows all turned brown;
This cold and quiet, the occasional hour,
Are preludes to the colder monotone of wires
On coming seven-o'clocks, when fires
Are lighted and opaque windows
Drive us outside to look, where tense,
Uneasy, we listen to the silence
Of ripples tossed up like mowings of snow
In their ice-field windrows.
Mary Grant Charlies, in The Country Poet.

You will have a happy Thanksgiving because I've wished for it for you on my star . . . From Newark: Here is a ho hum story I thought you might like. A country minister ended his sermon and then announced that he would like all the Board to remain after the service. A stranger in the village made his way to the front pew and seated himself with the deacons and elders. The minister approached him and said "My dear sir, perhaps you misunderstood. I asked only the Board to remain." "Well, that includes me," replied the stranger. "I certainly was never more bored in my life."

YOUR YOUTH

By Bob Schmidt Dick Wilson

Now that Thanksgiving is over, everyone looks forward to the Christmas season which is just around the corner. Your Hilltop YMCA is going to be right on the ball and will offer a Christmas Holiday Fun Club for the Hilltop youth. Below are listed some of the activities which will be offered.

On Sunday, Dec. 20, delegates from the five Hilltop Gra-Y clubs and the West Junior Hi-Y will attend church as a group. On Monday, Dec. 21, the West Junior Hi-Y will be host to the Gra-Y clubs and Girls craft class for Christmas caroling and a party. On Friday, Dec. 16, the Hilltop Lions and YMCA are co-sponsoring a Christmas Party for fifteen underprivileged youths.

On Thursday, Dec. 24, there will be a Santa Claus hunt for boys and girls of all ages. On Monday, Dec. 26, the West Junior Hi-Y will have a Gym Jam at Glenwood Church and on Wednesday, Dec. 30, boys of all ages are invited to a Splash Party where they will be offered a free swim at the Central "Y".

Speaking of free swim brings to mind the experience of last week when the first snow fell. As the snow came down, 25 boys and I trudged to Central "Y" and enjoyed a nice swim in the 82° pool at Central YMCA.

For the complete program schedule for December, you can come down to the "Y" and pick up your copy. "Santa Claus" Ingle has just finished taking them off the press.

"Advisory Council? We little folks need a voice too."

Susan, the nine-month-old daughter of Mr. and Mrs. Earnest Landthorn, 203 S. These Eyes —

How Well Do You Know Them?

This is a new feature of The Hilltop Record. We know you'll find it entertaining in testing your own powers of observation and memory in identifying the person to whom these eyes belong.

How many missed guessing the owner of those eyes which appeared in last week's Hilltop Record?

You guessed Jim Rhodes former mayor of Columbus and now auditor for the state of Ohio? You are right, and at the left is pictured the former chief executive of the City of Columbus who is well known to Hilltoppers as well as most everyone else in the city.

And these eyes which appear today. Whose are they? Think hard. The eyes belong to a very popular business man in the Hilltop area. This man was recently in the public spotlight. He's a graduate of West High and a former service man. In all probability you've talked to him just recently.

Jim Rhodes

Back home in Indiana they decided to try out these one-way streets, but it didn't work out. We only had one street and folks couldn't get back into town.

Many interesting variations are being picked up along with the basic steps. The group hopes to soon add the jitterbug, charleston, and polka steps to their working knowledge of dancing.

CERAMICS BEING OFFERED

Tuesday, Dec. 1, the craft class began work on various ceramic projects. Some of the clay things that may be made are ash trays, vases, plaques and figurines. The objects may be painted and shellacked and will thus make very nice Christmas gifts.

Other gifts being constructed are gimp bracelets, woven pot holders, and woven mats. The craft classes are held every Tuesday and Thursday afternoon from 4 to 6 p. m. They are open to all children between the ages of 6 and 12.

The strange thing is that man is satisfied with so little in himself but demands so much in others.

Marines Launch Assault To Gather Toys

Representatives of the Marine Corps Reserves, Scouts and the Information Center, Welfare Agencies gathered in Mayor Robert T. Oestreicher's office to witness his issuance of a Toys for Tots Proclamation. Left to right they are Jack Switzer, Scout Troop 181, of 1586 Satterday; Captain T. H. Dudgeon, CO of the 27th Special Infantry Company, USMCR; Kenneth Reives, Cub Pack 181, of 3070 Steele-av; Mayor Oestreicher, Helen Bowers, director, Information Center, Welfare Agencies of Franklin County; Charles Hite, Explorer Post 79, of 220 S. Richardson-av, and Major R.S. Pryor, CO, VMF, 244, USMCR.

Vernon D. Sanford, Scouting district commissioner of the Southwest District, has announced the "Toys for Tots" collection centers for this district. Sanford said today that plans in his district call for six stations to be set up. These stations are the ones to which Scouts in his district will take toys after they have collected them on a house to house canvass, Saturday, Dec. 12.

Cub Scouts, Boy Scouts and Explorers in the Southwest District are busy now making plans to conduct their drives in this area. On Saturday, Dec. 5, they will place a doorknob hanger on every home in the district to remind folks that they are assisting the Marine Corps Reserves in the Toys for Tots drive, and that they will call again at the home on Saturday, Dec. 12, to collect their donated toys.

Folks are asked to donate a new or a usable toy that is still in good condition. After the Scouts have collected the toys they will deliver them to their collection stations, then the Marines will pick them up and move them to a large airplane hangar in the Naval Air Station at Port Columbus.

There the toys will be sorted and then delivered to welfare agencies in Franklin County. The Information Center, Council of Social Agencies, Franklin County, is supervising the actual distribution to the underprivileged children.

Sanford is high in his praise for the agencies that have given him help in his district. "Without the cooperation of our community our Scouts would not be able to perform their part in this worthwhile campaign," explained Sanford, "but as always in our section, whenever we have a problem, we can depend on our fellow citizens here in this area to lend a helping hand."

The collection centers for Sanford's district areas follow: Bob Miller Parts, Inc., 1170 W. Broad-st; Sullivant Garden Recreation Center, 590 Van Buren-dr; Schulse Food Market, 1971 W. Mound-st; First Presbyterian Parish House, 2015 Broadway, Grove City; Gabriel Auto, 2741 Sullivant-av, and Rausch Bros. Hardware, 2780 W. Broad-st.

BOY SCOUT NEWS

Boy Scout Troop No. 121 of Prairie Township will conduct a Christmas candy sale from Dec. 1 through Dec. 24, on a house-to-house basis. The scouts will distribute the candy at the time of sale. Proceeds of the sale will be used for winter camp and troop equipment. Phone orders will be accepted at FR. 8-8942 or FR. 8-8703.

Boy Scout Troop No. 172 of Hoge Memorial Church will hold Parents' Night on Dec. 7 at 7:30 at the church offices, 2805½ W. Broad-st.

City Teen Age Council Meets At Glenwood

The Glenwood Teen Club was host to the Inter-Center Teen Council on Tuesday, Nov. 24 at Glenwood Recreation Center.

Representatives and advisors were present from Sunshine, Schiller, Sullivant Gardens, Beatty, and Glenwood Recreation Centers. Those representing Glenwood were Ann Williams, Hanna Simpson and Bill Kenny, chairman as well as Marilyn Gordon, club advisor.

The group decided that its main function would be to serve as an advisory body to all the teen clubs and to provide a medium through which different club and center ideas can be exchanged. Also discussed was the group's participation in National Brotherhood Week to be held in February.

Refreshments were served by the host club, after which it was decided that the December meeting would be held at Schiller Recreation Center.

Sherick Studio To Present Revue

The Jack Sherick Dance Studio will present pupils of Mary Gillivan Hillebrandt and Claire Gillivan in a revue to the K of C Hall, 2596½ W. Broad-st, at 2:30 p. m. Sunday, Dec. 6. Proceeds from the entertainment will help defray the expenses of the 14th annual Christmas party given Dec. 27 at the downtown studio for orphans from the Hare and County Children's Home, St. Ann's and St. Vincent's Orphanages, by Jack Sherick and his teaching staff.

In the evening at 7:30 at downtown studio, 97 N. Fourth-st pupils of the Linden Studio will be presented.

The "Gillivan Sisters" are in charge of both the Hilltop and the Linden studios.

Marine Corps Reservists in the Columbus area are at the present time, launching their annual Christmas campaign, "Toys for Tots."

By the time the Marine Corps Reservists end their "Toys for Tots" campaign to Dec. 12, they hope to have enough toys to provide gifts for all the less fortunate children in the Franklin County area.

This Yuletide season the Cub Scouts, Boy Scouts and Explorers in Franklin County have joined with the Marine Corps Reservists to insure that the campaign will be a success . . . and that there will be no such thing as an underprivileged child who will be forgotten on Christmas morning.

Mr. and Mrs. Public are asked to have a new or usable toy available on Dec. 12, as on that date the Scouts will canvass each and every home in this area collecting these toys. The Marine Reservists will then engage in their un-military occupation of sorting and preparing the gifts for distribution.

Many of these Marine Corps Reservists are veterans of the Korean conflict, where the leathernecks established a reputation not only for their fighting abilities, but also for their charitable efforts in behalf of homeless Korean children.

The third grade teacher carefully explained that a group of sheep is a flock and a group of quail is a bevy. Then she asked for the names of other groups of animals. When she came to camels, a child timidly suggested, "A carton."

Pick Notre Dame As Winner Over SMU

By Dick Dunkel

Five games, lingering on the college football slate for this weekend, will close out the regular season, in which Maryland appears to have won top honors with the highest Power Index in six years.

The Terrapins' No. 1 rating of 118.7 is the best since the 121.8 mark set by the 1947 Michigan team, the one that Bob Chappius led to a 49-0 victory over Southern California in the Rose Bowl.

In winning 10 straight contests Maryland outscored its opposition by 26.7 points per game. The opponents rated 82.0 in the Power Index system. Adding 26.7 to 82.0 gives Maryland its 118.7 rating.

No. 2 Notre Dame, which still has a game to play against Southern Methodist next Saturday, rates considerably below Maryland, at 111.0. The Irish would have to beat SMU by an astronomical figure in order to overhaul the Terps. SMU's rating is 89.9, about 22 below the Irish mark.

Other week-end games, with Power Index differences, are:

Friday: Hawaii 7 over Lewis & Clark.

Saturday: Tennessee 2 over Houston U., Florida State 16 over Tampa, and North Texas State 28 over Midwestern.

The Power Index is a past performance rating system, not a prediction device. However, it does reflect the extent to which the game is predictable on its own records. In the nearly 2,000 games it has covered this season, 76.8 percent of the united games were won by the higher rating team. The remaining 23.2 percent were the so-called upsets.

LEADERS IN THE HILLCREST JUNIOR BOWLING ASSOCIATION which is comprised of nearly 80 boys and girls from this area[illegible] sponsored by the ABC are pictured above. Seated is Patty [illegible] president; left to right, Danny Boyd, first secretary; Bill Reser, second secretary, and David Dehl, treasurer. The league is co-sponsored by the City Recreation Department and Bowling proprietors represented by John Morgan, proprietor at Hillcrest Alleys.

Hilltop "Y" Intermediate Cage Loop Season Gets Underway

The Hilltop YMCA Intermediate Basketball League opened its 1953-54 season Monday evening at the John Burroughs School gym with an interesting four game program.

In the season lid-lifter, a scrappy outfit from West Park Methodist overcame a half-time lead by Burgess EUB and won in the closing seconds 40 to 38. For West Park, Farrell put on a real shooting exhibition, scoring 26 points and leading all scoring for the evening. Ronnie Grant led the Burgess scoring with 11 points.

The second game was also a close contest between the Hilltop Church of Christ and Glenwood Methodist. Church of Christ put on a last half rally to come within three points of Glenwood only to have the Methodists pull the game out of the fire with goals by Martin, Brownlee and Steiff in the final two minutes. The final score was 48 to 41 in favor of Glenwood. Donny Martin was high scorer in this game with 17 points for Glenwood while Cob scored 15 for Hilltop Church of Christ.

West Hi-Y scored a 40 to 25 victory over a young but game Hillcrest Baptist five. Ronnie Klein and Charles Robinson each scored 13 points for Hi-Y while T. Coffman led the Hillcrest team with seven markers.

In probably the best played game of the evening, Westgate Methodist defeated Hoge Memorial by the score of 37 to 33. Hoge led at the half-time but was unable to withstand the Westgate surge in the third period. The score was tied on three occasions with Westgate edging ahead in the last minute of play.

Dick Witter of Hoge Memorial was the leading scorer in this game with a total of 15 points. Thimmes led the Methodists with 12 points. Dick Sensenbrenner was a big factor in the Westgate win with his floor work and rebounding.

Y-Volleyball Loop Play Starts

The Hilltop "Y" Volleyball League opened its season with two hotly contested matches Friday evening.

The first match scheduled West Park Methodist against New Rome. New Rome forfeited the first game. West Park continued to close out New Rome by winning the second and third games, 15-6.

Bill Kuhn, Bill Kearney and Ray Laughlin were the big guns for West Park.

The second match scheduled Hillcrest Baptist and St. Paul Evangelical Congregational. The first game was close with St. Pauls on top with a 15-11 score. Hillcrest Baptist won the second game by a top sided score of 15-5. With the match one up St. Pauls played heads up ball and took the third game winning the match.

Tomorrow night the following schedule will be played at Glenwood Church gym: 7:00, New Rome vs. St. Pauls Evangelical and Congregational; 8:00, West Park Methodist vs Hillcrest Baptist.

Two Teams Still Are Undefeated In Senior Loop

The pre-season senior leagues at Glenwood Center are rapidly drawing to a close and at the end of the fourth week of play, two teams in each league remain undefeated.

In league 1 the Hilltoppers continue to dominate the league with three wins and no defeats. The Whiz Kids are close behind however with a record of three wins and one loss.

In league 2, the Lightning Five lead with four wins without a loss as the Panthers dropped to second place with a two win and one loss record.

In the Junior League, the Atomic Five lead with a perfect record of three wins. Jerry Hummel leads the team and the league with 29 points. Mike Wolfe, also of the Atomic Five, is a close second with 27 points.

Cowboys To Face Bulldogs Following Two Cage Losses

By Woody Owen

West High School's cage squad opened its 1953-54 season last Wednesday night at the fairgrounds coliseum and went down to defeat at the hands of North High School by a score of 63-38 in a city league contest. On Friday night the Cowboys traveled to Newark and again met defeat by a score of 89-53 in a non-league game.

The Cowboy-Polar Bear contest was almost a duplication of the game which these two quintets played in the Central District tourney during the '52-53 season, in which the Cowboys counted only one field goal in the final 16 minutes.

The cowboys jumped into a 9-6 short-lived lead with six minutes elapsed in the first period, but again the locals failed to register a field goal from that point until the 2:17 mark in the third canto, when Ron Bowman broke the ice.

In the meantime magnificent Jim Franklin, Polar Bear pivot man, and the City League's leading scorer last season, was scorching the nets from all angles to spurt his team into an insurmountable lead.

Franklin tossed in 33 points to become the night's top scorer as the entire North squad hit on 32 per cent of its shots. The Cowboys white cold from the floor could cash in on only 30-of-88 free throw attempts.

The Cowboy-Wildcat contest saw the locals exhibiting a greatly improved brand of ball, with the contest being in doubt right up to the final whistle.

Marvin Smith, veteran forward for the home team, counted two goals and a free throw in the final three minutes to give his team the victory. Ron Bowman played his usual fine game for the Cowboys and counted 12 points.

This Friday night on the home court the Cowboys get back into City League action when they clash with the South High Bulldogs, defending champs and almost everyone's choice to repeat this season.

Dick Dunkel's COLLEGE FOOTBALL POWER INDEX
EXPLANATION — The Power Index provides a direct comparison of the relative strength of any two teams for this season to date. Thus, a 20.0 team has been 10 scoring points stronger than a 10.0 team on their comparative records, in which average scoring margin has been weighted against average rating of opposition. However, this does not mean that a 10.0 team should defeat a 40.0 team by 10 points in the future, because the ratings have not been adjusted for such important forecasting factors as home team advantage, injuries, lineup changes, etc. Therefore, they are not to be construed in any way as gambling information. The Dunkel system correlates records of all college teams and was started in 1929.

Mrs. Dixon Submits Recipe For Traditional Fruit Cake

Mrs. Jane Dixon

Mrs. Dixon's great-grandmother brought this fruit cake recipe with her when she came to this country from Wales, and it has become a holiday tradition in her family.

The donor is chairman of the Central Unit of the Columbus Little Symphony which presents monthly concerts at Mees Hall, Capital University. She is also a member of the Hilltop auxiliary group of Trinity Episcopal Church and the PTA of Westgate and West Broad Street Schools.

Her husband, Russell, is branch claims manager of Michigan Mutual Liability Co. and the couple, with their two children, resides at 100 Devonshire.

Mrs. Dixon suggests that this is the ideal week to bake holiday fruit cakes and tells us that this recipe produces about 12 pounds of cake.

Fruit Cake

1 lb. powdered sugar
1 lb. butter or margarine
8 eggs
1 lb. flour (all purpose)

Cream flour and shortening with hands. Beat egg yolks and add powdered sugar. Add to flour and butter mixture and beat until light with hands. Beat egg whites until light and dry and add to above mixture, then fold in!

½ lb. citron
2 lbs. currants
2 lbs. seedless raisins
1 lb. nut meats
1 pkg. dates and 1 pkg. figs, cut up.

Prepare fruit, dust lightly with flour and allow to stand overnight. Bake in greased pans for two hours in 325 degrees oven. Makes 12 pounds.

"The Style Center of the Hilltop"

Seen at Seiller's

By Sue Prodendell

If you're short on ideas for Christmas gifts, go to Seiller's and wander around a bit, you'll get loads of ideas, and be real pleased with every purchase you make.

You'll see some attractively boxed Cannon towels, striped or plain colors—so they are not plain colors, they are gorgeous solid colors. You can buy the bath room sets to match, solid or stripe. Tht striped ones come in Rocket blue, chartreuse, hunter green and rose. Of course the solid colors come in all beautiful shades. Seiller's also have sets of five fingertip towels, each a diffrent color, and so attractively boxed. You can really help someone dress up their bathroom this Christmas, or be very happy dressing up your own, with the pretty shower curtains, window curtains, towels and bath mats, all in beautiful blending colors.

Seiller's also have luxurious looking bedspreads, both Bates and chenille with drapes to match, and the wonderful, wonderful downy soft blankets you'll find at Seiller's would make any homemaker a happy gal.

One little thing we would like to mention, from experience, we might add, if your child is bothered with leg aches and growing pains at night, buy him or her a pair of white sheet blankets. You'll be happy to find it helps immensely, and children love the softness of them.

Don't delay your Christmas buying too long. These items just don't hang around and wait for you. They go fast. Adv.

Your Shoetrician in SEILLER'S Says

A GIFT OF COMFORT

A well dressed young woman came into our shoe department the other morning and asked to see some house-slippers for her mother. She said that she had purchased a pair from our men's shoe department for her father for Father's Day but the poor man hadn't had much chance to enjoy them because her mother was wearing them most of the time. So, she wanted to know if we had something similar to our men's slippers for women.

From the description I gathered that the slipper in question was our Wellco Foam-tread corduroy slippers and we do have them in women's and children's as well as men's. They are soft, washable and with the foam-sole topped with flexible leather, they are the next thing to walking bare-footed on a feather-bed. It is wonderful to give a gift of foot [illegible] to your family and we certainly Santa's helpers with our [illegible] thousands of Hilltopper's shoe size records. We can tell from these records exactly what size is needed in slippers, shoes, overshoes and sox or stockings.

Walker Report . . . .

A Survey Of Social, Economic and Governmental Factors In Prairie And Franklin Townships (Final Part)

(Continued from last week)

The 650 acres south of Pennsylvania Railroad and west to the township line occupied in large part by the new Westinghouse plant are also zoned for heavy industry. Commercial zones north of Broad-st include the property abutting on that street between Wilson and Phillipi-rds, and the intersection of Valleyview and Wilson-rds. Only a small tract of about 75 acres just south of Fisher-rd at the west line of the township remains unzoned as agricultural land. It is common knowledge that most of the area north of Fisher-rd and west of Wilson-rd also falls naturally into this category, but it has been zoned.

The area to the east of the Scioto River, along Dublin-rd, falls into three different zones. The larger part, representing old gravel pits along the river, is classified as light industry. Included are also the Columbus Waterworks, Sears Roebuck, the Franklin County Highway Department and the Dennison Engineering Company lots. The area on both sides of Dublin-rd from the north boundary of the township to Grandview-av, except for the Dennison property, as well as the small area near the new Sandusky-st interchange, is zoned for commercial use. A small tract east of Grandview-av is zoned for single family residences. Latest information is that this residential area has been rezoned for light industry. This whole area is zoned except for about 26 acres.

Between Broad-st and Sullivant-av, west of the Columbus city limits, four zones are seen. From the east line of the G.M. plant west to the township line, there is heavy industry. Light industry occupies the portion to the east to the city line except for a single family residence zone south of Route 40 from Volney-av to Coolidge-av and from Derrer-rd to Josephine-av to the Sandusky side. Commercial zones are indicated along the south side of Route 40 from Volney-av to the G.M. property, and along Sullivant-av west two blocks from the city limits.

Although the southern zone of the township is much more thickly populated than the northern zone, there is far more of the area left unzoned. Light industry claims the area south of Sullivant-av from Josephine-av to the Georgesville-rd. This seems a bit erroneous in view of the known development of Westgate Manor in this area. Light industry also characterizes the Redbird Stadium and the area to the west on the south side of Mound-st almost to Central Point. It also extends along the B.&O. tracks—at some points, on both sides, usually only on the west, to Briggs-rd.

The only area zoned for apartments in the whole township is that lying south of Mt. Calvary Cemetery, east of Greenlawn Cemetery and along Greenlawn-av, and along Stimmel-rd west of Ohio Route 104.

The area both east of Route 104 to the River and west of Route 104 for from one-half mile to nearly a mile is zoned for heavy industry. The area east is occupied largely by the Columbus Sewage Disposal Plant. That west is largely gravel pits. A strip 400 feet on either side of the highway is unzoned except for commercial use. Such commercial zoning has been applied to the west side of Route 104 from Greenlawn-av to some 1200 feet south of Stimmel-rd and the east side of Route 104 along Emig-rd. Another commercial center has been established at Frank-rd and Route 104. Other commercial zones in the southern portion of the township are at Hart and Brown-rds, the Central Point shopping center and the area across Route Ohio 3 opposite it, also the northeast corner of Rosemont and Harrisburg-pk, both sides of the pike from Eakin-rd 1200 feet south, and the southwest corner of Alkire-rd and Route No. 3. Obviously the zoning in this portion of the township is sadly incomplete. It falls far short of protecting this area against undesirable uses and haphazard development.

Law Enforcement and Justice. There is only one justice of the peace and one constable in Franklin Township. The justice, Mr. William H. Brown, operates from his home on Little-av. The constable, John Ouelette, works only part time for the township. He lives on Harrisburg-pk.

Adequate police protection for a population of 10,000 persons calls for a minimum of five full time men. Perhaps the aid offered by the office of the sheriff of the county and by the state highway patrol would provide the equivalent of two men. But there is a need for at least three full time police officers in the township, two in the southern area, and one in the northern area. The board of township trustees is authorized by Section 509.01 of the Revised Code of Ohio to fix the number of constables to be elected each two years for a two year term. The cost would be negligible when compared with the feeling of safety which the residents would enjoy.

There also is need for one more justice of the peace, who should reside in the northern or western part of the township. While the Columbus Municipal Court and the mayors of Marble Cliff and Valleyview are available for minor cases, a second justice of the peace would have enough business to justify his election.

Cemeteries. Neither Franklin nor Prairie Township has a township cemetery which is used currently for interments. Both have, however, abandoned cemeteries of which the township is custodian. There are, in addition, in both townships, private cemeteries which are in current use.

Parks. Although townships are specifically authorized by law to establish and maintain parks, Prairie Township has none and Franklin Township one. This is near the north boundary of the township in the Holton Addition on N. Hague-av. It includes between three and four acres and it has not been improved or developed, although the township trustees have planned such action.

INCORPORATION

Some interest has been expressed in the possible incorporation of all or certain portions of Franklin Township as a village or as villages under the general state law. Two such corporations, Marble Cliff and Valleyview, already exist in the township. Both of these are closely built up and are immediately adjacent to other larger corporations. Both already have excellent schools available and all or practically all municipal services which their residents desire. But in neither case can any reason be seen why they should continue as separate corporations. Both would be far better off if they would petition for consolidation—Marble Cliff with Grandview Heights or Upper Arlington and Valleyview with Columbus.

The incorporation of all of the remainder of Franklin Township into a single village (under the law, original incorporation is always as a village, regardless of population) is not feasible. Only certain areas contain population in sufficient concentration to justify it. A majority of the area involved is still rural agricultural land and probably will continue to be so for several years. Even the incorporation of two villages, one to the north and one to the south of Broad-st, is not indicated, for the same reasons.

The principal objective of incorporation would seem to be to prevent piecemeal annexation of small tracts, or even large ones, by the city of Columbus or the city of Grandview Heights, both of which already have shown some interest in the Dublin-rd area and one of which has been casting an appraising eye upon the area between the west Columbus limits and Phillipi-rd. These two areas include most of the industrial valuation of the township but only a very small fraction of its population. The ability of the township to continue and to expand its services to its residents depends upon its success in holding both of these areas. However, if some of the resident property owners of the township become dissatisfied with the range or quality of its services, they may petition the county commissioners to be annexed to one of the cities in order to secure the more ample services available. A few of these could be provided by incorporating a village, but not enough to justify it.

ANNEXATION

There are a few areas in the township which are so closely tied into the Columbus city area that their annexation by the city would seem desirable even now. There is a petition already pending before the county commissioners requesting approval of the annexation of one of these to the city. This is the area adjacent to Eakin-rd between Racine and Richardson-avs, next to the Hilltop Riding Academy. Because of its street layout and orientation, this area cannot be served efficiently by the township, but can by the city.

There is another area in the southeast part of the township which should also become a part of the city of Columbus. It already is largely city property and hence is tax exempt. The rest of the area described below can be served better by the city than by the township. In many parts it can be reached by township fire equipment only by passing through the city. The area referred to includes that along and east of Route 104 to the south property line of the city sewage treatment works and city workhouse. The Bulen-McFarland farm south of the workhouse could be transferred to Jackson Township.

A third area which would be better served by annexation to Columbus or to Valleyview (if the latter desires to continue as a separate corporation) is that portion of the Columbus city school district lying west of Valleyview, on both sides of Valleyview-dr for some 1000 feet, then on the south side of Valleyview-dr, north of the Big 4 tracks to a point 200 feet west of Southampton av, thence south to the Columbus city limits. This area is really an integral part of the city of Columbus physically and economically and should be a part politically. Similarly, that portion of the settled area east of Valleyview, to Harper-rd, between the Pennsylvania and Big 4 tracks should also become a part of Valleyview or of the city of Columbus.

Freed of these areas difficult of access, Franklin Township still would possess a taxable valuation adequate to its needs and sufficient to enable it to extend its services in accordance with the wishes of its citizens, within the scope of its legal powers.

INCORPORATION OF NEW ROME

The problem of annexation to the city of Columbus, such a pressing issue in Franklin Township is of minor importance in Prairie Township. The latter is separated from the western city limit of Columbus by at least a mile and a half of unincorporated territory. However, since this area contains both the General Motors and the Westinghouse plant as well as several bulk oil plants and other substantial tax valuations, it is likely that Columbus will bring pressure to annex it, if she can. If successful, such a move would place New Rome and its intervening unincorporated area, including Lincoln Village immediately in the path of further city expansion. For this reason, as well as others to be mentioned, attention to the annexation or incorporation problem is imperative for New Rome.

When the village of New Rome was incorporated in 1941 only a very small part of the platted and developed area of the settlement was included. In 1950, only 75 persons were reported as residing in the corporation. There are several hundred more who live in the immediate vicinity whose homes lie outside the corporate limits. In a few more months there will be thousands instead of hundreds, when Lincoln Village is completed.

There is no question that these people will expect, and demand services which the township will be unable to give them. Three solutions appear possible: (1) for the present village of New Rome to annex the rest of its settled area on both sides of Route 40 and Lincoln Village, (2) for the present village to surrender its charter and permit a new village to be incorporated including all of the area mentioned, (3) for Lincoln Village to incorporate separately. Either of the first two would be preferable to the third alternative, under which both corporations would be too small and poor to compete with Columbus in rendering service and besides most of the present area of New Rome would remain unincorporated. The second alternative seems better than the first, since it would enable a fresh start to be made with officers representing all parts of the area and a name satisfactory to a majority. Lack of representation for the annexed areas during the period just following the annexation is the most serious argument against the first course suggested.

It is, therefore, recommended that the present village of New Rome institute proceedings under Sections 703.20 and 703.21 of the Revised Code of Ohio, 1953, for the surrender of its corporate powers. This requires a petition to the village council signed by at least 40 per cent of the electors, as determined by the number voting at the last regular municipal election. An election is then held on the question of surrender of corporate powers. If it carries, the village clerk notifies the county recorder and the secretary of state and the corporate rights cease. All money or property remaining after surrender belongs to the local school district.

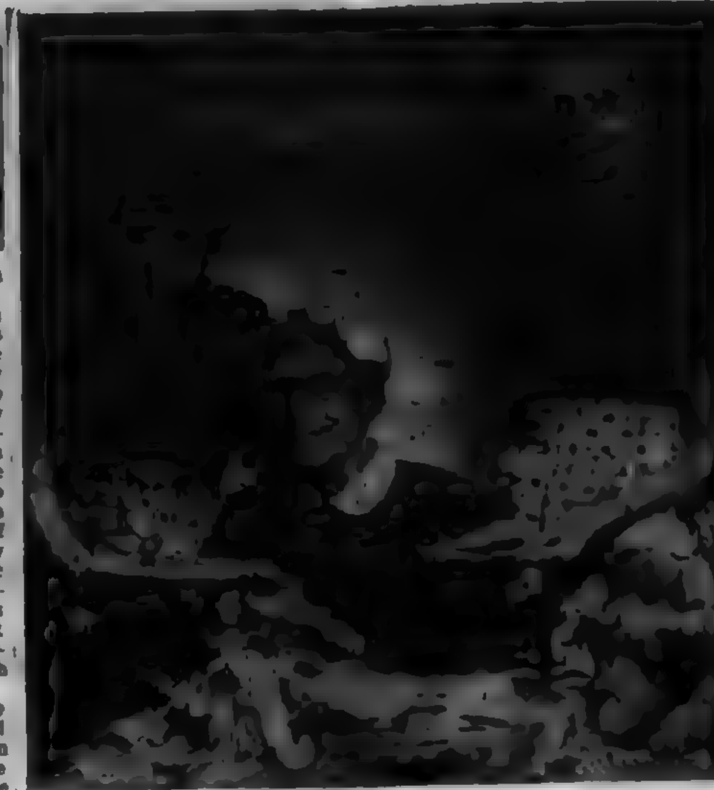
Thereafter, in cooperation with those in charge of the development of Lincoln Village and the residents of the New Rome area, proceedings could be begun to incorporate the whole area as a single municipality. The incorporation petition need be signed only by 30 resident electors (Sec. 707.03 Rev. Code). It may be addressed either to the county commissioners or to the township trustees. (If to the latter a majority of the 30 signers must be freeholders). The commissioners, after a hearing, may order the incorporation without an election. If the petition goes to the township trustees, an election is held to determine public sentiment. If a majority voting approve, the area is incorporated. Either method is satisfactory. Local desires will determine which one should be used.

Aside from this one area it seems that there is no immediate problem of either annexation or incorporation in any other part of Prairie Township. The need for a possible consolidation of the Prairie Local School District with the Franklin Local School District to form a new district capable of solving the high school problem for both areas has already been discussed. Any new high school to serve such a new district probably should be built near Route 40 and Lincoln Village as the center of population of the district.

GENERAL SUMMARY

The foregoing facts seem to show that the western part of Franklin County faces immediate and pressing problems in many fields. Its township governments, acting within their current legal powers, can do much more than they have already done to solve them. The school boards also face immediate needs for new buildings and expanded programs. While the county is extending assistance in many areas, such as health, highways and welfare, this is not sufficient to give the citizens the services they need. There is an insistent and vocal demand for better public facilities of many types.

Neither incorporation (except for an expanded New Rome) nor annexation seems to offer a satisfactory solution to present needs. It is therefore recommended that the two townships continue to operate as at present constituted under trustees and school boards with courage and vision. Township services need to be expanded to meet legitimate demands within the scope of legal powers. Better school facilities, especially for secondary education, are clearly indicated. Both townships and schools require more ample tax resources. The valuations are available, but budgets have been too low and tax rates need to be increased. Services cost money, but they are or should be worth the expenditure. The citizens and taxpayers can have, just about as good public services as they are willing to pay for if they can elect competent officials to administer their affairs.



Of course, the area under study here must become increasingly aware of its status as a part of a metropolitan community. More tolerant and helpful attitudes on the part of the officials of the core city should lead eventually to more cooperation between the city and its suburbs and enable the whole community to act as a unit on metropolitan problems. But it is not enough that the city should be understanding and well disposed toward its neighbors, the suburban areas, too, must display a cooperative attitude toward the city. Only under these conditions can their common needs be provided for, with efficiency and good will.

In the long run, as the suburban areas become sufficiently urban, they will desire to become a part of the central city. But this desire must be rational, not forced, and it should not be arrived at prematurely. The time is not yet ripe for most of the area under investigation here.

YOUR ATTORNEY WILL TELL YOU NOW IS THE TIME TO PLAN YOUR FAMILY BURIAL ESTATE
Lawyers know the crushing load of details that face a family following a bereavement. They will tell you—
"By all means select your cemetery lot now—while every member of your family can have his say and all will be in agreement."
Why not discuss this important subject with your family and then drive out to Sunset Cemetery and make your selection. Why delay?

Old Bible Contest Reveals Deep Rooted Religious Feelings

Columbus Homes haven't gone completely materialistic. They still have a sentimental attachment for their old family Bibles.

Richard T. Minesinger, pastor of the Eastwood Seventh-day Adventist Church, reported today that an Old Bible Contest being conducted by his church in conjunction with the American Bible Society's annual Bible-reading program, has tapped a vast reservoir of old-time religious feelings sometimes hidden beneath the veneer of modern living.

"Response to the search started Nov. 21 for our community's old Bibles has more than confirmed our strong belief that most people, even non-churchgoers, have a strong attachment for the Scriptures," the minister said.

The city-wide contest will continue until Dec. 12, and participants are asked to call the minister at LA. 9281 or write him at 2568 Glenmawr-av. If they cannot bring the Bible personally, a qualified person will be sent on request to the individual's home to inspect the volume and record its characteristics. No one need give up his entry, he need only substantiate the date of its publication.

Award for owning the oldest Bible will be a new Bible of exceptional quality, Rev. Minesinger says. An identical prize will be given for the Bible with best human-interest story surrounding it. In addition, with the owners' permission, the Bibles will be placed on display at the Neil House Hotel and the Columbus Public Library, 96 S. Grant-av at the close of the contest.

THE *Frightened Man...*

Sixty stories is a long way up, and—a long way down!

Our friend, there, won't even come close to the guard rail. Look at him hug that wall! Even as his reason tells him that he's perfectly safe, a nameless fear inside him easily overpowers his reason, "Don't get close!" it whispers, "Don't dare get close."

Our friend is ashamed of himself when he shouldn't be. Hundreds of thousands of otherwise brave men carry an inborn fear of high places that never can be cured.

Yet *other* fears are *acquired* or *learned*—not inborn—and their shadows never leave many men. Some, for example, fear success. Others fear failure. Others cannot name their fears, even as quick tempers, nervousness, and unhappiness proclaim them.

These people need light—a spiritual light, and it is not surprising that the word "light" appears so often in the Scriptures and in sermons. For only light can banish the shadows of fear: the "kindly light" of your church that beckons each Sunday. Here is found the one perfect antidote. Here, in church, the teachings, love and fellowship of God, unshackle us of our unreasonable fears; and lead us, unafraid, in the Light of Faith . . .

For God hath not given us the spirit of fear; but of power, and of love, and of a sound mind.
II Tim. 1:7.

The Gladden

By Pat Martindale

With Thanksgiving a memory and Christmas just around the corner everyone at Gladden is real busy. Clubs are planning Christmas parties for their last meetings before Christmas; organizations are planning parties for the different groups at Gladden; and everyone is looking forward to the big house parties that will come off during the week of Dec. 14.

The craft groups are planning Christmas decorations for the house.

The boys and girls in the sewing, woodshop and lanyard classes are making presents for their folks.

Friday evening the Supper Club of First Congregational Church will be having a big toy repair party. Mr. Rockwood, one of the group officers, indicates that the couples' group is setting a goal of 300 "made new" toys for children of families receiving help this Christmas through the Christmas Care program.

On Dec. 8, the Progressive Mothers' Club will have its annual Christmas dinner. Mrs. Pearl Hathaway is in charge of arrangements for this. The Mothers' Club is also sponsoring a holiday bake sale at Lay's Cleaners, 656 W. Broad st. The sale will begin at 10 a. m. on Saturday, Dec. 12.

"Keep Christ In Christmas" Is Slogan Of Church Women To Hilltop Business

Women of St. Mary Magdalene Parish Council are taking active part in the current "Keeping Christ in Christmas" campaign being waged by church women. Pictured here are several members of the local group active in the movement. Left to right, they are Mrs. Thomas J. Murnane, Mrs. Frank Erdy, Mrs. Hobert Fisher, Mrs. Orville Todd, Mrs. Paul J. Quinn and Mrs. Joseph J. Reis. Not present for the photo was Miss Margarite Dundon. (Record Photo)

St. Mary Magdalene Parish Council of Catholic Women is taking an active part in the city-wide campaign "Keeping Christ in Christmas." The campaign was initiated in answer to Bishop Ready's request that more emphasis be placed on the spiritual aspects of Christmas to combat the widespread materialistic celebration and is being sponsored by Catholic women through out the city.

Miss M. L. Henricks, president of the Central Deanery Council of Catholic Women, is campaign chairman. Those serving on her committee from St. Mary Magdalene are Mrs. Frank Erdy, 699 Racine-av; Mrs. Thomas J. Murnane, 2930 Palmetto-st, and Mrs. Harry Rubedue, 925 Binns-blvd.

The literature distributed to the committee members includes descriptions and history of the Advent Wreath, Christmas Tree, Christmas Candle, Nativity scene and distribution of gifts. In addition a Christmas Eve program for the home was outlined.

A letter has been sent to the president of the Retail Merchants Association asking that more emphasis be placed on the feast of Christmas as a day commemorating the Birth of Christ through appropriate window displays and displays in the stores.

The letter urged the use of the Nativity Scene, Angels and Madonnas and others of a religious nature. At the same time, it was recommended that explanations of the real meaning of the Christmas customs be included in newspaper advertisements promoting the sale of trees, advent wreaths, cookies and other Christmas season items.

The Association has promised to cooperate and the committee from St. Mary Magdalene's is soliciting like cooperation from the Hilltop Business Association.

Christmas trees are decorated, gifts are wrapped and exchanged, candles are lit, Christmas greens are used universally including the mistletoe but WHY are these things done?

Here is a brief explanation of some of these traditional Christmas customs:

THE CHRISTMAS TREE. Meaning of the Christmas tree. This tree represents the tree of life in paradise, or the tree of the Cross on which Christ regained for us the supernatural life of grace. The fruits upon the tree and the many gifts are to remind us of the fullness of the graces that Christ merited for us upon the cross and the lights on the tree represent Christ, the Light of the World.

THE CHRISTMAS CRIB: The setting up of a crib in church dates from the time of St. Francis of Assisi, who at Christmas, about the year 1223, set up the first one in a grotto at Greccio in the vale of Rieti. Here the Saint held devotions with the country folk of the vicinity. From this place the custom spread throughout the whole world. The crib is more in harmony with the Christian idea than the less symbolic Christmas tree with its presumably heathen origin and Germanic character.

THE DISTRIBUTION OF GIFTS to children and to the poor is to remind us of the poverty of the Christ Child. Christmas presents are expressive of joy and gratitude for the great gift God gave in the new-born Savior. The presents are signs of Christian love and symbols of the supernatural graces which the Christ Child brought down to us. We may rightly say, therefore, that the "Christ Child brings us the presents;" for without Him there would be no Christmas, no Christmas joys, and no Christmas presents. Gifts should be wrapped with love, even as Mary wrapped the Child, for the wrapping is a symbol of the swaddling clothes.

CHRISTMAS CANDLE: You have lighted Christmas candles for many years. The candle may be signed with the symbol of Christ and the Cross—or it may be simply decorated with evergreens. The Christmas Candle represents Christ the Light of the World. At your window it welcomes the guest. At your table it tells of His Presence.

TRADITIONAL CHRISTMAS GREENS—Christmas evergreen is a symbol of Christ, who became man that we might be given a share in His everlasting life. Holly—since the holly grows when other trees are bare, we have a beautiful symbol of Christ among the sons of men. Poinsetta—In Mexico, the poinsetta is called "The Flower of the Holy Night." Mistletoe—when you get a kiss under the mistletoe, remember that it once hung in honor in the churches. A kiss of peace was given from priest to priest and from priest to people as a mark of love at Christmas.

THE ROSE—Christ, the Rose of Sharon, is the center of your Christmas feast. The rose is also the most well-loved flower for Christians. More legends have been told of the Christmas rose than any other flower.

CHRISTMAS COOKIES—Christmas cookies announce the Birth of Christ. In fact, hard gingerbread cookies were the first Christmas cards. A text, an icing, a scroll or a picture told the blessed Christmas story and wished a happy Christmas.

Star cookies were first made in the east where the star was a sign of a rising king.

Lebuchen or life cakes tell of the new life which we receive from Christ at Christmastide. To eat them is a reminder of Christ, the Bread of Life.

Horned Cookies were made in Switzerland as "Thanks Cakes" for the horned animals in the barn. Small ones are made for the lambs and large ones for the oxen. Space does not permit us to list all the cookies which say that Christ is born and that Christmas is His Birthday.

On Thursday evening, Dec. 10, when St. Mary Magdalene Council assembles for its Christmas meeting a demonstration and explanation of how to make and use the Advent Wreath will be given by Mrs. Thomas J. Murnane. Visual aids will also be used in the explanation of the above customs by the following members of the Council: Mrs. Paul Quinn, Mrs. Frank Erdy, Mrs. Robert Fisher, Margaret Dundon, Mrs. Joseph Reis and Mrs. Orville Todd.

Mrs. Hobert Fisher, 366 S. Roys-av, Catholic Charities chairman, has asked members to bring suitable Christmas gifts to be distributed at the State School on W. Broad-st.

School Pupils Portray First Thanksgiving

The first Thanksgiving was brought vividly to the minds of the children at West Broad Street School, Wednesday when the boys and girls in the third and fourth grade classes of Miss Ruth Michaelis and Mrs. Roma Weymer gave a Thanksgiving program.

All were dressed in Pilgrim and Indian costumes and enacted the scenes of the Pilgrims Going to Church and the First Thanksgiving Feast.

The fourth grade also gave a dialogue and a little skit of the first Thanksgiving. While these were being given, the rest of the children sang, "Our God of Harvest Praise", "Swing the Shining Sickle," and "Three Hundred Years Ago."

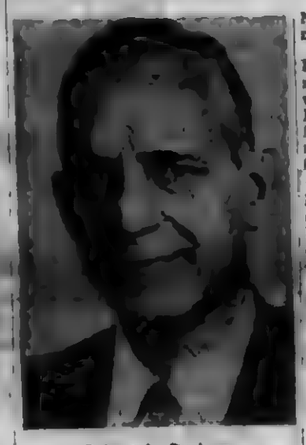
The Mayor-Elect Should Be Given An Opportunity

Since the declaration of the election of Jack Sensenbrenner as mayor there has been an attempt to build up some feeling that he will not have a successful administration.

It was not expected that he would have particularly smooth sailing at every turn but it certainly is hoped that he will be given a fair trial before he is discredited to the extent that the city of Columbus suffers from it.



More than half the people casting ballots in the last election wanted Sensenbrenner to be given an opportunity to turn in a decent administration. It is their hope today that such will come about. There is every reason to believe that here is a grand opportunity for the city of Columbus if the new mayor can be given a chance to work out his problems. He should have the encouragement of the public.

New Mayor Key Speaker At Charity Newsie Dinner

Robert L. Durham

Mayor-elect M. E. (Jack) Sensenbrenner, Hilltop Democrat, will make the keynote address at the Charity Newsies' annual "Pop Dinner" this Thursday evening in the Southern Hotel. This is the climactic windup to pre-pare sale activities for the welfare organization and will be attended by some 275 members and their guests and friends.

The organization's forty-seventh annual sale of "Open Your Heart" special edition newspapers takes place this Saturday on street corners throughout metropolitan Columbus. It benefits needy children of school age.

Newsie President Robert L. Durham of 199 S. Brinker-av, will preside at Thursday's dinner, with the toastermaster role being taken by Judge Dana F. Reynolds. The jurist is a past president of the Newsies and now serves as chairman of the board of trustees.

Newsie members living on the Hilltop have been given their assignments for Saturday's sale, it was announced yesterday by Fred Moritz of 90 N. Warren-av, the first vice president and co-chairman of the assignments committee.

Leroy S. Weigand of 3161 W. Broad-st, will cover W. Broad-st on the Hilltop, while William F. Krause of 180 N. Terrace-av, will cover W. Broad-st from the [illegible] River to the Hilltop.

The Central Point Shopping Center is to be the base of operations for Robert Y. Dienst, Louis W. Draudt and Hugh McKinley.

Richard M. Young of 2766½ W. Broad-st is to cover Sullivant-av and W. Mound-st.

Hilltoppers W. Herbert Dalley, Louis Holzbacher and Max Gutkind will be on duty at headquarters in Memorial Hall.

Other assignments Included: James W. McDevitt of 727 S. Eureka-av, at Long-High, northeast; A. T. Vollman, 208 Binns-blvd, Broad-High, northwest; Theodore E. Vollman, 75 Whitethorne-av, paper delivery; William H. Haire of 3107 Ellis-pl, Broad-High, northwest; Otho Hayner, 1989 Floral-av, Town-High, northwest.

The Newsies are accepting applications for aid at their headquarters in the west basement of Memorial Hall. A parent must file the request, which will be investigated by a Newsie before the child to be outfitted with new merchandise is told to report at the office.

The hours are 9 a. m. to 4:30 p.m. daily, except Sunday. No applications will be taken next Saturday—paper drive day—because the office will be crowded by members occupied with campaign details.

Huge Community Christmas Tree To Be Lighted Sunday

The holiday season will be opened officially this Sunday evening, Dec. 13, at 6:30 p. m., when the huge Christmas tree on the grounds at Glenwood Recreation Center is lighted for the first time.

Jerry Spears, Sr., the first president of the Hilltop Community Council will throw the switch to light the many bulbs on the tree which can be seen from a distance as one travels West Broad-st.

Barbara Smith of the West High dramatics department will give a short reading entitled "Once Again —Christmas" which tells some of the legends of how the Christmas tree originated.

Church choirs and choral groups from the Hilltop will join forces to lead the assembled spectators in a Community Carol Sing.

Committee in charge of the event consists of Robert Schmidt and "Chuck" Ditrick of Hilltop Community Council, and Charles Moore and D. T. Crawshaw of the Columbus Recreation Department.

Westinghouse's New Plant Gets Wide Publicity

With a reverse twist of the city of Columbus' slogan, "Come to Columbus and Discover America," Westinghouse Electric Corporation today began to spread the word in the appliance trade about the company's new appliance plant located just west of Columbus.

A two-page ad in the Retailing Daily, a trade journal, carries a banner headline proclaiming, "America discovers Columbus." It goes on to describe fully the new appliance plant and tells how its productive capacity is designed to keep pace with the nation's demand for Westinghouse appliances. The ad shows an artist's sketch of an aerial view of the plant and the full line of the company's products for the home.

This message also appears in the December issue of Electrical Dealer, Electrical Merchandising, Industrial Retail Stores and Southern Appliances, all trade publications.

Cooperation Of Public Urged By Post Office

With Christmas rapidly approaching the local post office again solicits the cooperation of the public in the preparation and mailing of greeting cards and gift parcels. This cooperation constitutes an important factor in facilitating the dispatch and delivery of all mail matter.

Some methods of cooperation are as follows: Purchase stamps in advance of the rush period. Fully prepay postage on all mail matter. Address all mail matter plainly and give street address, apt. number, if any, and delivery zone when [illegible]

Greeting cards mailed at the first class rate of 3 cents per ounce, may be sealed and may contain written messages. They will be forwarded without an additional charge, or returned if the sender's return address is shown. Unsealed cards containing no writing, except name, may be sent for 2 cents postage but cannot be forwarded or returned.

Gift articles should be packed in strong, durable containers and should be tied with heavy cord. Parcels must be endorsed with the name and address of the addressee and must bear the return name and address of the sender in the upper left hand corner of the parcel. They may not be sealed unless they bear a printed endorsement "Contents Merchandise — May be opened for Postal Inspection if Necessary."

Parcel Post service may be speeded by the use of air mail, special delivery, and special handling. Parcels of value should be insured and patrons desiring this service should be prepared to declare the nature

Daniel Boone Gives Up to 'Injuns'

GETTING ACQUAINTED—Young visitors at the Central Point Shopping Center meet Santa Claus whose real name is—believe it or not—Daniel Boone.

By ZIP

Most everyone is familiar with the story of how Daniel Boone escaped from the Indians by using a grapevine to swing himself across the Kentucky river only a few paces ahead of the savages, but there are few Central Point Shopping Center visitors who realize that there is a present-day Daniel Boone who hasn't a chance of "escaping" from hundreds of howling 1953 model paleface "injuns."

As a matter of fact, he welcomes the mauling he gets from the present day "braves," and even shakes their hands and pats their backs to assure them that he won't "take a powder"—on the eve of Dec. 24, that is.

The man who's the center of attraction among the kiddies at the shopping center is really Daniel Boone, but his raiment suggests that a niece of the original—five times removed—makes his home at the North Pole and visits the homes of good little boys and girls once each year.

Those who have taken a good look at Central Point's Santa—particularly adults—have noted that the gentleman is far from being a "wolf in sheep's clothing," for, as many comment, he has just the build and the 'smilingest' eyes you ever saw."

Mr. Boone—the present version—was born in Roanoke, Va., some 44 years ago and has resided in Ohio for about 30 years, presently making his home in Ashville, where he is a distributor for nitrogen fertilizer.

Playing Santa came naturally to him, he says, being the oldest of seven children in the family—the rest all girls!

Though he's proud to carry the name of his illustrious forebearer, it has resulted in several unusual incidents, he declares. For instance, there was the time when he entered a new school and was hauled before the principal by an angry teacher because he insisted his name was Daniel Boone. The truth, of course, resulted in considerable embarrassment for the "marm." There have been hundreds of other instances in which his name has played a more or less humorous role, but he's used to it after 44 years, he avers.

However, there's really nothing very humorous about his job of being Santa Claus—about the job itself, that is. He makes it a serious occupation and is continually trying new ways in which to improve his technique.

The toughest part, he declares, is to greet children with the same enthusiasm at 8 o'clock at night with which you met them at 2 o'clock in the afternoon. He'd learned to "space his strength," so to speak.

What do most of the youngsters ask for? The usual things—dolls, drums, bicycles, trains, etc. However, that young America is fanciful-minded automotively is attested by the fact that perhaps a thousand have asked for Cadillacs and only a few for Fords, Chevrolets, Plymouths, etc.

Mr. Boone's greatest asset in the role of Santa, he believes, is his

Boys Organize To Solve Own Problems

EVERYONE PITCHES IN TO DO HIS SHARE of work cleaning up the Worthen Sunoco Station at Powell-av and Sullivant-av just prior to, and following meetings of the Hilltop Athletic Club. Putting on the "spit and polish" here are Byron Bell, Ralph Orendorff, Herb Commeans, Bill Higgins, Bob Boldt and Jim Paul, all members of the board of governors of the newly organized club.

Great is the hue and cry these days concerning the problems of youth and their penchant for getting into sundry and various types of trouble with the end result being that they are being lumped under the now prevalent title of "Juvenile Delinquents."

One of the greatest problems groups has been that between the ages of 16 to 18 years according to most reports of police and social workers who have made a [illegible] study into the program. The reason they advance for this condition are much similar. "Give the boy something worthwhile to do, when he is in that age span and you'll find few so-called cases of juvenile delinquency. Teamwork Is Keynote of Kiwanis Newspaper Sale

Teamwork and sweat! That's the story behind the annual Hilltop Kiwanis Club newspaper sale which will take place this year on the night of Thursday, Dec. 17.

Two-hundred and fifty salesmen will knock on the doors of every home on the Hilltop with a product that has taken hundreds of hours to prepare. Lining up the salesmen themselves was a huge job — ably handled this year by Elmer Hegenberger.

The presence of the entire membership of the Hilltop Lions Club on the sales force this year will be another stirring example of community teamwork. Lions will help in the project in appreciation of the assistance rendered by the Kiwanians in the newspaper sale conducted on behalf of the Lions Sight Conservation program this past May.

All members of the Hilltop Kiwanis Club have assisted in contacting merchants to sell the some 200 advertisements in the paper. Under the general chairmanship of Wally Bonsell, Kiwania ad solicitors have been working on teams captained by Bob Miller, Charlie Campbell, Dick Nash, Howard Prout, Art Walker, Dr. Bruce Tanner, Robert Weaver and Roy Kistner. Division of the soliciting teams into two competing leagues, captained by Ed Johnson and Jerry [illegible] has stimulated this vital portion of the project.

Robert Cramer, retired insurance man, is way out in front on individual ad sales, maintaining his record of leadership set in past years.

Advance publicity, the job of stirring the interest of every Hilltopper in supporting the newspaper sale, is the job this year of the club's public relations committee, of which Ed Johnson is chairman. Among the attention-attracting projects of the committee will be huge banners across W. Broad-st and Sullivant-av, erected under the supervision of Ed Melvin.

Setting the mood and tempo for the annual sale will be the auction slated to be held at noon, Dec. 17, at the regular luncheon meeting of the club at Schaefer's Restaurant. Dick McGarry chairmans this phase of the sale.

The kick-off dinner at 6 p.m. the same evening in the West High School cafeteria, where salesmen will pick up enough energy to make the 1953 sale the biggest ever, is another example of teamwork. Ladies of the Hope Memorial Presbyterian Church will serve the meal. Mack Pemberton is general chairman in charge of arrangements for the dinner.

Delivery bags in which salesmen will carry the Kiwanis Christmas Edition as they canvass the Hilltop also represent a cooperative endeavor. The newspaper bags are loaned each year to the Hilltop Kiwanis Club by The Columbus Citizen and The Columbus Dispatch.

Salesmen, laden with goodwill cash contributions in appreciation of the vital community services provided by Kiwania, will enjoy coffee and doughnuts in the Camp Chase Post of the American Legion home following the sale. Vern Fiscus will be in charge of arrangements for the post-sale get-together.

Even the banking of collected funds calls for teamwork. Herbert G. Deems and Robert Kneisley will be in charge of seeing that the funds are properly deposited.

Hilliards Mayor Fights Demand For More Water

Hilliards Mayor Edward Patterson and Village Solicitor Guy Martin this week filed an answer in Franklin County Common Pleas Court to an injunction suit requiring the village to furnish water to the Franklin County Fairgrounds.

Village officials also filed a motion that the suit be set aside and that the Columbus Trotting Association be restrained from turning a water to the fairgrounds after it is shut off by the village.

The trotting association had obtained an injunction which makes it mandatory that Hilliards supply water to the fairgrounds on the grounds the water is essential for fire protection.

In answering allegations made in the suit, Hilliards officials pointed out this is the first winter season the fairgrounds has been open. They claimed there were no adequate facilities to furnish water and that fire protection on the fairgrounds is not affected by the village action.

It also was pointed out that the water lines on the fairgrounds are on top of the ground, hence subject to freezing and loss of considerable water to the village.

In requesting the injunction suit be dissolved or modified, Patterson and Martin left the door open for officials of the Columbus Trotting Association to correct the situation and be assured of water. They told the court water could be furnished the fairgrounds safely if the water pipes were placed underground to protect them from the elements.

This is the first season horses have been wintered at the Hilliards raceway. Officials of the trotting association have indicated they would comply with the request of the village and bury the water pipes.

Twp.-Firemen Douse Small Blaze At Westinghouse

All three companies of the Franklin-twp Fire Department were summoned to douse a small roof fire at the Westinghouse Electric Corp., Broad-st and Phillipi-rd at 3:20 p. m. Friday, Dec. 4.

The blaze, of undetermined cause, broke out in tar and tar paper on the steel deck roof at the southeast corner of the main structure, Franklin-twp Fire Chief James Moffitt reported.

Flames were quickly extinguished, the chief said. He unofficially estimated the loss to the building at $50.

Mrs. Kelly was so pleased and wrote a note of thanks to the Record and the West Side News. She said everything the day she received the newspaper.

SHOES MUST FIT

The other day a man employed as a machinist at one of our Hilltop factories, came into our men's shoe department for work shoes. This man works with precision tools making parts that must fit to the ten-thousandth of an inch. Yet, his feet were so bad that he could hardly stand on the shoe measure because he or his shoe man had been putting his EE foot into a size 7½ E shoe. The result was a shoe so loose that his foot rubbed around in it, so baggy under the arch that it afforded no support and yet short enough that his toes had corns from the pressure.

Yes, shoes need to fit just as machine parts must fit. This machinist's "fit" problems were relieved with a size 9B Massagic work comfort with a built-in cushion and a Neo-Vulcork sole that will withstand the oil he works in. His foot troubles will soon vanish if he takes the advice we gave him and visits one of our Hilltop chiropodists.

Are Yoo Willing?

Are you willing to forget what you have done for other people, and to remember what other people have done for you; to ignore what the world owes you, and to think what you owe the world; to put your rights in the background, and your duties in the middle distance, and your chances to do a little more than your duty in the foreground; to see that your fellow-men are just as real as you are, and try to look behind their faces to their hearts, hungry for joy; to own that probably the only good reason for your existence is not what you are going to get out of life, but what are you going to give to life; to close your book on complaints against the management of the universe, and to look around you for a place where you can sow a few seeds of happiness—are you willing to do these things even for a day?

Then you can keep Christmas.

Did You Ever Wonder

When you see the Christmas seal do you ever wonder how it started?

It was born in Denmark, home of the fairy tales of Hans Christian Anderson.

Einar Holboell, a Copenhagen postal clerk, was sorting mail one snowy afternoon before Christmas, 1903, when he thought of the idea of a penny stamp to swell a fund for children's hospitals

Authorized by King Christian, the first Christmas seals were sold in Copenhagen in 1904.

Hoebell's scheme outgrew his wildest imaginings, for before his death in 1927, he lived to see it spread to 45 countries, including Korea, India and French-Indochina.

The seals found their way to America on letters and packages and first attracted the attention of Jacob Riis who wrote an article about them. Few people, however, were interested in the idea.

Then in the summer of 1907 Emily Bissell, a public health worker, concerned about the fate of a small sanatorium, recalled the article and set down, to sketch America's first Christmas seal, a wreath of holly encircling the words "Merry Christmas."

With 50,000 stamps printed and nowhere to sell them, Miss Bissell enlisted the aid of a columnist on a Philadelphia newspaper. The idea caught and within a few weeks $3,000 was collected.

The first nation-wide sale was held the following year and was backed by newspapers all over the country, religious and civic groups, and sponsored by the American Red Cross and the National Tuberculosis association.

RETROSPECT
Mrs. D. E. Wells

No one could be any happier than I when Columbus began its rose project and dedicated the Park of Roses—I felt that this was a great step forward toward making Columbus one of the beauty spots of America. Nothing, in my opinion, can be more glorious, more glamorous, more beautiful or sublime than a park full of roses.

Since 1930 I have been fortunate enough to be visiting in Portland, Oregon, in the spring of each year and have been able to revel in the beauty that is rampant in their city at that time. Perhaps you, too, would like to know what that city has accomplished from a small beginning.

Around 1890 this city started to plan ahead—until 1907 the citizens had their first floral parade with the original ruling that all floats and entries must be decorated with actual flowers, no imitations—no display of advertising allowed and all lettering must be in flowers.

This is sponsored in a large degree by the Royal Rosarians who are members of the City's Official Hospitality committee during the period of each Rose Festival. Thousands of visitors jam the streets to view the colossal parade and the use of a million blooms.

The children of Portland also have THEIR day—at which time thousands of happy children carry on in miniature their own version of the Rose Festival! Harry Wheatcroft, from England, who attended National Rose Show just recently held here in Columbus went on to visit Portland and oh'd and ah'd at considerable length over a magnificent head-high Rex Anderson rose with some 25 blooms steaming out from a single stalk.

He said "If roses like this could be grown throughout the rest of the U.S. you wouldn't be able to raise enough to meet the demand."

Loving roses as I do—I am reminded of the lovely quotation by Florence Coates, "There is always room for beauty; memory a myriad lovely blossoms may enclose. But, whatso'er hath been, there still must be room for another rose."

And when, we in Columbus, make room for ANOTHER rose—in our yards—on our curbs—in all our parks—then can we gloriously and honestly wear—the title of "The City of Roses."

THE FARMER AND HIS BARN

I love my barn . . .
The solid walls, the spacious bay,
Filled to the plates with fragrant hay.
But most I love the stable space
Where friendly horses have their place,
And rest in comfort from their labors,
With patient cows and sheep for neighbors.

Once in a manger,
Beside His mother, lay
A little Child upon the hay.
So, through the year, at morning and night,
I make my stable clean and bright,
Ready to welcome, undefiled,
The coming of The Holy Child.

Mail—From USS Hornet CVA12 (a nephew): This is Thanksgiving Day and I'm not having a happy day because I keep thinking of mom's cooking too much . . . From Cincinnati: My prayers were answered. It makes me feel so good, and so important, because He has so many troubles to listen to and so many disasters to take care of that are lots worse than mine. But He still had time to help little old insignificant me! . . . From Columbus: When my mail carrier stopped to collect for muscular dystrophy I asked him to come in and rest a while. He said he wasn't tired and he didn't have muscular dystrophy or even rheumatism, so he could keep walking. He said that all that bothered him was a sore corn, and it didn't bother too much.

. . . From Thorsville: I like the glitter and jingle of the Columbus stores just before Christmas, but when I see too much of it I want to sneak off to a frozen Buckeye Lake marsh where I can be alone to think. Hunting season is here but I am not a hunter—with a gun . . . From Columbus: I blame my own personal aches and pains on old age and I'm beginning to understand what causes old-age-itis. It's youth! (My friend is just being facetious for I happen to know that she and her husband are the parents of teen-agers and have done as much as anyone in Columbus to help combat so-called juvenile delinquency. Every evening their home is full of high school kids eating cookies and drinking cokes and dancing. They like it that way—as they say, they know where their children and a lot of the neighbors' children are.)

Some of the REAL Men of Distinction are the boys and men in uniform; the mail-carriers, radio and tv personalities and others who have worked so hard recently in behalf of arthritic and muscular dystrophy victims; the Charity Newsies who will work hard on their day on the street corners of Columbus; doctors; the expectant dads who pace and worry — and hope it's a boy; dads who will pay the Christmas bills, and others too numerous to mention. Another group of men of whom Columbus should be proud are the men on the inhalators and police cruisers. I had occasion to watch two of them in action some time ago. They are kind, efficient, and very patient.

Small children do not approve of Santa's leaving his work shop at the North Pole so long before Christmas, at least my favorite 5½-year-old and her kindergarten set don't. They have talked it over quite solemnly and agree that there may be some dolls and toys unfinished just because he came to Columbus so soon. My favorite young lady was taken to a department store toyland Saturday, and when Laughing Boy asked her what she wants for Christmas, she was very stern with him. She told him she really hadn't thought much about it—yet—and that it was a long time till Christmas.

• • •

My private Waterloo—Radio and tv actors and announcers who say "As a matter of fact" before each sentence (if what they are about to say isn't a fact they shouldn't be about to say it) . . . Liberace's putter (his piano playing is something else again!) . . . Still telephone advertising . . . Resisting the dolls in store windows (how many dolls can one small girl use!) . . .
Soot.

Heard somewhere: Bishop [illegible]—Some people have a wonderful sense of rumor . . . A minister, WLW—If something you do makes you dislike yourself, then that for you is wrong, no matter what anyone else says about it.

Hilltop

'Small Fry'

By J. Curtis Allen

"Oh no- I dood it again and it's nearly time for Santa."

The expression on the face of Danny, the 11-month-old son of Mr. and Mrs. Gerald O'Kain, 311 N. Burgess-av, aptly reflects the antics of the small fry these days, when they suddenly remember that Christmas is just around the corner.

These Eyes—

How Well Do You Know Them?

This is a new feature of The Hilltop Record. We know you'll find it entertaining in testing your own powers of observation and memory in identifying the person to whom these eyes belong.

A life-long Hilltop man, graduate of West High School, veteran of World War II and recent aspirant to a seat on Columbus City Council—that was the man whose eyes were pictured above in last week's edition of The Hilltop Record. Did you recognize the eyes?

The man was none other than Eddie Walker, 240 Demorest-av, who owns and operates Walker's Auto Laundry on Orel-av and who is also engaged in the real estate business. Eddie served in World War II as an enlisted man and rose through the ranks to become a captain before his discharge. Last month he was unsuccessful in his bid for city council but has not been deterred from trying again,

Eddie Walker

since that was his first political bid for office.

The eyes pictured in today's edition are also the eyes of a man well known throughout the Hilltop area. A clue? He is active in civil defense work.

Three Matches Open Loop For Volleyball

The first match of the regular Friday "Y" volleyball found a close set between St. Paul's Evangelical Congregational and New Rome. New Rome opened strong by winning the first game 15-9 and only fielding "duty" players. St. Paul's played heads up ball the remaining two games on the match and won them 15-13 and 15-13.

Players for St. Paul were Moran, Dunn, Stout, Calvert, Kellar and Smiley. New Rome team was composed of the following players: Dougherty, Longerbone, Storch and Courter.

The second match was a fast scoring set with West Park Methodist taking all three games from a determined Hillcrest Baptist team. The West Park Methodist players consisting of Kuhn, Dillie, Shoaf, Kearney, Stimson and Laughlin continued to keep out of the lost column and now post a six win record to date.

Hillcrest Baptist steadily improved throughout the match and will be the black horse of the league to watch. Roth, McIntruff, Waltman, Raugh, Millstead and Murphy were the players for Hillcrest Baptist.

Success is a fraud. By the time you're rich enough to sleep late, you're so old you always wake up early.

Dunkel Rates, U.C.L.A. Over Michigan State

By Dick Dunkel

Miami's Orange Bowl may have grabbed the two highest rated opponents for the coming New Year's Day classics, but Pasadena's Rose Bowl apparently came up with the closest match.

UCLA, the West Coast's host team, finished the season with Power Index of 104.3, a mere 2.4 higher than the rating of its Jan. 1 opponent, Michigan State (101.9). This is the closest pairing in the entire New Year's field, but most of the others are almost that tight.

Rating differences between all of the chosen Bowl contestants, as well as their national ranking numbers, are as follows:

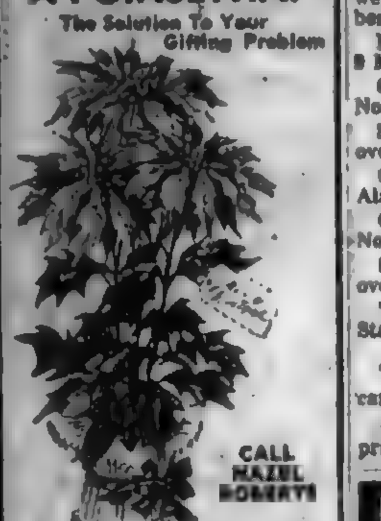
Rose: No. 6 UCLA, 2 over No. 9 Michigan State.

Orange: No. 1 Maryland, 3 over No. 3 Oklahoma.

Sugar: No. 17 Georgia Tech, 4 over No. 28 West Virginia.

Cotton: No. 7 Rice, 3 over No. 11 Alabama.

Gator: No. 4 Texas Tech, 8 over No. 13 Auburn.



Sun: No. 48 Miss. Southern, 8 over No. 77 Texas Western.

Tangerine: No. 79 East Texas State, 6 over 91 Arkansas State.

South Cagers Decision West By 66-54 Count

By Woody Owens

West High Cowboy cagers opened their 1953-54 home season last Friday by going down to their third consecutive defeat, this time at the hands of the defending City League champs, the South High Bulldogs, by a score of 66-54.

The contest was bitterly fought and roughly played, with the final score no true indication of the closeness of play.

A total of 52 rule infractions were committed, 28 by South and 24 by the home forces, with four Bulldogs and two Cowboys being ejected.

The locals jumped into a short-lived lead in the early stages, with the Blue and Gray assuming a 16-15 lead at the quarter and extending it to a 36-27 count at halftime.

In the first two periods the Cowboys counted only five field goals, but had 17 of 24 successes from the free throw line.

The Cowboys narrowed the gap to a 46-40 score at the three quarter mark. Only through the great shooting of Benny Wright did the visitors continue in the lead.

In the final period the champs bench strength paid off as sub center Stan Owens counted 11 points to shoot the ultimate winners into their longest lead of the night.

Since this contest was so bitterly fought the officials are to be commended for a fine job and not once did the game get out of hand. Some officials in the past have allowed games to get out of hand by failing to call the rule infractions, with serious consequences following.

Saturday night the Cowboys traveled to Bexley and notched up their first win of the campaign by a score of 56-44.

The game started slowly but soon the Cowboys' superior speed and accurate shooting pulled the contest out of the reach of the home team.

The locals displayed their best balanced attack of the season, with Jim Vincent's 22 points spearheading it.

The Cowboy reserves, displaying a fine game, notched up two wins, over South by a score of 38-32 and Bexley, 38-24.

Hilltop "Y" Junior Church Cage Loop Gets Underway

The Hilltop YMCA Junior Church League got underway last Wednesday night at John Burroughs gym with three lop-sided games and one close contest.

West Junior Hi-Y opened the first game of the season by crushing an inexperienced Westgate Methodist five to the tune of 33-19. The Junior Hi-Y jumped into an early lead and were in front all the way. Bill Botkin was the leading scorer for the "Y" team as he banged in 14 points. McQueen and Callard led the losers with five and four points respectively.

"Mousey" Barnes played an outstanding floor game for the visitors and David Mack showed good potential for the Miller coached five.

Hoge Memorial, defending champions, of the league, showed true championship form by blasting Harry Grashel's Glenwood five 56-6. The game was never in doubt from the opening whistle as the Presbyterians used their experience and extra height to good advantage. Big "Edwards" led the Hoge five by swishink in 26 points. McLinn controlled the backboards for the Presbyterians and played a good floor game. Hummel was high scorer for the Glenwood five with five points.

Burgess EUB, a vastly improved team from last year, showed they are out to be a champion this year by blasting the Junior Firemen 67-18. This game was a run away from the start and Coach Dick Grant used his second stringers a large part of the time.

Steece was high boy for the Burgess five as he racked up 20 points. Steece also showed good pass work and played a fair floor game. Wichterman starred for the second string EUB five by notching 10 points. NUorris was high for the Junior Firemen with 8 points.

The last game was the thriller of the evening as Westgate EUB edged Hilltop Church of Christ 37-29. The score was tied 12-12 at the end of the first quarter. The Westgaters got the lead at half time as the Dixon coached five was held to six points. The third quarter also gave Westgate an added margin.

The Church of Christ bounced back in the fourth quarter but was unable to overcome the points piled up by the "yellow-clad" five in the second and third quarters.

Ron Ireland was high for the victors with 19 points and Joe Bowman starred for the Church of Christ by making 17 markers.

Dick Dunkel's COLLEGE FOOTBALL POWER INDEX

EXPLANATION — The Power Index provides a direct comparison of the relative strength of any two teams for this season to date. Thus, a 50.0 team has been 10 scoring points stronger than a 40.0 team on their comparative records, in which average scoring margin has been weighed against average rating of opposition. However, this does not mean that a 50.0 team should defeat a 40.0 team by 10 points in the future, because the ratings have not been adjusted for such important forecasting factors as home team advantage, injuries, lineup changes, etc. Therefore, they are not to be construed in any way as gambling information. The Dunkel system correlates records of all college teams and was started in 1929.

Symbolic "Life Cakes" Recipe Is Submitted By Mrs. Murnane

Mrs. Thomas Murnane

A recipe for "Lebkucken" or Life Cake, a cookie traditionally symbolic of the new life of Christmas, is submitted this week by Mrs. Thomas Murnane of 2930 Palmer-to-st.

Her interests include affiliation with the Council of Catholic Women since its organization in 1946, including two years as president of Central Deanery Council. She is also a member of Parish Council of St. Mary Magdalene, past president of St. Francis Hospital Circles and is co-chairman of Central Unit, Columbus Little Symphony.

Her husband is associated in business with Westwater Supply Co. The couple has four children, Dr. Robert Murnane, Mrs. Virginia Ogdin, Rosemary and Donald, a student in the College of Commerce, Ohio State University.

These sweet, honeyed Lebkuchen or Life Cakes are an important part of Christmas tradition in many households, because of their symbolic meaning as well as their delicious flavor.

Lebkuchen (Life Cakes)

1¼ cups honey
¼ cup water
3 cups brown sugar
2 eggs
8 cups flour
½ teaspoon soda
½ teaspoon salt
½ teaspoon nutmeg
½ teaspoon cloves
1½ teaspoons cinnamon
1½ cups shredded orange peel
1½ cups citron
1 cups blanched almonds.

Boil honey, sugar and water for five minutes. Beat in the eggs. Sift sifted dry ingredients. Stir in fruit and almonds. Cover and let stand overnight to ripen. Roll ¼ in. thick. Cut into rectangles one inch wide by three inches long. Give cookies plenty of room on greased sheet. Bake in moderate oven (350) for 15 minutes. When cool, ice with:

1 cup confectioners sugar
5 teaspoons boiling water
1 teaspoon lemon juice

fondness for children.

"I love all of them and they seem to somehow realize this," he said.

He resents being used occasionally as a "whip" by parents and cited the case of the mother who asked Santa to tell her offspring that no toys would be forthcoming down the chimney unless he stopped wetting the bed.

All in all, however, Mr. Boone likes his holiday role, declaring they are the happiest days of the year for him. And the kids, too, must like him, for his services are in such demand that he's always signed up for the job months in advance of the yule season.

D. Boone—the original—would be proud of his niece—five times removed.

Boys Organize—

(Continued from Page 1)

the right way by themselves.

Originally there were nine boys in the first organization of the club. Last week the membership of the organization jumped to 47 and this week they expect an even greater turn-out. That is how well the word has spread of this organization of youth which is setting out to do something by themselves to combat the dread title of "juvenile delinquent."

Although two Hilltop business men are advisers to the group they do not interfere with the organization nor its management. Their only capacity is to guide the youths when problems come up that are beyond their power to control or solve. The entire basis of the club is that it be self governing and self sustaining.

Typical of the self governing rules are three which have thus far been drafted. They are: That missing of two consecutive meetings constitutes grounds for loss of membership. Any youth found partaking of alcoholic beverages is automatically dropped from the club rolls and church attendance is desirable of all before membership can be obtained.

Chief problem of the youths is to find a suitable place in which to hold meetings. They have in the past few weeks been using the facilities of Phil Worthen's Sunoco Station at Powell-av and Sullivant-av, but with the club growing by leaps and bounds it is thought that these will soon be inadequate. They have tried to secure the use of the new Westgate Park Shelterhouse but have been advised that since the fall season is over that the shelterhouse is unavailable for public use.

They plan to sponsor dances and other forms of entertainment to raise funds to secure needed athletic equipment. several well-known men in sports circles have volunteered their help as coaches for the teams that the youths organize and are offering the youths guidance in forming such teams. Other public spirited men interested in the confidences of the boys is trying to solve their own problems have offered aid in other ways.

To date the boys have set up their own board of governors consisting of nine boys. This board has the power to overrule the president and other officers of the club if they feel that anything under consideration is not for the good and welfare of the organization. This board consists of Byron Bell as chairman; Bill Higgins, Bob Boldt, Ralph Orendorff, Herb Commeans, Jim Paul, Herb Brown, Willie Monicho and Danny Crites.

Officers of the organization are Dick Reschtrenner, president, Bob Fenimore, vice-president; Bob [illegible] secretary; Loren Galloway, treasurer and Walter Dolder, sergeant-at-arms.

Said the youth leaders this week, "Our organization is open to any boy on the Hilltop. We invite them to join with us to build an organization that will be a credit to the community and one that will in years to come, become one of the organizations of which it can be truly said that none of our members bears the title "Juvenile Delinquent."

"Recreational facilities on the Hilltop are few for many of us who are not able to compete in school sports or to those of us who have graduated and would still like to participate. We're going to do our level best to attain those facilities for ourselves. We hope that this idea of ours will spread throughout the City of Columbus and that every boy of our age will be a better man for it."

Kiwanikwe Plans Annual Christmas Treats For Franklin Village Boys

The Kiwanikwe, auxiliary unit of the Hilltop Kiwanis, is again planning to provide Christmas gifts for the children of Franklin County Children's Home.

The organization sponsors a cottage of 15 young boys ranging from seven to nine years of age, and remembers each child on his birthday with a party, complete with ice cream, cake and a nice gift.

In addition, they give a Christmas party for the youngsters. However, this year, since there will be a birthday party on Dec. 17, they have decided to forego the usual party and just present the children with gifts. Mrs. Marie Campbell is chairman of the welfare group.

Important Notice

In order to meet printing and engraving deadline requirements, it is necessary for all society pictures intended on these pages to be in The Hilltop Record office not later than noon on Saturday.

Young Floyd Redick, a Lt. Col. in the US Army Engineers Active Reserves, hobby is golf in the summer, likes puttering around the house, and is a member of the marching unit of the Shrine Patrol.

Just recently, the Paul Leipensperger's son was host at the family dinner party at the Fort Hayes Hotel, celebrating his parents 33rd wedding anniversary.

It's a baby boy, for the Paul Smiths. She is the former Joanne Carson. Paul is stationed with the US Army in California and expects to be back in "civvies" again in February . . . the Robert Killian's are expecting. She is the former Charlotte Stuck. Mrs. Killian is now making her home in Phoenix, Ariz. Her husband, Robert, is stationed with the USAF in Fairbanks, Alaska.

Pfc. Jack Stokes is due home from the Far East . . . Mrs. O. C. Nance is the newly elected corresponding secretary of the Columbus Womens' Real Estate Association . . . Lt. Col. William E. Bright, Finance Officer of the 37th Division, is back in "civvies" again.

Church Quiz To Determine Sermon Topics

Members of the Hilltop Church of Christ (Disciples) recently filled out questionnaires in which they were asked, among other questions, to state the kinds of sermons which meant the most to them.

Among 12 areas suggested, the six which received the highest number of votes in their order of popularity were: 1. My Faith and My Family; 2. What Do Christians Believe; 3. Religious Approaches to Social Problems; 4. How to Tell Right From Wrong; 5. The Personal Devotional Life and 6. Books of the Bible or Men and Women of the Bible.

The purpose of the questionnaire was to determine the interests of the congregation so that the teaching, worship and fellowship of the church will be more effective.

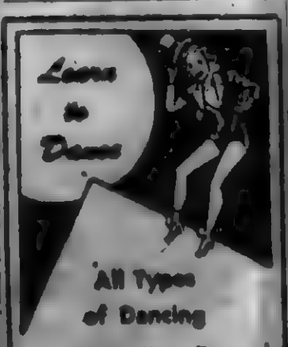
A tense moment from the film, "Mr. Christmas," feature picture of the John Deere Day program to be held for farmers and their families.



"Mr. Christmas," a full-length, full-color entertainment feature, will highlight the John Deere program planned for farmers and their families by Riebel's, local John Deere dealer. The program is to be held at the Riebel's implement store on Thursday, Dec. 17, 1953. The affair is scheduled to start at 10:30 a. m.

The picture, "Mr. Christmas," filmed especially for John Deere Day, is the story of a small community's centennial celebration and how it affects the lives of the people who live there.

Erville Alderson as Abijah Dean heads a cast of outstanding Hollywood players that includes B. G. Norman, Barbara Wooddell, Lloyd Corrigan, Minor Watson, Chic Chandler, Milburn Stone, Kirby Grant, and Emory Parnell.

"Mr. Christmas," according to Mr. Riebel, is filmed in beautiful color and the story runs the gamut of emotions from the touching to the tickling, and promises the audience many moments of suspense. Other films included on the program are "The Job Ahead," telling of the task that faces agriculture as a result of population increases and what's being done about it; "The Safety Pin," with those John Deere favorites, the Gordon family; "Oddities in Farming," dealing with the unusual in farm machinery and farming practices, and "What's New" for 1954, consisting of a parade of new John Deere machines which will be available for the coming year.

Mrs. John M. Shisler, high priestess, has issued invitations to Thea Court's ceremonial honoring Bertha Bromwell, grand high priestess, at the Neil House, Dec. 14, at 1 p. m. A banquet will be served at 6 p. m.

At 7:30 "Calendar of Melodies," a play of musical moods picturing the months of the year, will be presented under the direction of Mrs. E. W. Harrington, Mrs. A. H. Ritter and Eula Yost.

Decorations Being Made In Craft Classes

The craft classes of Glenwood Center have undertaken to make Christmas tree decorations for a tree which will be placed inside at the center. These decorations are being made of aluminum foil and metallic paper of various colors.

The children are also being urged to bring in the lids from tin cans which will be used on the large tree in front of the center. Other decorations are also being made for the large tree at city hall.

The decoration of the latter tree will be a project of all the Columbus Recreation Centers.

A Grain of Sand

Is anything less important?

A speck lost in the lonesome thunder of the surf . . . a billionth part of a desert dune . . . an irritant to the oyster . . . a trifle in the path of the snail.

Such is a grain of sand.

Yet this same grain becomes strikingly significant and important when combined with other grains and made to stick to them: A skyscraper rises; highways and bridges link a state and a nation; a tunnel bores its useful way under a river bed; and products of glass make our everyday living immeasurably easier—all because sand *sticks together.*

Almost all of us want a better world for ourselves and our children — a world of freedom, peace, and opportunity to live full and useful lives. But there are forces working against this realization. Ruthless men and ruthless nations have stated that freedom and opportunity are privileges of the state to dispense or withhold, not a right of the individual to obtain for himself.

Any *one* person of the two and a quarter billion people on earth may be likened to a grain of sand in so far as his individual efforts to build a better world are concerned. It is when men *join together* that their combined efforts count for something.

Join a church and become an active part of a mighty force for good! Your Church will *always* be against any dictator or clique that denies men the right to a just, peaceful life. Your church needs men and women who will worship together and work together, under a guidance greater than mortal man's, to achieve true freedom.

Men have wrought miracles of sand.

Your church achieves miracles—with men.

And we know that all things work together for good to them that love God, to them who are called according to his purpose.

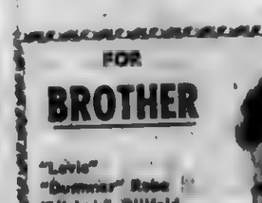
YOUR YOUTH

By Bob Schmidt Dick Wilson

With the Christmas Season around the block the Hilltop "Y" activities are beginning to assume holiday atmosphere. The Girls Craft Class are making a Christmas Corsage for their mothers and friends. They have other craft projects planned to help them with their Christmas shopping. The Indian Guides are planning Christmas parties with their fathers and we can hardly wait to taste the food which is always served at the Pow Wows.

The Hilltop "Y" Mothers Council will have a covered dish Christmas luncheon at the home of their president, Mrs. Fred Dunsch, Thursday, Dec. 17. There will be a gift exchange and the members of the council are requested to phone their reservations to the "Y" office this week.



Don't forget to attend the first annual Hilltop Community Sing, Dec. 13 at 6:30 p. m. on Glenwood Recreation lawn sponsored by the Hilltop Community Council. This program will be only a half hour and we know each of you will enjoy the Community Christmas Sing.

The Hilltop "Y" sports program is in full swing with basketball and volleyball for boys and men. The Junior Church League has eight teams and plays every Wednesday evening. The Intermediate Church League with eight teams, has scheduled play on Monday evening at John Burrough's gym with Harry Grashell supervising the league.

The "Y" Volleyball League is played every Friday evening at the Glenwood Church gym. This is a league for men over 30 and these fellows really enjoy the opportunity for team competition and individual exercise.

In closing this week I must mention the State Southeastern District Hi-Y Conference. The West Hi-Y Club was well represented and assumed several major responsibilities at the conference. The theme "Conference For Youth — Planned By Youth" was stimulating and the 500 Hi-Y representatives were given the opportunity to enter workshops and discussion groups of their choice.

Hilltop Stores Abound in Gift Selections

The most fanciful wish in each letter to Santa may come true when the child's order is filled from the plentiful stocks in Hilltop stores. In plentiful supply for this week's big buying rush are toy selections including all of the American made toys, all types of wheeled goods, trains and accessories, and many, many types of dolls.

For the hobby-minded man in your life, you may choose from sporting goods or specialized tools selections. Other gift possibilities range from clothing items and jewelry to gift-packaged tobacco.

Hilltop merchants have, through judicious buying, assured a variety of gift choices for women to suit every taste and fit every budget. A very large selection of robes, lingerie and dresses is still available.

Furniture stores are prepared to come up with the answer to any of your needs in their particular lines.

And so it goes on down the list . . . a fine selection of nationally advertised gift merchandise and right here at home in Hilltop stores where you have no problem in parking and away from the jostle and shoving of the downtown stores.

Enjoy your Christmas to the fullest . . . have some strength left from that shopping ordeal by visiting the local stores for your needs.

* * *

Briefly Told: If you haven't already done so, why not provide a gift for the family dog in the form of his annual dog tag which will be due around the first of the year anyway . . . Mr. and Mrs. S. J. Westlake, he the founder of The Hilltop Record, will celebrate their 50th wedding anniversary comes Jan. 18 . . . Elmer Jones, known to many Hilltoppers, and a former West Hi grad, is operating a wreath business at 980 W. Mound-st, and invites you to drop by . . . They tell the story that a local motorist was asked to move along in Broad-st one evening this week when he continued to sit still in his car waiting for one of those new red Christmas decoration lights to change to green . . . Mrs. Matilda D'Harra advises from up Yonkers, N.Y., way she picked two quarts of red raspberries on Thanksgiving day . . . That severe wind of last Wednesday night may have been something of a result of the fact that Chubby Distelhorst got 11 strikes in one game while bowling that [illegible]

* * *

Then consider this:

If you had started on Jan. 1 in the year 1236—256 years before Columbus discovered America—and spent ONE MILLION DOLLARS EVERY DAY throughout that year . . .

. . . and if you had continued to spend ONE MILLION DOLLARS EVERY DAY of every year in the 716 years that have elapsed since that time . . . . . it would still take you until May 8, 1953, to spend as much money as the U.S. Government has collected in taxes since World War II ended.

That's what the 262 billion tax dollars — which your Federal Government has collected and spent in the period from August, 1945, to January, 1952—amounts to.

That's why $1.00 out of every $5.00 you've earned in the last 6¼ years has gone for federal taxes. (This is in addition to the state, county and local taxes you pay—including your state gasoline tax.)

That's why $1.00 out of every $4.00 you'll earn this year is earmarked for federal taxes.

Electric Train Ad Draws 25 Calls

Mrs. Don Rumley, 2970 Wicklow-rd, had over 25 calls for the following ad:

"Lionel electric train, 5 cars remote control, 71 pieces of track, 2 pair switches. Other accessories. $30. JO. 2649."

Yes, Mrs. Rumley was surprised but that is the kind of response you get when you place a classified ad in Hilltop Record and West Side News.

Now that winter is here are you going to be one of these "I-wish-hads" people. You know the kind we mean—one of those individuals who are constantly complaining "I wish I had bought this or that when I had a chance."

The only way to overcome that condition is to read the want ads carefully and thoroughly every week. When you find one that interests you, act promptly. There is nearly always a big demand for anything advertised for sale at this season.

If you have a business problem —hiring, buying, selling, renting. Call RA. 1123 and we will be glad to help you.

Eight Zoning Cases Slated For Hearing January 25

Jan. 25 will be a busy day for the Franklin County Rural Zoning Commission insofar as the Hilltop and West Side areas are concerned with eight cases slated for hearing on that date. Six of the cases in which rezoning has been asked are slated for Franklin Township Hall beginning at 8:00 p. m. on that date while the other two cases are to be heard earlier at 7:30 p. m. in the Prairie-twp Firehouse.

In Case No. 276 Cecil L. Neff, 250 E. State-st has applied for a change of zoning on Lots No. 3, 4, 5, 6, 7, and Reserve C of the First Searles Addition and 0.16 acre tract south of and adjoining Reserve C at the northwest corner of Geneva-av and Harrisburg-pk from a Residential and Agricultural District to a General Commercial District.

New Water Line Pipe Contracts Are Awarded

The city board of purchases voted unanimously last Friday to award a contract for nearly six miles of pipe for a 36-inch water main for the Hilltop area to Universal Concrete Pipe Co., 297 S. High-st.

Universal got the contract on a $431,673 bid although Price Brothers of Dayton had submitted a bid of $17,613 lower. Experts recommended the Columbus pipe as superior.

Service Director Harry D. Metcalf said both Water Superintendent Paul S. Leux and Consulting Engineer H. G. Dill advised acceptance of the Universal product. Dill pointed out, Metcalf said, that the Columbus product has greater concrete covering over the steel shell to protect the pipe from water or acid corrosion.

Attorney Kline L. Robert, representing the Dayton firm, argued for its product as cheaper and equally durable and contended giving the contract to a Columbus firm at a higher bid was not good business.

The board also considered arguments by Delmar G. Starkey, general manager of the Columbus Chamber of Commerce, concerning Universal's proposal to build a $150,000 addition to its plant to handle the pressure pipe contract.

Starkey said the proposed addition would increase local employment and, consequently, city income tax. It would also put Columbus industry in better position to bid for future contracts for water pipe, such as the Hoover Dam network, he said.

Agricultural Society Leaders And Hilliards Officials to Meet

A meeting has been scheduled between officials of Hilliards village and Franklin County Agricultural Society, and the County Health Department for Jan. 11 on a clean-up of the Franklin County Fairgrounds.

The meeting was arranged Thursday by the health department which earlier this year notified the agricultural society that sanitary conditions must be corrected if future fairs are to be held.

A spokesman for the health department said nothing has been done as yet to comply with the order.

Meanwhile, Hilliards officials, including Mayor Edward Patterson, were in Common Pleas Court fighting to stop water service to the fairgrounds.

An order prohibiting the village from shutting off water was issued at the request of the Columbus Trotting Association which insisted that horses stabled at the fairgrounds were otherwise endangered.

"Wizard Of The Brush" Brightens Hilltop Area With Brilliant Nature Scenes During Holidays

Cecil "Wick" Leonard, fast art wizard displays here one of the scenes for which he is famed throughout the Hilltop and Central Ohio. This scene incidentally is painted on the wall of his living room at 142 Mix-rd. (Record Photo)

Each year throughout the Hilltop area, Christmas really comes to life when the dextrous hands of Wick Leonard again go to work in wielding paint loaded brushes across many Hilltop firms' plate glass windows. In many locations throughout the area at this season of the year can be seen the artistic efforts of this "Wizard of the Brush".

Wick (his real name is Cecil N. Leonard) is truly a wizard. He dashes off those brilliantly colored masterpieces in such a short span of time that those who have engaged his services are truly amazed. And the man whose artistry has become a by-word in this area not only amazes with his skill with the brush and paints but also possesses many other talents that add facets to an already colorful personality.

"Fast art, that's the technique I use," said Wick this week. "It's different from the kind they teach in the schools today.

"Using oil paints, he takes a wide brush to apply the colors rapidly. As a matter of fact he actually has several colors on his brush at one time. His Christmas pictures have a quality of seeming to be illuminated. "It's the blend that gives the effect" he said.

The fast art technique was handed down to Wick by his father and from generations before him. "My father was a fast scroll artist," he said. "That's a fast art now. The scroll artists painted the fancy designs and lettering on the old fire wagons."

Wick can be easily spotted in any crowd even though at the time he is not engaged in painting of some scenic setting. A broad-brimmed hat and a neckerchief about

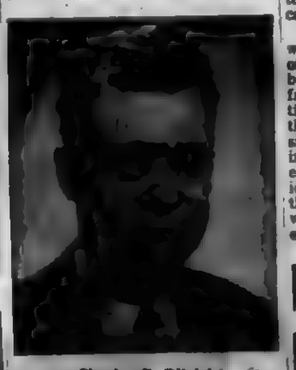
Kiwanis Newspaper Sale To Be Made Thursday

Nearly 250 business and professional men of the Hilltop area will become newsboys for a short span of time again Thursday night when they will knock on doors selling the Hilltop Kiwanis Club Christmas Newspaper of 1953. Proceeds of the sale of the newspaper by Kiwanians go toward the furthering of youth activities in the community.

Thursday will see the 1953 sale initiated at the noonday luncheon meeting of the Kiwanians when first editions of the newspaper will be auctioned off to many celebrities and civic leaders who will convene with the local Kiwanis members for the occasion.

Clarence Latham, genial local auctioneer, will handle the auction chores during the meeting which will see early editions bring high prices to give the initial push to Thursday night's canvass.

When the "Newsboys For a Night" assemble at the West High School cafeteria for a luncheon and instructions before actually "hitting the streets," there will be evidenced the true community spirit of Hilltop cooperation. On hand, in addition to the membership of the Hilltop Kiwanis Club, will be members of the West Franklin County Kiwanis, Hilltop Lions and Camp Chase Post of the American Legion to aid in the sale of the Christmas newspaper.



Ladies of the Hoge Memorial Presbyterian Church will be on hand to serve the meal at the 6 p.m. gathering and afterwards when the newsboys have made their rounds they will report to the Camp Chase American Legion Home at 2211 W. Broad-st for checking in of their receipts and to enjoy coffee and doughnuts.

Residents of the Hilltop area who wish to buy the Christmas newspaper are being asked to turn on their porch lights to guide the newspaper salesman to them and to show that they desire that they call.

Kiwanis Club officers this week were anticipating the biggest sale of newspapers this year than ever before, primarily because of the fact that so many other organizations have evidenced interest in the project by offering aid and assistance. The sale of advertising in the edition also this year pointed toward a new high and lent evidence to the belief that this is the year in which the Hilltop Kiwanians will achieve their greatest success with the sale.

Charles Ditrick Is Elected New HCC President

day evening. Ditrick will succeed Robert Schmidt as leader of the local organization.

Other officers named during the election were Dick Wilson, vice-president; Mildred Phalor, secretary; Mrs. Ruth Rhoederer, treasurer, and Mrs. Helen Radcliffe as corresponding secretary.

Installation of the newly elected officers for 1954 will take place at the next regular meeting of the group on Jan. 14, at the Hilltop YMCA branch office.

The organization at the Thursday meeting also voted to assume the responsibility for supplying Christmas treats to the children of Columbus State School.

Painter Files $100,000 Suit

A $100,000 slander suit growing out of the mysterious death of Mrs. Madeline Updegraff, 7220 N. High-st, was filed last Friday in Franklin County Common Pleas Court.

The suit was brought by George Painter, 1642 Sullivant-av, against the National Detective Bureau, 5 E. Long-st, and John Oberdorfer.

Painter charged that on last June 2 the detective agency "publicly, falsely and maliciously" accused him of "the crime of murder."

After an investigation, authorities ruled Mrs. Updegraff took her own life. Her body was found last May in a pipe north of Worthington.

Reorganization Is Planned For Juvenile Center

Delbert E. Nixon, acting superintendent of the Boys' Industrial School, is to become superintendent in a reorganization of the Bureau of Juvenile Research, 2280 W. Broad-st, the first week in January, according to announcement by State Welfare Director Henry J. Robison.

The name of the Hilltop institution will be changed to the Juvenile Diagnostic Center, Robison said.

Nixon will take over the administrative duties at the institution, Robison said, giving Dr. Maurice Newburger, head of the institution since 1947, more time for professional work supervising the clinical staff.

The new superintendent, who is 44 years of age, will take over his new duties after Col. Harold L. Hayes, now with the 37th Division at Camp Polk, La., returns as superintendent of the Boys' Industrial School.

Robison said a full-time consulting psychiatrist will be employed at the diagnostic center to replace the present part-time psychiatrist. One hundred beds were added to the institution Sept. 15 with the opening of a new $600,000 building.

Children from 50 Ohio counties are sent to the Hilltop institution for diagnostic purposes. It also is used for consulting service for all 88 counties in the state.

Jack Sherick Again Plans Annual Yuletide Party For The Orphans

Jack Sherick

Jack Sherick of Sherick's Dance Studio, 87 N. Fourth-st, will play host to 114 orphans from St. Vincent's and Hare's orphanages, for the 14th consecutive year, on Sunday, Dec. 27, from 12 until 4:30.

The annual party is supported entirely from proceeds of students' shows and from teen-age dances held on Saturday evenings at the studio. Marianne Gillivan's Hilltop students raised the most money for the affair, followed by students from Linden and Worthington studios. The fund this year contains $1300, all of which will be spent on gifts for the orphans.

Each teen-age boy will be presented with an entire Scout uniform and other gifts will include large dolls, skates, clothing and jewelry for the older girls. Each child receives the gift he requests, plus two other items. The afternoon program will also include a show given by pupils of Jack Sherick in honor of the orphans and will be televised on Channel 6 from 12 until 1 p.m.

Plans for next year call for making the teen-age dances a regular Saturday night event. The dances, held at the studio, are well-chaperoned, and a juke box is available for dancing. The entire admission of 50c is applied to the orphans fund, with no money withheld for operating expenses.

Jack Sherick has set a goal of $2,000 for next year's orphan party, and hopes to accomplish it with proceeds from these dances.

MARINES, SCOUTS HAPPY

"Toys For Tots" Campaign Over The Top

PICTURED HERE IS ABOUT 75% OF THE TOYS received by the Marine Corps Reservists in their annual "Toys for Tots" campaign conducted last weekend. These toys have just been hauled into a large airplane hanger at the Naval Air Station. The picture was taken before the Marine Reservists began sorting the toys.

Over 150,000 toys were collected by some 8000 Cub Scouts, Boy Scouts and Explorers in their drive last week-end for the "Toys for Tots" Campaign. The Scouts and the Columbus Marine Corps Reserve Units co-operated this year to make sure that no underprivileged child in Franklin County will be missed by Santa Claus.

Commenting on the campaign, Major Richard Pryor and Capt. Thomas H. Dudgeon, commanding officers of the local Marine Reserve units, both said . . . "We had hoped to get as many as 40,000 to 50,000 toys, but we never expected an avalanche of toys like this. Folks in Franklin County really poured out their hearts in contributing to this worthwhile venture."

As is always the case with Boy Scouts, whenever they take on a project they work like beavers to make it successful. The "Toys for Tots" campaign was no exception. The Scouts canvassed the entire Franklin County on Saturday, Dec. 5, placing door knob hangers on every home to remind folks that they would be around Saturday, Dec. 12, to collect their toy donations.

This last Saturday the Scouts were all organized . . . and with borrowed trucks . . . dad's cars . . . wagons and whatever they could get . . . they set out to call at each home to collect toys.

Marine Reservists are now sorting the toys at the main collection station and they hope to have all the toys sorted and distributed to welfare agencies by this week-end.

The toys will be distributed through Information Center, Social Council of Welfare Agencies, Franklin County, to all recognized welfare organizations in Franklin County. The marines hope to have all their deliveries made to these agencies by Saturday, Dec. 19.

Our Christmas Decorations

The snow which fell this Monday lent an added aura of Christmas to the Hilltop area this week especially so in the case of the brilliantly lighted areas at W. Broad-st and Hague-av and at Sullivant-av and Hague-av where the Hilltop Business Association has done an excellent job this year.

In the years past, although the decorations have been available they have been strung out along a widespread area with the result that the showing has been more or less meager. This year however, the planning of the decorations showed much more thought, in that the grouping has been more concentrated and as a result the holiday spirit is more apparent to the many who travel these two principal Hilltop thoroughfares.

We are informed that the wire installations which have been erected for this years holiday display are to be permanent and that they are so arranged that they can be added to in future years, this too reflects forward thinking on the part of the Hilltop Business Association.

The decorations this year are a credit to the Hilltop and with the foresight that has been shown, in years not too far distant we hope that some day the entire Hilltop will be ablaze with the multi-colored lights and decorations that are symbolic of the Holiday Season.

ANNUALS

The annual is a plant that lives only one year, and is grown from seed or root. The stems are an arrangement of woody tissue in the form of a cylinder around the pith, by which the plant is fed from the roots in the ground. This is easily seen when the stem is broken. In annuals the pith usually occupies more of the stem than does the wood.

Mrs. E. A. Garrison

Then there are the biennials—the plant that lives two years, and the perennials, that live for two or more years. The boundaries between these classes are not always definite. For example winter wheat is an annual although it does not seed until the next year after planted. The cotton plant, lima beans, tomatoes and castor beans are planted by us as annuals but in warm climates they live for several years. Wheat is one of the most important annuals, although we do not always think of seed and root foods as annuals.

The death of the annual in the fall is supposed to be due to the arrival of cold weather. This is not true and often the growth period is shortened in regions where there is no cold weather. Therefore the annual is just what its name implies, a plant that lives for one year only.

We think of annuals mostly as flowers but there are the vegetables such as beans, corn, peas and potatoes, which are classed as annuals. We have just enjoyed the three seasons with beautiful flowers—sweet peas, nasturiums, marigolds, zinnias and asters. There are too many to name them all. We must not forget that some of the lowly weeds are annuals and many of them are beautiful and can be made into lovely dry arrangements in the fall for winter bouquets.

I am very fond of annual flowers and look forward to planting seed in the early spring and watching them grow and mature into the beauty which we all love in a flower, even though some are very small.

Here are a few Christmas poems and quotations which will be better reading than anything I could write:

And numerous indeed are the hearts to which Christmas brings the season of happiness and enjoyment—Dickens.

Heap on more wood—the wind is chill,
But let it whistle as it will,
We'll keep our Christmas merry still. —Sir Walter Scott

What though upon his hoary head
Have fallen many a winter's snow?
His wreath is still as green and red
As it was a thousand years ago.
For what has he to do with care!
His wassail-bowl and old armchair
Are ever standing ready there,
For Christmas comes but once a year. —Thomas Miller

Everywhere, everywhere, Christmas tonight!
Christmas in lands of the fir tree and pine,
Christmas in lands of the palm tree and vine;
Christmas where snow peaks stand solemn and white,
Christmas where corn fields lie sunny and bright.
—Phillips Brooks

APPOINTMENT IN DECEMBER
O day whose Miracle transforms
Our churlish selves and tranquilizes them;
Drives wintry gusts from hearts of men, and warms
Their spirits with the glow of Bethlehem.
O night, affections fountain on the air,
And memory's long-forgotten flowerings bar
The soundless resonance of dreaming care,
Lost where we walk the roadway of a star.
O hour astride the paths of death and life,
With heaven's cordons looking on above,
Sky-tethered over vaults of earthly strife,
Escutcheoned with no symbol but of love.
Edward McNamee (Reprinted)

QUERY
I wonder if Mary, as most mothers do,
Made plans ahead?
The small coverlets for the tiny bed?
Was she disappointed
When they laid Him
Upon the hay, instead?

Mail — From two or three friends: The Christmas cards have started to come and I haven't even ordered mine yet . . . From a patient at Benjamin Franklin Hospital: My operation was a success. I am going to be well, thanks to everyone who bought Christmas seals and helped in other ways . . . From Newark: Here are a few marks of the educated man I thought you might use. Am not sure who wrote them: He never laughs at new ideas; He always listens to the one who knows; He cultivates an open mind; He knows it is never too late to learn . . . From Columbus: President Eisenhower's talk this afternoon (Dec. 8) is the first half-hour tv show my husband ever sat through without going to sleep . . . From Kenton: MY "thoughts while washing dishes" Thanksgiving Day were that some day I'm going to buy paper plates!

"What you need more seals? Then just pick up your telephone and call ADams 3241. They'll be out in the next mail. Remember too that every seal you buy helps to buy more free chest X-rays."

The above may not be just exactly the words that Paula LaZarus aged 2, of 151 N. Wheatland-av, is saying into her toy phone, but it does serve as a reminder of the wonderful work that is done each year at this time by purchase of the Christmas Seal.

These Eyes —

How Well Do You Know Them?

This is a new feature of The Hilltop Record. We know you'll find it entertaining in testing your own powers of observation and memory in identifying the person to whom these eyes belong.

The eyes have it in the opinion of many readers of The Hilltop Record who have found this new feature to be one of the most entertaining items in these pages. Last week some of our readers were a bit confused by the eyes which appeared and there was some wild guessing. They belonged however to Arthur J. Bellar, Sr., of 326 S. Algonquin-av, a long-time Hilltop resident who has long been active in civic affairs and especially in those concerned with city hall. At present Bellar is an aide in the civil defense setup.

Arthur J. Bellar, Sr.

This week's eyes will prove a puzzler to many, even though their owner is quite familiar throughout the Hilltop area. A clue? The eyes have it.

"The Christmas Vision" To Be Sung, Dec. 23

A Christmas cantata, "The Christmas Vision," by Roy E. Nolte, will be given at the Hilltop Church of God, 685 Whitethorne-av, on Wednesday evening, Dec. 23, at 7:30 p.m.

The choir, composed of 21 voices, is accompanied by Joy Plank, organist and Mrs. Gwelda Morman, pianist. Delbert Morman is choir director and the pastor is Rev. O. G. McClure.

A teacher questioned a small pupil. "What is cowhide used for?" she asked.

"To hold the cow together, for one thing!" replied the imaginative one.

Gittin' lit up ain't even a sign of brilliance.

Cowboys Win Two Victories; Meet East's Tigers On Friday

By Woody Owen

West High's basketball squad broke out of their early season scoring slump last week as they notched up two more non-league wins, to even up their season's record with three wins and three losses.

On Thursday night the Cowboys having their hottest shooting night of the young season slaughtered London by a score of 83-43. In this game every local player to see action broke into the scoring with Jim Vincent pacing the attack with 24 points, although sitting out the last 12 minutes.

Friday night the Cowboys pulled a mild upset by handing previously unbeaten Marion Harding its first loss by a score of 74-71 in one of the wildest and most hectic contests witnessed on the local court in many seasons.

The officials called a total of 55 rule infractions, but could have called twice that many, as at times the game more resembled football than basketball.

This contest saw a new local scoring record established as Jim Vincent hitting brilliantly from all angles made 14 of 25 field goal attempts and added five free throws for a total of 33 points to better the old mark of 31 points set by Jerry Trabue against London on Feb. 23, 1951.

Vincent fouled out with two minutes remaining and the score tied 66-66 but successive goals by Pruden, Bowman and Chappelear put the Cowboys ahead to stay.

Bob Hamer scored 20 points and played an outstanding rebound game for the Presidents. Sharing the honors with Vincent for the Cowboys was the great rebound work of Ruffner and Hicks.

The Cowboys Junior varsity continued their fine play as they notched up two more wins over London 37-27 and over Marion's "seconds" 59-51 in one of the best played reserve tilts witnessed in quite some time.

This Friday night the Cowboys swing back into City League action when they visit East High School to tangle with the Tigers in what should be another hard-fought contest.

YMCA Junior Church League Race Tightens

By Dick Wilson

The Hilltop YMCA Junior Church League race tightened up last week as three teams remained tied for the first place position after completion of the second league night held at John Burroughs gym.

Hoge Memorial showed that it was out to try to repeat as league champion by walloping an inexperienced but scrappy Westgate Methodist team to the tune of 79-11. John Edwards was once again the big gun for the Presbyterians as he pumped in 25 points for the evening's efforts. He was followed by Bates and Brokaw, each of whom bagged 14 markers. All of the Hoge players broke into the scoring column. McQueen showed a lot of form and good potential for the George Miller five as he collected seven points.

The West Junior Hi-Y had to make a spectacular second half comeback against the Junior Firemen to remain in the first position in the loop race. The Firemen, a greatly improved team from the previous week, held a 14-3 halftime advantage.

The "Y" boys came back in the second half, led by Dave (Bevo Jr.) Francis, and outscored the Firemen 18-4 to gain a 19-18 advantage at the end of the third quarter. Francis continued in the fourth quarter on his scoring spree and the "Y" team won the game 33-22.

Francis led the Eagle coached five with 23 points total. Smith was high for the losers with six, closely followed by Norris, McPherson and Miller, who gained four points each.

Glenwood Methodist ran into a power house in the Hilltop Church of Christ, who blasted the Methodists 64-16. The Methodists, who were at a height and inexperience disadvantage, could not cope with the Bowman, Sneidigar combination of Coach Alva Dixon. Bowman was high for the Church of Christ five as he bagged 25 points, Sneidigar was close behind with 20. Lowery was high for the losers with six.

The final game of the evening was the "thriller" as Westgate EUB knocked out Burgess EUB, 33-27. The game was highlighted with a "wrong-way Corrigan" field goal scored by Smith of the Westgate five for the Burgess team. The game was in doubt until the final few minutes of the game, but the height advantages of the Williams coached five was too much for the scrappy Burgess team to overcome.

Ron Ireland was high for the victors with 12 markers and DeWitt led the Grant coached five with nine.

Your Youth

By Bob Schmidt Dick Wilson

It is only appropriate that we open this week's column with a word of thanks to the Hilltop Lions Club for the wonderful Christmas party which they have planned for some deserving children. Games, refreshments and Santa Claus will be the highlights of the party which will be held at the Hilltop YMCA office.

While words of thanks are being passed out I would like to say "Thanks a Million" to John Kuntz, Tom Reeves and the rest of the assistants who helped with the Gra-Y Touch Football League which has just recently been finished.

The awards for this league are being passed out at the schools in assemblies before the student bodies. Individual awards are being given to everyone who participated in the league and a championship trophy and individual championship letters are being given to West Broad, the league champions.

The Gra-Y basketball leagues are at this time completing their practice sessions and clinic work. League play will begin for the Class A team on Monday, Jan. 4 and for the Class B team on Thursday, Jan. 7. The A league is for Gra-Y boys 11-12 years of age and the B league is for Gra-Y boys 8, 9, and 10 years of age. All games are played at Glenwood Methodist Church.

With the snow falling and the temperature dropping, I know you are getting the Christmas shopping fever; so in closing this week's column, Bob and I wish to say "Good shopping to all of you!"

Good, Better, Best

Three small boys were bragging about their fathers.

"My dad," said the first, "writes out a few short lines, calls it a poem, sends it away and gets $10 for it."

"Shucks" said the second, "My dad makes some dots on a piece of paper, calls it a song, sends it away and gets $25 for it."

"Piker," said the third scornfully. "My dad writes out a sermon on a piece of paper, gets up in the pulpit and reads it, and it takes four big men to bring in the money."

Little Bobby attended his friend's birthday party, and was offered a second piece of cake. He looked longingly at it, but refused with a polite "No, thank you."

"Oh, Bobby, coaxed the hostess, "every one else is going to have another piece and you must too."

"Well," replied Bobby, weakening, "Mother told me one serving was enough, but probably if she knew how small the pieces are she would think it was all right.

Church Building Group Names New Officers

At the regular monthly meeting of the building committee of the Westgate Methodist Church held Monday evening, Dec. 14, at the church, Walter J. Cochran, who represents the board of trustees on the building committee, was elected the permanent chairman. Mrs. Paul Leighninger was elected as the permanent secretary for the committee.

Heard were reports of the five sub-committees which had visited approximately 30 recently completed churches and educational buildings through the Greater Columbus area. Many valuable ideas and suggestions were received from these visits. Each committee member reported concerning the fine structures built by their neighbors, particularly those here on the Hilltop.

The committee is seeking further suggestions from the members and friends of the church before the next meeting scheduled for Jan. 11. These may be given to Mr. Cochran, Mrs. Leighninger or any other member of the committee.

A woman went into a grocery store. "How much are eggs?" she inquired.

"Eighty cents a dozen," informed the clerk.

"Eighty cents! That's terrible!" she protested.

"That's on account of the defense program, Madam," he said.

"What's defense got to do with eggs?" she asked.

"Hens are making shells!" he explained.

Festive Cookie Recipe Offered By Mrs. Nellie Wolfe This Week

Mrs. Nellie Wolfe

Another holiday recipe is offered this week to readers of the Hilltop Record. It is "Nut and Date Cookies", submitted by Mrs. Nellie Wolfe, of 336 N. Sylvan-av.

The donor is junior vice-president of the VFW and a two-year trustee. She also serves as leader of Girl Scout Troop No. 286, helps with Cub Scout Pack 56 and is a member of West Broad PTA.

Her husband, William, is associated with the Farm Bureau Insurance Co. as a commercial underwriter, and the couple has two children, Judy 11, and Bruce 8.

These cookies, with their simplicity of preparation and minimum of ingredients, are so simple that, literally, a child may assemble them. They provide a wonderful opportunity for children to join in the spirit of holiday preparation.

"Nut And Date Cookies"

2 egg whites
Pinch salt
1 cup confectioners' sugar
1 cup chopped dates
1 cup chopped nuts

Beat egg whites until stiff. Add sugar, nuts and dates and a few drops of vanilla. Drop from teaspoon on greased cookie sheet and bake at 300 degrees until done, from 12 to 15 minutes.

If you work like the devil the boss won't make it hot for you.

About The Hilltop

The Yuletide spirit has this hurry, hurry world in its grip, with so little time left and much to do before we can settle back and enjoy the holiday season. My friend, Marjorie Ann Myers, a talented pianist, would enjoy hearing from you again this year. Discarded sheet music would make her happy. Just address: Marjorie Ann Myers, Maple Cottage, Orient State School, Orient, O.

The Joe Goodwins are planning to spend Christmas with their daughter, Pat, and son-in-law, Mr. and Mrs. Thomas Clark, in Wyandotte, Mich. . . . Bob and Vivian Schmidt will soon be moving into their new home in Westgate. Bob is the Hilltop "Y" secretary. . . . Max Shipley, taxidermist, is making the rug, which will be ready in the spring . . . Bill Wolfe, "Pops" of the bowling clan, is all settled in Miami for the winter.

Bill and Bertha Krause are the proud grandparents of a baby girl . . . W. D. Schumacher has been appointed secretary of the Ohio Industrial Commission . . . Mrs. James C. Camp, well known in church and club circles and past president of the Motion Picture Council, is the new president of Virginia Wright Mothers' Guild . . . Gradale Sorority Adopts Family As December Project

Alpha Nu Alpha Chapter, Gradale sorority, held its regular monthly meeting Thursday evening, Dec. 10, at the home of its mentor, Mrs. Harry Emrick, 239 S. Huron-av. The holiday motif was emphasized throughout the meeting, and the hostess had her home and her table decorated with symbols of the Christmas season.

The organization, an affiliate of the Hilltop YMCA and made up of business and professional women on the Hilltop, voted to "adopt a family" this year as its service project for December. Following the business meeting Mrs. Dorothy Hott, program chairman, directed games and a gift-exchange.

Seen at Seiller's

by sue fredendall

It's getting awfully close to Christmas and you still have some gifts to buy. Just relax about the whole thing and go to Seiller's, pick out the things you want, and charge them. Don't rush around all over town hunting for articles you can find at Seiller's. Shop in the evening while Dad is home with the children.

Here are a few gift ideas you will find in Seiller's basement store — Book-ends with chinese figures, planters, individual coffee servers, (hold two cups each), Electrical appliances. One very popular item is the jounior mixer.

Then there's the very welcome Revere Ware gift, or you might buy that bride a really good cook book, or a Grip'n Cut carving board, or a stove set, knife sharpener, or a steam iron. Folding iron for the friend that travels, cute different salt and pepper shakers for the collector. Tole trays, hair dryers, tom and jerry sets, wrought iron magazine racks. We also saw at Seiller's a beautifully designed wrought iron fruit basket.

Oh yes, be sure to see the pretty hand-dipped candles. Snow balls 25c and up, bell shapes or flame glo. Buy some to give your home the Christmas spirit.

Don't wear yourself out, keep your disposition sweet and sunny for your family, on Christmas at least. There's no happiness in the home if Mom is too tired to enjoy her family. Go to Seiller's, which is so convienient and easy for you. You know the gifts you buy will be of first quality.

Yes, Seiller's is the place to go for the brands you know. Be sure to pick up your 1954 calender at Seiller's, they're just in. Adv.
